About this guide

This guide follows one complete, real run of DynamicMS from the first step to the last: the 12 end-to-end processes, their 111 macro processes, 346 tasks and 1057 steps. The run is the universal scenario of the demonstration database, so every screen, value and record matches the application. It applies to any sector or industry.

Item	Value in this run
Organization	Horizon Universal Holdings (HZ-UNI) — universal vertical, large company, 9167 employees, member of Horizon Industrial Group
Project	HZ-UNI-QMS — QMS full run 2025–2026 — Horizon Universal Holdings
Management system	QMS · ISO 9001 · full lifecycle (FULL)
Project template	TPL-UNI-FULL-QMS — Universal QMS — full lifecycle (ISO 9001)
Period	2025-10-01 → 2026-12-30
Configuration	Solution Pack DMS-ENT; capability packs DMS-AI, DMS-CERT, DMS-ESG; add-ons ADD-01, ADD-04, ADD-06, ADD-07
Sign-in	http://localhost:4000 — password Demo@2026

How to read a step

- **Step, then what to type.** Each step gives its PDCA badge, identifier, name, role and form, immediately followed by its what-to-type tables, before the next step. The first table holds the simple fields: its header row gives the field names as shown in the form, the row below gives the value to type or choose.
- **Record tables: copy and paste.** A record table of the step follows with the column titles of the application and one row per record. Select the table in this guide (header row included), copy it (Ctrl+C), click the first cell of the same table in DynamicMS and paste (Ctrl+V): the paste preview matches the columns by their titles; select Apply. You can also type the rows one by one.
- **PDCA badge.** P (Plan: identify, set, configure, assign), D (Do: execute, document, communicate, train), C (Check: monitor, assess, review), A (Act: decide, close, escalate). Inside each macro process the badges show its own small PDCA cycle.
- **Values.** Type the values as written; choose list values as written; dates are in the format YYYY-MM-DD; amounts carry their currency (MAD by default for this organization).
- **Completing.** Rows are saved as you type (the footer of the table shows All changes saved). Select Complete step to finish the step; the next step opens. A phase ends with its gate (checklist, then Go, Hold or No-Go).

Example — a step and what to type in it, as laid out in the full run:

P **MP-001.1 Fix periodicity of strategic diagnosis** (IMS Manager · Periodicity) **What to type ▾**

Frequency	Next due date	Review chaired by	Organization units in scope	Review inputs and notes
Annual	2026-10-05	IMS Manager	Headquarters, Casablanca site	Inputs to the next diagnosis: last management review outputs, customer complaints of the year, regulatory watch bulletins, supplier evaluation results and the strategic plan. An extraordinary review is triggered by a new site, a new service line or a major regulatory change.

The PDCA dynamic of the run

DynamicMS runs the management system as a Plan-Do-Check-Act cycle at three levels. The 12 end-to-end phases form the large cycle; each macro process has its own small cycle (the P, D, C, A badges of its steps); the process review closes the loop by turning measured data into reports and decisions that start the next cycle.

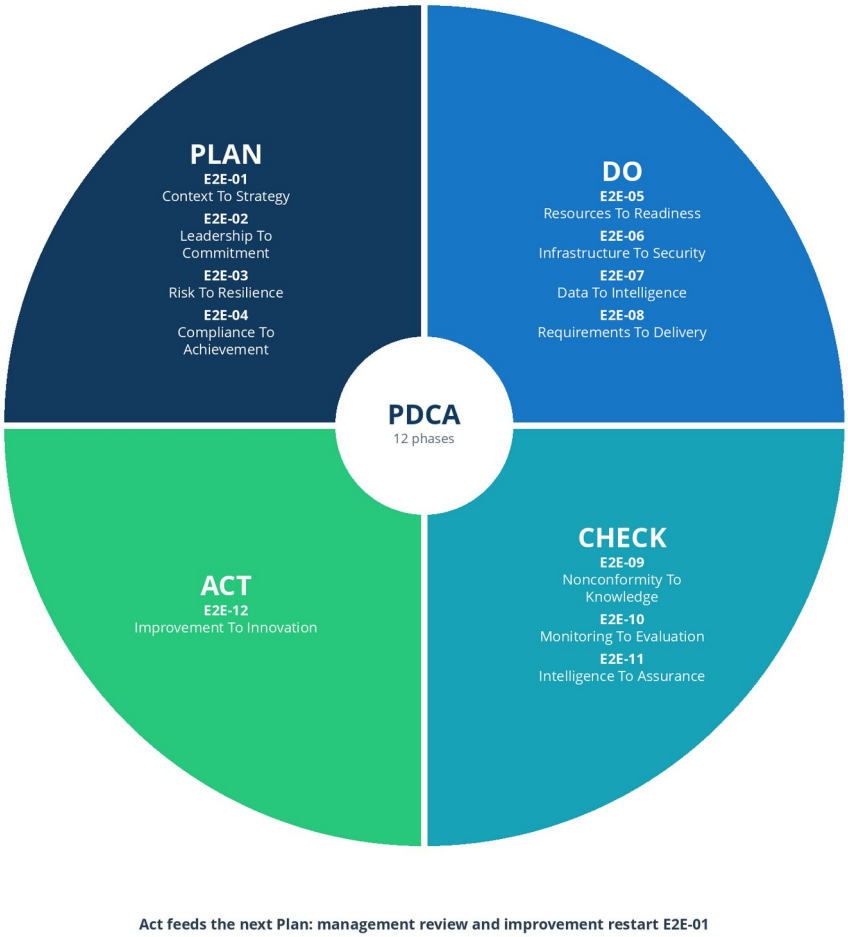

Figure — The 12 end-to-end processes of the run on the PDCA cycle.

PDCA	End-to-end process	What it delivers	What it feeds
Plan	E2E-01 Context To Strategy	Context, interested parties, scope, policy, SMART objectives, process map.	E2E-02 (commitment), E2E-03 (risks), E2E-10 (objective KPIs).
Plan	E2E-02 Leadership To Commitment	Roles, RACSI, governance bodies, leadership commitments and communication.	Every phase (owners and approvers); E2E-10 (management review).
Plan	E2E-03 Risk To Resilience	Risk and opportunity register, treatments, business continuity.	E2E-05 to E2E-08 (controls in operations); E2E-11 (audit universe).
Plan	E2E-04 Compliance To Achievement	Compliance obligations register, evaluation of compliance, certification plan.	E2E-08 (requirements), E2E-11 (assurance), E2E-10 (review inputs).
Do	E2E-05 Resources To Readiness	Competent people, documented information, measuring resources ready for operation.	E2E-08 (delivery); E2E-09 (calibration and competence nonconformities).
Do	E2E-06 Infrastructure To Security	Facilities, IT services and information security in a controlled state.	E2E-07 (data platform); E2E-08 (operations); E2E-09 (incidents).

PDCA	End-to-end process	What it delivers	What it feeds
Do	E2E-07 Data To Intelligence	Governed data, formulas and knowledge; KPI data pipeline; data sources configured.	E2E-10 (measurement and dashboards); E2E-11 (intelligence for assurance).
Do	E2E-08 Requirements To Delivery	Customer requirements reviewed, products and services delivered and released.	E2E-09 (nonconforming outputs); E2E-10 (customer satisfaction).
Check	E2E-09 Nonconformity To Knowledge	Nonconformities contained, root causes analysed, corrective actions, lessons learned (REX).	E2E-10 (NC KPIs); E2E-12 (improvement); E2E-05 (knowledge).
Check	E2E-10 Monitoring To Evaluation	KPI results, process reviews, management review decisions and actions.	E2E-11 (audit focus); E2E-12 (improvement); E2E-01 (next cycle).
Check	E2E-11 Intelligence To Assurance	Audit programme, audit reports, findings and assurance opinion.	E2E-09 (findings as nonconformities); E2E-10 (review inputs).
Act	E2E-12 Improvement To Innovation	Improvement portfolio, innovations, return on investment, updated objectives.	E2E-01 of the next cycle (context, policy and objectives are reviewed again).

The loops that keep the system alive

- **Measure and review (C → A).** KPI values recorded in E2E-07 and E2E-10 feed the monthly process mini-reviews (MP-034.4) and the management review (MP-034.5); each decision becomes an action of the Action plan.
- **Detect and learn (D → C → A).** Nonconformities raised in operations or by audits (E2E-08, E2E-11) are contained, analysed and corrected in E2E-09; their lessons learned update documents and competences (E2E-05).
- **Improve and restart (A → P).** E2E-12 selects improvements and innovations; their results and the management review outputs are the inputs of the next E2E-01 (context, policy and objectives reviewed).
- **Gates.** Each phase ends with a gate decided by Top Management after its checklist: Go moves to the next phase, Hold keeps the phase open, No-Go sends steps back for rework.

Getting started

1. Open http://localhost:4000 (or the address given by your administrator) in Chrome, Edge, Firefox or Safari.
2. Email: type ims@horizon-universal.example. Password: type Demo@2026. Select Sign in.
3. Language: choose EN, FR or ع (Arabic, right to left) at the top right.
4. Project: choose “HZ-UNI-QMS — QMS full run 2025–2026 — Horizon Universal Holdings” in the header switcher. Every screen then works on this project.

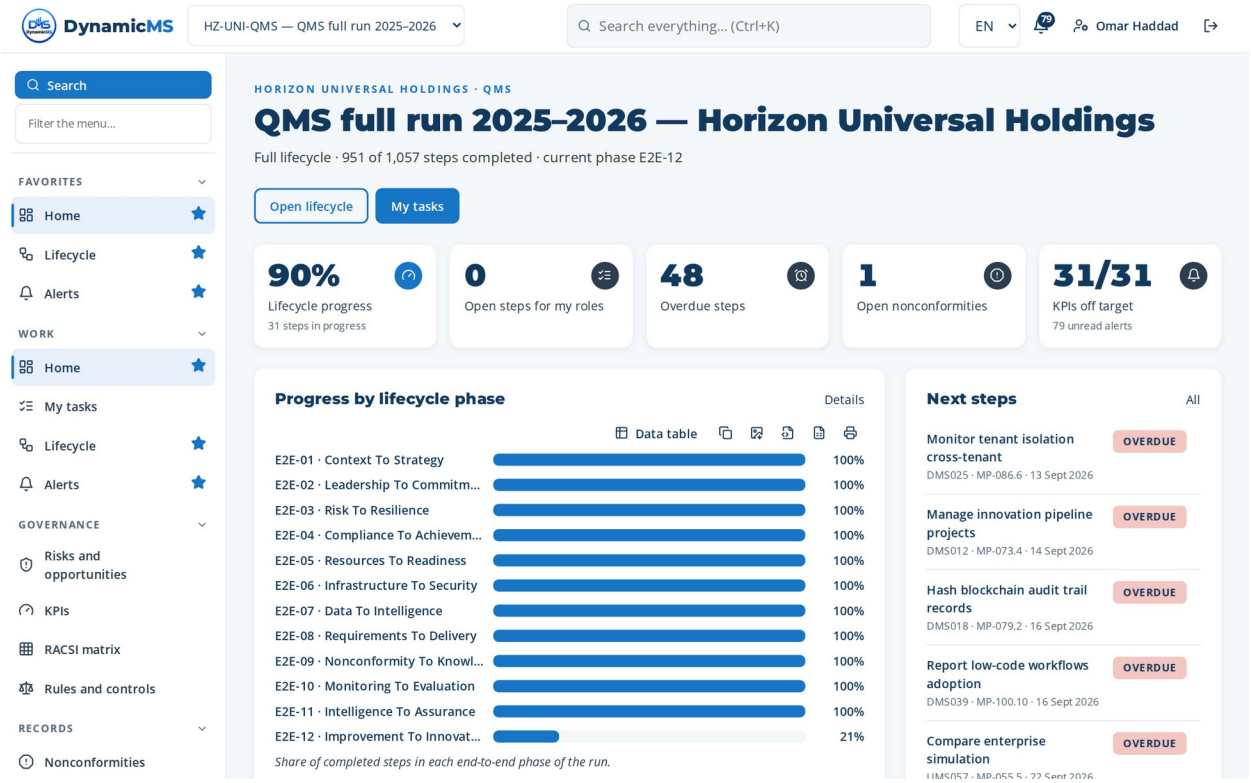

Figure — Home of the project: progress by phase, KPI trend, next steps.

Who does what in this run

Role	Person	Sign-in e-mail
Tenant Administrator	Hind Berrada	admin@horizon-universal.example
AI Governance Officer	Samira Benali	aigov@horizon-universal.example
Internal Audit Manager	Amina Ouazzani	audit@horizon-universal.example

Top Management	Nabil Zerouali	ceo@horizon-universal.example
Compliance Officer	Hugo Lefevre	compliance@horizon-universal.example
Document Controller	Sofia Bennani	documents@horizon-universal.example
Employee	Maya Laurent	employee@horizon-universal.example
ESG Manager	Julien Moreau	esg@horizon-universal.example
HR Manager	Rachid Alaoui	hr@horizon-universal.example
HSE Manager	Karim Tazi	hse@horizon-universal.example
IMS Manager	Omar Haddad	ims@horizon-universal.example
IT Manager	Mehdi Fassi	it@horizon-universal.example

Role	Person	Sign-in e-mail
Operations Manager	Ines Garcia	operations@horizon-universal.example
Performance Manager	Tariq Saleh	performance@horizon-universal.example
Process Excellence Manager	Adam Rahmani	process@horizon-universal.example
Quality Manager	Leila Mansouri	quality@horizon-universal.example
Risk Manager	Nadia Chraibi	risk@horizon-universal.example
Transformation Manager	Salma Kettani	transformation@horizon-universal.example

Create the project

1. Open Organization › New project and select From the catalog.
2. Name: type “QMS full run 2025–2026 — Horizon Universal Holdings”. Management system: QMS. Start date: 2025-10-01.
3. Template: choose TPL-UNI-FULL-QMS — Universal QMS — full lifecycle (ISO 9001).
4. Complexity: set the levels CX-01 = 3, CX-02 = 3, CX-03 = 4, CX-04 = 5, CX-05 = 4, CX-06 = 4, CX-07 = 3 (score 69 / 100), then select Create project.

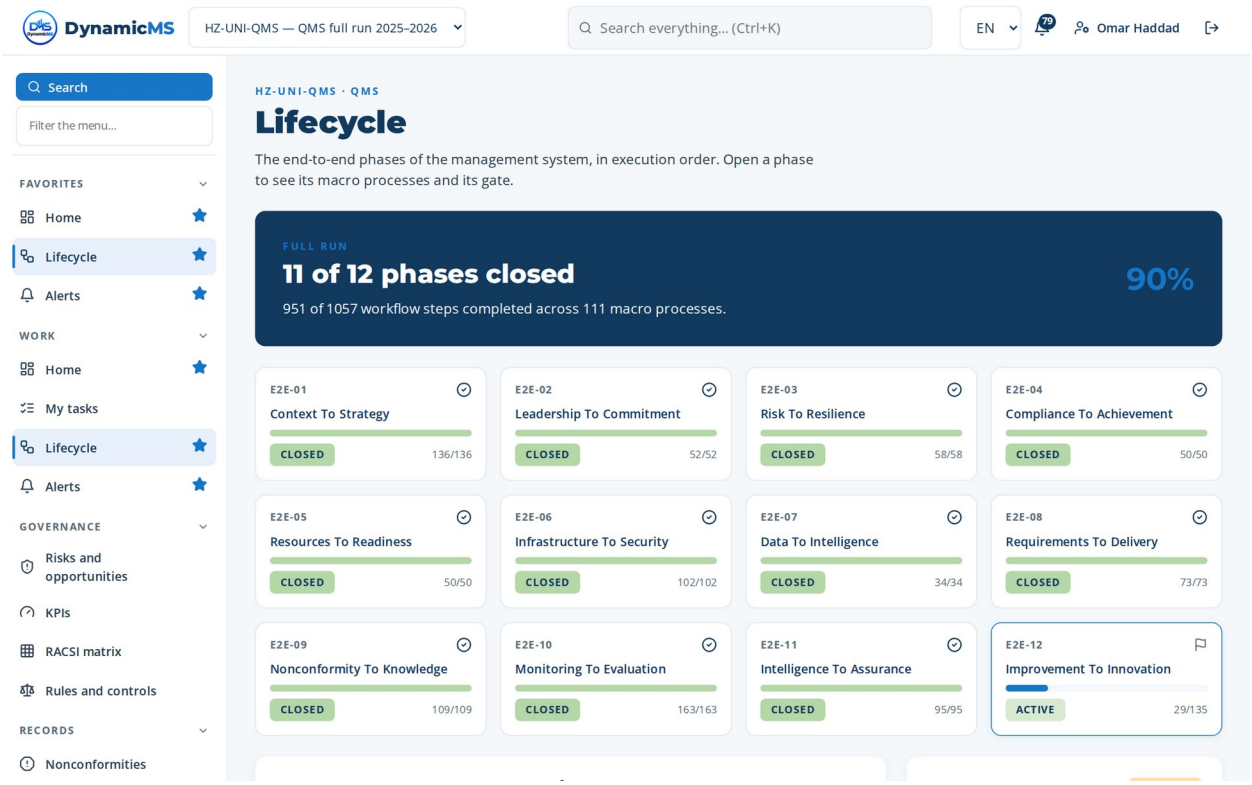

Figure — Lifecycle: the 12 end-to-end processes with their progress and gate status.

The full run, phase by phase

Open Lifecycle, select a phase card, then a macro process, then its first open step; or open My tasks. Follow the steps in order. Each step is followed by what to type in it.

E2E-01 — Context To Strategy · Plan

P Goals: Define context, policy, strategy, objectives, compliance, governance. **From trigger to terminal event:** Strategic planning cycle, management review output, or significant context change → Approved policy, strategy, objectives, risk register, compliance framework in place.

13 macro processes, 136 steps. Delivers: Context, interested parties, scope, policy, SMART objectives, process map. **Feeds:** E2E-02 (commitment), E2E-03 (risks), E2E-10 (objective KPIs).

UMS016 (MP-001) — Context Analysis and Stakeholder Mapping

Understand internal/external issues; identify interested parties; define IMS scope. Owner: IMS Manager. Requirements: ISO 9001 §4.1, §4.2, §4.3.

Task MP-001.T1 — Plan and prepare organizational context

P MP-001.1 Fix periodicity of strategic diagnosis (IMS Manager · Periodicity) What to type ▾

Frequency	Next due date	Review chaired by	Organization units in scope	Review inputs and notes
Annual	2026-10-05	IMS Manager	Headquarters, Casablanca site	Inputs to the next diagnosis: last management review outputs, customer complaints of the year, regulatory watch bulletins, supplier evaluation results and the strategic plan. An extraordinary review is triggered by a new site, a new service line or a major regulatory change.

P MP-001.2 Identify external issues (IMS Manager · Register items) What to type ▾ **External issues identified — 5 rows to paste or type**

External issue	Category (PESTLE)	Description and impact on the organization	Relevance	Source / evidence
Price competition from informal products and services providers	Economic	Pressure on quote margins; risk of losing price-sensitive key accounts.	High	Sales team market study, Q3 2025
Customers require ISO 9001 certification in tenders	Market and customers	Certification is needed to keep and win contracts with key accounts.	High	Tender files received in 2025 (4 of 11 require ISO 9001)
ISO 9001 amendment on climate change (Amd 1:2024)	Legal and regulatory	Context analysis must state whether climate change is a relevant issue.	Medium	ISO 9001:2015/Amd 1:2024; regulatory watch bulletin
Availability and price of critical supplies	Supply	Delays when parts are missing; lead times doubled for imported references.	Medium	Supplier evaluation file and purchase orders 2025
Customers send requests through portals and messaging	Technological	Requests can be lost if they are not logged in one place.	Medium	Customer request log, sample of 60 requests

P MP-001.3 Identify internal issues (IMS Manager · Register items) What to type ▾ **Internal issues identified — 4 rows to paste or type**

Internal issue	Category	Description and impact on the organization	Relevance	Source / evidence
Late delivery to customer	Process	No proof of service accepted; invoices disputed and paid late.	High	Review of records Jan–Oct 2025: 14% not compliant
Specification not met	Commercial	Rework of quotes and margin loss; two customer complaints.	High	Quotation register: 9 corrections in Q3 2025
Workload peaks on core delivery process	Resources	Incomplete service record during summer peaks; overtime above 12%.	Medium	Planning board and overtime records
Know-how held by two senior staff	Competence	Dependency on two people; no written work instructions.	Medium	Competence matrix 2025

P MP-001.4 Identify interested parties (IMS Manager · Register items) What to type ▾ **Interested parties identified — 6 rows to paste or type**

Interested party	Internal / external	Main needs and expectations (summary)	Influence (1–5)	Interest (1–5)	Relevance	Source / evidence
Customers (key accounts)	External party	On-time service, correct quotes, signed proof of service, clear invoices.	5	5	High	Customer satisfaction survey 2025 (n = 48)
Employees and their representatives	Internal party	Safe work, training, clear instructions, workload planning.	4	4	High	Staff meeting minutes, October 2025
Owner and shareholders	Internal party	Profitable growth, certification obtained within 12 months.	5	5	High	Business plan 2025–2027
Suppliers of critical supplies	External party	Forecast of needs, clear specifications, payment on time.	3	3	Medium	Supplier meetings, 2025
Certification body	External party	Conforming management system, access to records and people.	4	3	Medium	Certification contract
Authorities (labour inspection, municipality)	External party	Compliance with labour law, business licence and waste rules.	5	2	Medium	Legal register

Task MP-001.T2 — Execute organizational context activities

P MP-001.5 Determine needs and expectations of interested parties (IMS Manager · Needs and expectations) What to type ▾

Weighted score (1–5)	Conclusion
3.5	Needs and expectations of the six relevant interested parties are known (weighted score 3.5 = "Defined"). Two actions: confirm vehicle and waste requirements in the legal register; add the signed job sheet as a release criterion.

Needs and expectations of the interested parties — 8 rows to paste or type

Need or expectation	Interested parties concerned	Type of requirement	Adopted as a compliance obligation	How the organization addresses it (process, control)	Relevance	Entered from	Source / evidence
Service delivered on the agreed date, right first time	Customers (key accounts)	Contractual requirement	Yes	Planning and job order control (service delivery process); KPI on-time service	High	Manual	Framework contracts; satisfaction survey 2025
Correct quotes and clear invoices	Customers (key accounts), Owner and shareholders	Customer expectation	No	Quote review before sending; invoice checked against the signed job sheet	High	Manual	Quotation register: 9 corrections in Q3 2025

Need or expectation	Interested parties concerned	Type of requirement	Adopted as a compliance obligation	How the organization addresses it (process, control)	Relevance	Entered from	Source / evidence
ISO 9001 certification within 12 months	Customers (key accounts), Owner and shareholders, Certification body	Voluntary commitment	Yes	QMS project AT-UNI-QMS; certification audit planned	High	Library	Tender files 2025; business plan 2025–2027
Safe work, training and clear work instructions	Employees and their representatives	Legal or regulatory requirement	Yes	Training plan (MP-013) and work instructions (MP-006)	High	Library	Labour code; staff meeting minutes, October 2025
Workload planned during peaks	Employees and their representatives, Owner and shareholders	Internal expectation	No	Capacity planning reviewed weekly; seasonal staff	Medium	AI	Planning board and overtime records
Forecast of needs and payment on time	Suppliers of critical supplies	Contractual requirement	No	Quarterly forecast shared; payment terms 60 days	Medium	Manual	Supplier meetings, 2025
Access to records and people during audits	Certification body	Contractual requirement	Yes	Records control (MP-030); audit coordination (MP-017)	Medium	Library	Certification contract
Compliance with labour law, business licence and waste rules	Authorities (labour inspection, municipality), Employees and their representatives	Legal or regulatory requirement	Yes	Legal register and compliance evaluation (MP-028)	Medium	AI	Legal register

How well the needs are known and handled (optional decision matrix) — 5 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Customer requirements identified and written down	30	4	Requirements of the 12 main customers are in the requirements matrix; 2 framework contracts still to review.
Legal and regulatory requirements identified	20	3	Labour and licence requirements listed; vehicle and waste rules to confirm with the legal register (MP-028).
Requirements adopted as compliance obligations	20	3	Adopted for customers and authorities; supplier expectations kept as information.
Needs monitored (survey, meetings, complaints)	15	4	Annual survey and monthly complaint review in place.
Requirements reflected in processes and objectives	15	3	On-time service and quote accuracy objectives defined; proof of service to add to the delivery process.

A **MP-001.6 Validate and cascade stakeholder requirements** (IMS Manager · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Top Management	Go: context and requirements approved. Condition: purchasing receives the requirements matrix before the next steering meeting.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Issues reviewed with top management	Yes	Meeting of 2025-10-04
Interested parties and requirements validated	Yes	Interested parties register v1.0
Requirements cascaded to process owners	Partly	Sent to operations and sales; purchasing on the next meeting

P **MP-001.7 Identify interactions between processes** (IMS Manager · Register items) What to type ▾ **Interactions between macro processes — 5 rows to paste or type**

Macro process 1 (provides)	Macro process 2 (receives)	Interaction type	What flows between them	Relevance	Source / evidence
Sales and quotation	Service delivery	Output → input	Validated quote and job order with customer requirements.	High	Job order form
Service delivery	Invoicing	Shared record or tool	Signed proof of service; the missing signature causes "late delivery to customer".	High	Job sheet
UMS007 (Supplier Quality Performance)	Service delivery	Resources provided	Availability of critical supplies on the planned date.	Medium	Purchase orders and stock list
UMS006 (Competence and Training Orchestration)	All processes	Support service	Competent and authorized staff; training plan.	Medium	Competence matrix
UMS039 (Governance Bodies and Reviews Orchestration)	All processes	Control and feedback	Policy, objectives, resources and review decisions.	Medium	Management review minutes

Task MP-001.T3 — Verify, record and close organizational context

P **MP-001.8 Define or review the management system scope** (IMS Manager · Register items) What to type ▾ **Management system scope identified — 4 rows to paste or type**

Management system scope	Category	Description and impact	Relevance	Source / evidence
Design and delivery of products and services for key accounts in the Casablanca region	Scope statement	Covers sales and quotation, planning, delivery, invoicing and after-sales.	High	Strategic plan and service catalogue
Head office and workshop, Casablanca	Site	Single site; interventions at customer premises are included.	High	Business licence
ISO 9001 §8.3 Design and development	Non-applicable requirement	Not applicable: services follow customer or manufacturer specifications; no design responsibility.	Medium	Contracts review
Vehicle maintenance	Outsourced process	Outsourced to an approved garage; controlled through the supplier evaluation.	Low	Service contract

D **MP-001.9 Document and communicate the context analysis** (IMS Manager · Document) What to type ▾

Document template	Document reference	Version	Content summary
TPL-SCOPE — Scope of the management system	HZ-UNI-QMS-UMS016-09	1.1	Context analysis report for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.

Generated document
HZ-UNI-QMS-SCOPE — Scope of the management system

C **MP-001.10 Review organizational context periodically** (IMS Manager · Review) What to type ▾

Review frequency	Review date	Next review	Chaired by	Participants
Annual	2025-10-04	2026-10-04	IMS Manager	Top Management, Quality Manager, Operations Manager, Risk Manager

Inputs reviewed — 3 rows to paste or type

Input	Finding
External and internal issues	New competitor offer at lower price; issues list still valid.
Interested parties register	Add the new logistics partner.
Customer satisfaction and complaints	Satisfaction 82% (target 85%); complaints on quotes down by 40%.

Decisions and actions — 2 rows to paste or type

Decision	Owner	Due date
Add supplier price risk to the risk register	Nadia Chraibi	2025-11-03
Update the scope statement for the new maintenance contracts	Omar Haddad	2025-11-18

On completion: *each row becomes an action of the Action plan.*

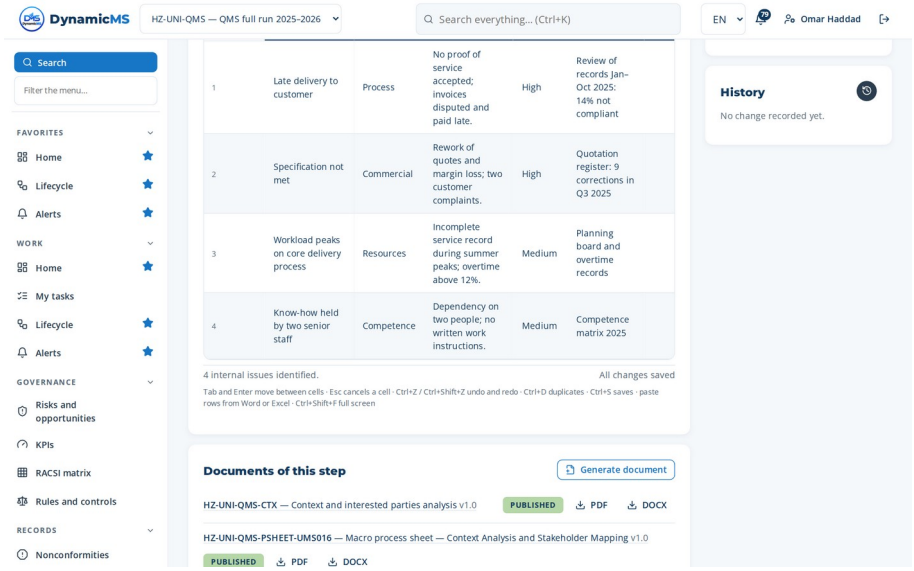

Figure — Step MP-001.3: the record table of internal issues, one row per issue with its source.

UMS022 (MP-002) — Quality Policy and Strategic Direction Definition

Establish quality policy; define strategic direction; secure top mgmt commitment. Owner: IMS Manager. Requirements: ISO 9001 §5.1, §5.2.

Task MP-002.T1 — Plan and prepare quality policy

P **MP-002.10 Select the standards and scope type of the quality policy** (IMS Manager · Standards and scope) **What to type ▾**

Standards the management system applies	Scope type	Organization units covered	Why these standards
ISO 9001	Single standard	Headquarters, Casablanca site	ISO 9001 only: certification is a customer requirement; environment and safety are managed through legal compliance for now.

P **MP-002.1 Fix quality policy review periodicity** (IMS Manager · Periodicity) **What to type ▾**

Frequency	Next due date	Review chaired by	Organization units in scope	Review inputs and notes
Annual	2026-10-09	Top Management	Headquarters, Casablanca site	Reviewed at each management review, and earlier after a change of strategy, a merger, a new site or a major customer requirement.

P **MP-002.3 Consult top management on the quality policy** (IMS Manager · Register items) **What to type ▾** **Top management on the quality policy identified — 4 rows to paste or type**

Top management on the quality policy	Category	Description and impact	Relevance	Source / evidence
Meet customer requirements on time, first time	Commitment	Priority of the Managing Director: on-time service and correct quotes.	High	Interview with the Managing Director, 2025-10-03
Comply with legal and contractual requirements	Commitment	Includes customer contracts and labour law.	High	Interview with the Managing Director
Develop staff competence	Commitment	Two senior technicians coach the new hires.	Medium	HR interview
Become the reference products and services provider in the Casablanca region by 2027	Strategic direction	Strategic direction for the objectives.	High	Strategic plan 2025–2027

Task MP-002.T2 — Execute quality policy activities

D **MP-002.11 Generate the quality policy draft from the template** (IMS Manager · AI-assisted draft) **What to type ▾**

Context given to the assistant	Suggestion outcome	Final validated text
Standards: ISO 9001. Scope: products and services for key accounts in Casablanca. Commitments from the management consultation: on-time and right-first-time service, legal compliance, staff competence, continual improvement. Strategic direction: reference provider in the region by 2027.	Edited	Horizon Universal Holdings provides products and services to key accounts in the Casablanca region. We commit to: deliver on time and right first time; satisfy our customers and the applicable legal and contractual requirements; develop the competence of our staff; set measurable quality objectives every year and continually improve our quality management system (ISO 9001).

D **MP-002.2 Adapt the quality policy commitments to the organization** (IMS Manager · Document) **What to type ▾**

Document template	Document reference	Version	Content summary	Generated document
TPL-POL-Q — Quality policy	HZ-UNI-QMS-POL	0.2	Commitments adapted: "right first time" wording, signed proof of service, reference to the 2027 strategic direction.	HZ-UNI-QMS-POL-Q — Quality policy

P **MP-002.4 Integrate mandatory commitments into the quality policy** (IMS Manager · Register items) **What to type ▾** **Integrate mandatory commitments into the quality policy identified — 4 rows to paste or type**

Integrate mandatory commitments into the quality policy	Category	Description and impact	Relevance	Source / evidence
§5.2.1 a) Appropriate to purpose and context	Commitment	First sentence describes products and services, key accounts and the region.	High	Policy draft v0.2, paragraph 1
§5.2.1 b) Framework for quality objectives	Commitment	"Set measurable quality objectives every year".	High	Policy draft v0.2, commitment 4
§5.2.1 c) Commitment to satisfy applicable requirements	Commitment	Customer, legal and contractual requirements named.	High	Policy draft v0.2, commitment 2
§5.2.1 d) Commitment to continual improvement	Commitment	"Continually improve our quality management system".	High	Policy draft v0.2, commitment 4

D **MP-002.5 Align the quality policy with ISO requirements and strategy** (IMS Manager · Execution) **What to type ▾**

What was done	Records that prove it	Completion (%)
Policy cross-checked with the strategic plan 2025–2027 and the requirements matrix: two wording changes (customer proof of service, 2027 direction). No conflict with customer contracts.	HZ-UNI-QMS-POL-Q — Quality policy	100

Task MP-002.T3 — Verify, record and close quality policy

C **MP-002.12 Check the quality policy draft against ISO 9001 §5.2** (IMS Manager · Assessment) **What to type ▾**

Weighted score (1–5)	Conclusion
4.4	Draft meets ISO 9001 §5.2.1 (weighted score 4.4). §5.2.2 will be met once the communication step is done. Ready for top management approval.

Decision matrix — 5 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
§5.2.1 a) Appropriate to the purpose and context	20	5	Services, customers and region described.
§5.2.1 b) Framework for setting objectives	20	4	Measurable objectives required every year; link to KPIs to show in MP-003.
§5.2.1 c) Commitment to satisfy applicable requirements	20	5	Explicit.
§5.2.1 d) Commitment to continual improvement	20	5	Explicit.
§5.2.2 Available, communicated, understood	20	3	Communication plan ready (step 11); understanding to check in the next internal audit.

A **MP-002.6 Obtain top management approval of the quality policy** (IMS Manager · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Top Management	Approved and signed by the Managing Director. Publish version 1.0.

Decision criteria checked — 2 rows to paste or type

Criterion	Met	Evidence
Compliance check against ISO 9001 §5.2 done	Yes	Decision matrix, step 8 (score 4.4)
Consistent with strategic direction	Yes	Strategic plan 2025–2027

D **MP-002.13 Publish the quality policy and generate its files** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Quality policy v1.0 published; DOCX and PDF generated; notice-board version printed.	HZ-UNI-QMS-POL-Q — Quality policy; HZ-UNI-QMS-PSHEET-UMS022 — Macro process sheet — Quality Policy and Strategic Direction Definition

D **MP-002.7 Communicate the quality policy** (IMS Manager · Communication) What to type ▾ **Communication records — 3 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Operations	Meeting	2025-10-09	Toolbox talk: what the policy means for each job (right first time, signed job sheet).	IMS Manager
All employees	Notice board	2025-10-10	Signed policy posted in the workshop and the office.	Document Controller
Customers and interested parties	Portal	2025-10-12	Policy published on the website.	IMS Manager

C **MP-002.8 Plan the quality policy review** (IMS Manager · Review) What to type ▾

Review frequency	Review date	Next review	Chaired by	Participants
Annual	2025-10-08	2026-10-08	Top Management	IMS Manager, Quality Manager, Operations Manager

Inputs reviewed — 3 rows to paste or type

Input	Finding
Changes in context and strategy	New maintenance contract segment.
Achievement of quality objectives	3 of 4 objectives on track.
Audit results and staff feedback	Policy known by 90% of interviewed staff.

Decisions and actions — 1 row to paste or type

Decision	Owner	Due date
Add a confidentiality commitment for customer data	Omar Haddad	2025-10-28

On completion: *each row becomes an action of the Action plan.*

D **MP-002.9 Update the quality policy document** (IMS Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
Added a commitment on confidentiality of customer data (new maintenance contracts). Version 1.1 issued.	Decision D-1 of the policy review	HZ-UNI-QMS-POL-Q — Quality policy; Add a confidentiality commitment for customer data

UMS031 (MP-003) — Quality Objectives and Targets Deployment

Cascade strategic objectives; deploy SMART objectives; assign responsibilities; monitor. Owner: IMS Manager. Requirements: ISO 9001 §6.2.

Task MP-003.T1 — Plan and prepare quality objectives

P **MP-003.1 Cascade the quality policy into quality objectives** (IMS Manager · SMART objectives) What to type ▾ **Objectives (become entries of the objectives register) — 2 rows to paste or type**

Specific objective	Measure (KPI)	Baseline	Achievable target	Relevant to (policy commitment)	Owner	Time-bound deadline	Resources
Raise customer satisfaction on products and services	Q-KPI-01 — Customer satisfaction index	78%	>= 85%	Satisfy customer requirements	Leila Mansouri	2026-09-26	Quarterly survey; complaint review meeting
Deliver products and services on time	Q-KPI-02 — On-time delivery rate	86%	>= 95%	On time, right first time	Ines Garcia	2026-06-28	Planning board; one extra technician in summer

On completion: *each row becomes an objective of the register.*

P **MP-003.2 Define SMART quality objectives** (IMS Manager · SMART objectives) What to type ▾ **Objectives (become entries of the objectives register) — 4 rows to paste or type**

Specific objective	Measure (KPI)	Baseline	Achievable target	Relevant to (policy commitment)	Owner	Time-bound deadline	Resources
Raise customer satisfaction on products and services	Q-KPI-01 — Customer satisfaction index	78%	>= 85%	Satisfy customer requirements	Leila Mansouri	2026-09-26	Quarterly survey; complaint review meeting
Deliver products and services on time	Q-KPI-02 — On-time delivery rate	86%	>= 95%	On time, right first time	Ines Garcia	2026-06-28	Planning board; one extra technician in summer
Reduce the cost of poor quality	Q-KPI-04 — Cost of poor quality	4.1%	<= 2%	Continual improvement	Leila Mansouri	2026-09-26	Rework tracking in the NC register
Close corrective actions on time	Q-KPI-05 — Corrective actions closed on time	70%	>= 90%	Continual improvement	Omar Haddad	2026-03-30	Weekly action review

On completion: *each row becomes an objective of the register.*

D **MP-003.3 Align quality objectives with the quality policy** (IMS Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Each objective linked to a policy commitment and to one KPI of the dashboard; no objective without an owner.	HZ-UNI-QMS-OBJ — Objectives and action plan; OBJ-1 — Raise customer satisfaction on products and services; OBJ-2 — Deliver products and services on time; Deliver objective: Raise customer satisfaction on products and services	100

P **MP-003.4 Designate an owner for each quality objective** (IMS Manager · Plan) What to type ▾ **Planned activities (become actions) — 4 rows to paste or type**

Activity	Owner	Start	Due date	Deliverable
Build the action plan for: Raise customer satisfaction on products and services	Leila Mansouri	2025-10-13	2025-11-03	Action plan approved
Build the action plan for: Deliver products and services on time	Ines Garcia	2025-10-13	2025-11-10	Action plan approved
Build the action plan for: Reduce the cost of poor quality	Leila Mansouri	2025-10-13	2025-11-17	Action plan approved
Build the action plan for: Close corrective actions on time	Omar Haddad	2025-10-13	2025-11-24	Action plan approved

On completion: *each row becomes an action of the Action plan.*

Task MP-003.T2 — Execute quality objectives activities

D **MP-003.5 Deploy quality objectives in the objectives register** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Deploy quality objectives in the objectives register: done by the DynamicMS Engine; Objectives available in the project.	HZ-UNI-QMS-OBJ — Objectives and action plan; HZ-UNI-QMS-PSHEET-UMS031 — Macro process sheet — Quality Objectives and Targets Deployment; OBJ-1 — Raise customer satisfaction on products and services; OBJ-2 — Deliver products and services on time; OBJ-3 — Reduce the cost of poor quality; OBJ-4 — Close corrective actions on time; Deliver objective: Raise customer satisfaction on products and services

C **MP-003.6 Monitor progress of quality objectives** (IMS Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Objectives); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Objectives); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

D **MP-003.7 Display quality objectives at workstations** (IMS Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Objectives board displayed in the workshop and the office; monthly results updated by the Performance Manager.	HZ-UNI-QMS-OBJ — Objectives and action plan; OBJ-1 — Raise customer satisfaction on products and services; OBJ-2 — Deliver products and services on time; Deliver objective: Raise customer satisfaction on products and services	100

Task MP-003.T3 — Verify, record and close quality objectives

D **MP-003.8 Adjust quality objectives and targets** (IMS Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
Objectives updated: specification not met.	Finding of the internal audit	HZ-UNI-QMS-OBJ — Objectives and action plan; OBJ-1 — Raise customer satisfaction on products and services; OBJ-2 — Deliver products and services on time; Deliver objective: Raise customer satisfaction on products and services

D **MP-003.9 Recognize teams that reach quality objectives** (IMS Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Recognize teams that reach quality objectives carried out on core delivery process; Objectives updated.	HZ-UNI-QMS-OBJ — Objectives and action plan; OBJ-1 — Raise customer satisfaction on products and services; OBJ-2 — Deliver products and services on time; Deliver objective: Raise customer satisfaction on products and services	100

P **MP-003.10 Translate quality policy commitments into objective statements** (IMS Manager · SMART objectives) What to type ▾ **Objectives (become entries of the objectives register) — 2 rows to paste or type**

Specific objective	Measure (KPI)	Baseline	Achievable target	Relevant to (policy commitment)	Owner	Time-bound deadline	Resources
Reduce the cost of poor quality	Q-KPI-04 — Cost of poor quality	4.1%	<= 2%	Continual improvement	Leila Mansouri	2026-09-26	Rework tracking in the NC register
Close corrective actions on time	Q-KPI-05 — Corrective actions closed on time	70%	>= 90%	Continual improvement	Omar Haddad	2026-03-30	Weekly action review

On completion: *each row becomes an objective of the register.*

UMS002 (MP-004) — Process Architecture Mapping

Define architecture; identify core/support; map in BPMN; assign RACI. Owner: Process Excellence Manager. Requirements: ISO 9001 §4.4.

Task MP-004.T1 — Plan and prepare process architecture

P **MP-004.1 Define the process architecture scope** (Process Excellence Manager · Register items) What to type ▾ **Process architecture scope identified — 2 rows to paste or type**

Process architecture scope	Category	Description and impact	Relevance	Source / evidence
All activities of Horizon Universal Holdings in the Casablanca region	Scope statement	Same boundary as the management system scope (MP-001 step 8).	High	Scope statement v1.0
Three levels: macro process > task > step	Modeling rule	Steps are the lowest level and carry the forms and records.	Medium	Process level definitions

P **MP-004.2 Identify core, support and management processes** (Process Excellence Manager · Register items) What to type ▾ **Core, support and management processes identified — 6 rows to paste or type**

Core, support and management processes	Category	Description and impact	Relevance	Source / evidence
Strategy and management review	Management process	Owner: Managing Director	High	Organization chart
Sales and quotation	Core process	Owner: Operations Manager	High	Organization chart
Delivery of products and services	Core process	Owner: Operations Manager	High	Job orders
Purchasing and suppliers	Support process	Owner: Quality Manager	Medium	Purchase procedure
People and competence	Support process	Owner: HR Manager	Medium	Competence matrix
Measurement, audit and improvement	Management process	Owner: Quality Manager	Medium	Audit programme

P **MP-004.3 Map each process in BPMN** (Process Excellence Manager · Register items) **What to type ▾** **Each process in BPMN identified — 3 rows to paste or type**

Each process in BPMN	Category	Description and impact	Relevance	Source / evidence
Delivery of products and services: request → planning → intervention → signed job sheet → invoice	BPMN diagram	Two lanes (Operations, Customer); gateway "job sheet signed?" before invoicing.	High	Process workshop with the technicians
Sales and quotation: request → site visit → quote → second check → customer approval	BPMN diagram	Second check added to prevent quote errors.	High	Quotation register
Purchasing: need → order → reception check → stock	BPMN diagram	Reception check against the order.	Medium	Purchase orders

Task MP-004.T2 — Execute process architecture activities

P **MP-004.4 Assign RACSI roles to each process** (Process Excellence Manager · Assignment) **What to type ▾**

Role	Person (from the OBS)	Organization units covered
Process Excellence Manager	Adam Rahmani	Quality

RACSI of the macro process — 1 row to paste or type

R	A	C	S	I
Process Excellence Manager	IMS Manager	Risk Manager	Document Controller	Top Management

A **MP-004.5 Validate the process map with process owners** (Process Excellence Manager · Decision) **What to type ▾**

Decision	Approver (Accountable)	Decision comment and conditions
Go	Process Excellence Manager	Process map validated; publish version 1.0.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Every process has an owner	Yes	RACSI matrix
Inputs, outputs and interactions shown	Yes	Process map v0.9
Owners agree with their process description	Yes	Validation meeting minutes

C **MP-004.6 Verify process map alignment with ISO 9001 §4.4** (Process Excellence Manager · Assessment) **What to type ▾**

Weighted score (1–5)	Conclusion
3.5	Process approach in place (weighted score 3.5). Complete KPIs and risk review for purchasing and HR before the mock audit.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
§4.4.1 a–b) Inputs, outputs, sequence and interaction determined	25	4	All core processes modeled in BPMN.
§4.4.1 c) Criteria, methods and KPIs	25	3	KPIs defined for core processes; support processes to complete.
§4.4.1 d–e) Resources, responsibilities and authorities	25	4	RACSI for every macro process.
§4.4.1 f) Risks and opportunities addressed	25	3	Linked to the risk register; 2 processes without risk review.

Task MP-004.T3 — Verify, record and close process architecture

D **MP-004.7 Publish the process map** (Process Excellence Manager · Document) **What to type ▾**

Document template	Document reference	Version	Content summary	Generated document
TPL-PMAP — Process map and interactions	HZ-UNI-QMS-UMS002-07	1.0	Architecture map for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PMAP — Process map and interactions

C **MP-004.8 Review the process map** (Process Excellence Manager · Review) **What to type ▾**

Review frequency	Review date	Next review	Chaired by	Participants
Annual	2025-10-20	2026-10-20	Process Excellence Manager	Process Excellence Manager, IMS Manager, Quality Manager

Inputs reviewed — 3 rows to paste or type

Input	Finding
Scope	Scope still valid; minor updates made.
Strategy	No major change since the last review.
Process inventory	Gap found on BPMN diagrams.

Decisions and actions — 1 row to paste or type

Decision	Owner	Due date
Update BPMN diagrams	Adam Rahmani	2025-11-19

On completion: *each row becomes an action of the Action plan.*

Task MP-004.T4 — Model Process Element Hierarchy

D **MP-004.9 Create functions and decompose into process elements** (Process Excellence Manager · Execution) **What to type ▾**

What was done	Records that prove it	Completion (%)
Create functions and decompose into process elements carried out on core delivery process; Architecture map updated.	HZ-UNI-QMS-PMAP — Process map and interactions; Update BPMN diagrams	100

D **MP-004.10 Flag lowest-level process elements as executable tasks** (DynamicMS Engine · Automated service task) **What to type ▾**

System result confirmed	Records produced
Flag lowest-level process elements as executable tasks: done by the DynamicMS Engine; Architecture map available in the project.	HZ-UNI-QMS-PMAP — Process map and interactions; HZ-UNI-QMS-RACSI — RACSI matrix; Update BPMN diagrams

D **MP-004.11 Generate process map for a function** (DynamicMS Engine · Automated service task) **What to type ▾**

System result confirmed	Records produced
Generate process map for a function: done by the DynamicMS Engine; Architecture map available in the project.	HZ-UNI-QMS-PMAP — Process map and interactions; HZ-UNI-QMS-RACSI — RACSI matrix; Update BPMN diagrams

Task MP-004.T5 — Compile Macro Process Sheets

D **MP-004.12 Compile Macro Process Sheet** (Process Excellence Manager · Document) **What to type ▾**

Document template	Document reference	Version	Content summary	Generated document
TPL-PMAP — Process map and interactions	HZ-UNI-QMS-UMS002-12	1.0	Architecture map for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PMAP — Process map and interactions

D **MP-004.13 Group atomic sheets into composite sheet** (Process Excellence Manager · Execution) **What to type ▾**

What was done	Records that prove it	Completion (%)
Group atomic sheets into composite sheet carried out on core delivery process; Architecture map updated.	HZ-UNI-QMS-PMAP — Process map and interactions; Update BPMN diagrams	100

UMS023 (MP-005) — SIPOC and Value Stream Mapping

Define SIPOC; map value stream; identify value-added steps; optimize flow. Owner: Process Excellence Manager. Requirements: ISO 9001 §4.4, §8.1.

Task MP-005.T1 — Plan and prepare SIPOC and value stream

P **MP-005.1 Define SIPOC and value stream scope** (Process Excellence Manager · Register items) What to type ▾ **SIPOC and value stream scope identified — 3 rows to paste or type**

SIPOC and value stream scope	Category	Description and impact	Relevance	Source / evidence
SIPOC diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	High	Customer complaint log, Oct 2025
Value stream maps	Output	Affects Value stream maps; followed by Process Excellence Manager.	Medium	Internal audit report, Sep 2025
Flow diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	Medium	Process performance dashboard, Sep 2025

P **MP-005.2 Define SIPOC method** (Process Excellence Manager · Register items) What to type ▾ **SIPOC method identified — 3 rows to paste or type**

SIPOC method	Category	Description and impact	Relevance	Source / evidence
SIPOC diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	High	Internal audit report, Sep 2025
Value stream maps	Output	Affects Value stream maps; followed by Process Excellence Manager.	Medium	Process performance dashboard, Sep 2025
Flow diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	Medium	Interview with the process owner, Sep 2025

P **MP-005.3 Define SIPOC and value stream suppliers** (Process Excellence Manager · Register items) What to type ▾ **SIPOC and value stream suppliers identified — 3 rows to paste or type**

SIPOC and value stream suppliers	Category	Description and impact	Relevance	Source / evidence
Critical supplies supplier A (critical)	Supplier	Affects SIPOC diagrams; followed by Process Excellence Manager.	High	Process performance dashboard, Sep 2025
Critical supplies supplier B	Supplier	Affects Value stream maps; followed by Process Excellence Manager.	Medium	Interview with the process owner, Sep 2025
Logistics provider	Supplier	Affects SIPOC diagrams; followed by Process Excellence Manager.	Medium	Regulatory watch bulletin, Sep 2025

P **MP-005.4 Define SIPOC and value stream inputs** (Process Excellence Manager · Register items) What to type ▾ **SIPOC and value stream inputs identified — 3 rows to paste or type**

SIPOC and value stream inputs	Category	Description and impact	Relevance	Source / evidence
SIPOC diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	High	Interview with the process owner, Sep 2025
Value stream maps	Output	Affects Value stream maps; followed by Process Excellence Manager.	Medium	Regulatory watch bulletin, Aug 2025
Flow diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	Medium	Supplier evaluation file, Aug 2025

Task MP-005.T2 — Execute SIPOC and value stream activities

P **MP-005.5 Define SIPOC and value stream steps** (Process Excellence Manager · Register items) What to type ▾ **SIPOC and value stream steps identified — 3 rows to paste or type**

SIPOC and value stream steps	Category	Description and impact	Relevance	Source / evidence
SIPOC diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	High	Regulatory watch bulletin, Aug 2025
Value stream maps	Output	Affects Value stream maps; followed by Process Excellence Manager.	Medium	Supplier evaluation file, Aug 2025
Flow diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	Medium	Management review minutes, Aug 2025

P **MP-005.6 Define SIPOC and value stream outputs** (Process Excellence Manager · Register items) What to type ▾ **SIPOC and value stream outputs identified — 3 rows to paste or type**

SIPOC and value stream outputs	Category	Description and impact	Relevance	Source / evidence
SIPOC diagrams	Output	Affects SIPOC diagrams; followed by Process Excellence Manager.	High	Supplier evaluation file, Aug 2025

Gate — G2 — People and communication ready

Exit criteria: Competence matrix, communication plan and qualified auditors in place.

What to do ▸ Lifecycle › phase card › gate panel. Tick: “Competence matrix complete” (mandatory, evidence); “Communication plan approved” (mandatory, evidence); “Internal auditors qualified (ISO 19011)” (mandatory, evidence).
Decision: sign in as Nabil Zerouali (ceo@horizon-universal.example), select Go and type the comment “Exit criteria met; evidence reviewed; proceed to the next phase.”

PDCA link — Every phase (owners and approvers); E2E-10 (management review).

E2E-03 — Risk To Resilience · Plan

P Goals: Manage controls, third-party risk, continuity, functional safety, process safety, crisis. **From trigger to terminal event:** Risk assessment cycle, incident, regulatory change, or functional safety requirement → Controls, third-party risk managed, continuity tested, functional/process safety assured, crisis ready.

6 macro processes, 58 steps. Delivers: Risk and opportunity register, treatments, business continuity. **Feeds:** E2E-05 to E2E-08 (controls in operations); E2E-11 (audit universe).

GRC004 (MP-049) — Internal Controls and SOX Certification

Identify key controls; design and link to risks; self-assess and test; certify. Owner: Risk Manager.

Task MP-049.T1 — Plan and prepare internal controls

P MP-049.1 Identify internal controls (Risk Manager · Register items) **What to type ▾ Internal controls identified — 3 rows to paste or type**

Internal controls	Category	Description and impact	Relevance	Source / evidence
Control inventory	Output	Affects Control inventory; followed by Risk Manager.	High	Customer complaint log, Nov 2025
Design records	Output	Affects Design records; followed by Risk Manager.	Medium	Internal audit report, Nov 2025
Test records	Output	Affects Control inventory; followed by Risk Manager.	Medium	Process performance dashboard, Nov 2025

P MP-049.2 Design internal controls (Risk Manager · Plan) **What to type ▾ Planned activities (become actions) — 3 rows to paste or type**

Activity	Owner	Start	Due date	Deliverable
Link internal controls to risks	Nadia Chraibi	2025-12-16	2025-12-30	Control inventory
Self-assess internal controls	Nadia Chraibi	2025-12-21	2026-01-09	Design records
Test internal controls	Nadia Chraibi	2025-12-26	2026-01-19	Control inventory

On completion: *each row becomes an action of the Action plan.*

D MP-049.3 Link internal controls to risks (Risk Manager · Execution) **What to type ▾**

What was done	Records that prove it	Completion (%)
Link internal controls to risks carried out on core delivery process; Control inventory updated.	Link internal controls to risks	100

Task MP-049.T2 — Execute internal controls activities

D MP-049.4 Self-assess internal controls (Risk Manager · Execution) **What to type ▾**

What was done	Records that prove it	Completion (%)
Self-assess internal controls carried out on core delivery process; Control inventory updated.	Link internal controls to risks	100

C MP-049.5 Test internal controls (Risk Manager · Assessment) **What to type ▾**

Weighted score (1–5)	Conclusion
4.3	Weighted score 4.3/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Control inventory complete and up to date	30	4	Control inventory reviewed on 2025-12-12; 2 gaps corrected.
Requirements of ISO 9001 met	30	5	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Design records	20	5	Records filed in the project: Design records.
Results against target	20	3	KPI Q-KPI-01 used as the measure.

D MP-049.6 Document internal controls deficiencies (Risk Manager · Document) **What to type ▾**

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-GRC004-06	1.1	Control inventory for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

Task MP-049.T3 — Verify, record and close internal controls

D MP-049.7 Remediate internal controls (Risk Manager · Change) **What to type ▾**

Change made	Reason	Documents or records updated
Control inventory updated: Use of an obsolete document version.	Change in regulation	Link internal controls to risks

A MP-049.8 Certify internal controls (Risk Manager · Decision) **What to type ▾**

Decision	Approver (Accountable)	Decision comment and conditions
Go	Risk Manager	Control inventory approved against ISO 9001; no blocking point.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Control inventory complete	Yes	Control inventory v1.0
Requirements of ISO 9001 met	Yes	Checklist of the phase gate
Risks reviewed	Yes	Risk register

D MP-049.9 Maintain internal controls repository (Risk Manager · Document) **What to type ▾**

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-GRC004-09	2.0	Control inventory for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

GRC006 (MP-050) — Third-Party and Supplier Risk Monitoring

Conduct due diligence; assess risk; draft clauses; audit and manage exit. Owner: Risk Manager.

Task MP-050.T1 — Plan and prepare third-party risks

D MP-050.1 Perform third-party due diligence (Risk Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Perform third-party due diligence carried out on core delivery process; Due diligence reports updated.	—	100

C MP-050.2 Assess third-party risks (Risk Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.6	Weighted score 3.6/5. Main gap: Unauthorized approval of governed documents. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Due diligence reports complete and up to date	30	3	Due diligence reports reviewed on 2025-12-12; 2 gaps corrected.
Requirements of ISO 9001 met	30	5	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Risk scores	20	3	Records filed in the project: Risk scores.
Results against target	20	3	KPI Q-KPI-01 used as the measure.

P MP-050.3 Assign third-party risks scores (Risk Manager · Assignment) What to type ▾

Role	Person (from the OBS)	Organization units covered
Risk Manager	Nadia Chraibi	Finance

RACSI of the macro process — 1 row to paste or type

R	A	C	S	I
Risk Manager	IMS Manager	Risk Manager	Document Controller	Top Management

Task MP-050.T2 — Execute third-party risks activities

D MP-050.4 Draft third-party risks clauses (Risk Manager · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-GRC006-04	1.1	Due diligence reports for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

C MP-050.5 Monitor third-party risks (Risk Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Due diligence reports); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Due diligence reports); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

C MP-050.6 Audit third-party risks (Risk Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: stable, below target; action opened. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Due diligence reports); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Due diligence reports); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

Task MP-050.T3 — Verify, record and close third-party risks

D MP-050.7 Review third-party risks annually (Risk Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Review third-party risks annually carried out on core delivery process; Due diligence reports updated.	—	100

D MP-050.8 Remediate third-party risks (Risk Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
Due diligence reports updated: Use of an obsolete document version.	Finding of the internal audit	—

Gate — G3 — Risk controls effective

Exit criteria: Key controls tested; continuity plan tested; safety cases approved where applicable.

What to do ▸ Lifecycle › phase card › gate panel. Tick: “Key controls tested” (mandatory, evidence); “Business continuity plan tested” (mandatory, evidence); “Third-party risk scores assigned”.

Decision: sign in as Nabil Zerouali (ceo@horizon-universal.example), select Go and type the comment “Exit criteria met; evidence reviewed; proceed to the next phase.”

PDCA link — E2E-05 to E2E-08 (controls in operations); E2E-11 (audit universe).

E2E-04 — Compliance To Achievement · Plan

P Goals: Deploy, audit, certify, maintain the management system. **From trigger to terminal event:** Readiness for certification, surveillance audit due, or new compliance obligation → Certification achieved or maintained; findings closed; compliance obligations met.

5 macro processes, 50 steps. Delivers: Compliance obligations register, evaluation of compliance, certification plan. **Feeds:** E2E-08 (requirements), E2E-11 (assurance), E2E-10 (review inputs).

UMS033 (MP-015) — Management System Deployment and Implementation

Deploy the management system; conduct pilots; prepare teams; move to steady state. Owner: Compliance Officer. Requirements: ISO 9001 §8.1.

Task MP-015.T1 — Plan and prepare management system deployment

P MP-015.1 Define management system deployment phases (Compliance Officer · Register items) What to type ▾ **Management system deployment phases identified — 3 rows to paste or type**

Management system deployment phases	Category	Description and impact	Relevance	Source / evidence
Deployed processes	Output	Affects Deployed processes; followed by Compliance Officer.	High	Customer complaint log, Dec 2025
Trained personnel	Output	Affects Trained personnel; followed by Compliance Officer.	Medium	Internal audit report, Dec 2025
Transition records	Output	Affects Deployed processes; followed by Compliance Officer.	Medium	Process performance dashboard, Nov 2025

P MP-015.2 Select management system deployment pilots (Compliance Officer · Assignment) What to type ▾

Role	Person (from the OBS)	Organization units covered
Compliance Officer	Hugo Lefevre	Finance

RACSI of the macro process — 1 row to paste or type

R	A	C	S	I
Compliance Officer	IMS Manager	Risk Manager	Document Controller	Top Management

D MP-015.3 Conduct management system deployment pilot (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Conduct management system deployment pilot carried out on core delivery process; Deployed processes updated.	—	100

D MP-015.4 Refine management system deployment (Compliance Officer · Change) What to type ▾

Change made	Reason	Documents or records updated
Deployed processes updated: specification not met.	Finding of the internal audit	—

Task MP-015.T2 — Execute management system deployment activities

D MP-015.5 Prepare management system deployment teams (Compliance Officer · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-UMS033-05	1.0	Deployed processes for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

A MP-015.6 Validate management system deployment schedule (Compliance Officer · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Compliance Officer	Deployed processes approved against ISO 9001; no blocking point.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Deployed processes complete	Yes	Deployed processes v1.0
Requirements of ISO 9001 §8.1 met	Yes	Checklist of the phase gate
Risks reviewed	Yes	Risk register

C MP-015.7 Verify management system deployment readiness (Compliance Officer · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.6	Weighted score 3.6/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Deployed processes complete and up to date	30	4	Deployed processes reviewed on 2025-12-30; 2 gaps corrected.
Requirements of ISO 9001 §8.1 met	30	4	Checked against ISO 9001 §8.1 with the checklist of the phase gate.
Evidence available for Trained personnel	20	3	Records filed in the project: Trained personnel.
Results against target	20	3	KPI Q-KPI-01 used as the measure.

Task MP-015.T3 — Verify, record and close management system deployment

D MP-015.8 Execute management system deployment transition (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Execute management system deployment transition carried out on core delivery process; Deployed processes updated.	—	100

D MP-015.9 Support management system deployment users (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Support management system deployment users carried out on core delivery process; Deployed processes updated.	—	100

D MP-015.10 Move to steady state (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Move to steady state carried out on core delivery process; Deployed processes updated.	—	100

UMS037 (MP-016) — Mock Audit, Pre-Certification, and Gap Diagnosis

Conduct mock audit; identify findings; validate; define actions. Owner: Compliance Officer. Requirements: ISO 9001 §9.2.

Task MP-016.T1 — Plan and prepare mock audit and gap diagnosis

P MP-016.1 Define mock audit and gap diagnosis scope (Compliance Officer · Register items) What to type ▾ **Mock audit and gap diagnosis scope identified — 3 rows to paste or type**

Mock audit and gap diagnosis scope	Category	Description and impact	Relevance	Source / evidence
Mock audit report	Output	Affects Mock audit report; followed by Compliance Officer.	High	Customer complaint log, Dec 2025
Findings log	Output	Affects Findings log; followed by Compliance Officer.	Medium	Internal audit report, Dec 2025
Corrective action plans	Output	Affects Mock audit report; followed by Compliance Officer.	Medium	Process performance dashboard, Dec 2025

P MP-016.2 Plan mock audit and gap diagnosis (Compliance Officer · Plan) What to type ▾ **Planned activities (become actions) — 3 rows to paste or type**

Activity	Owner	Start	Due date	Deliverable
Conduct mock audit and gap diagnosis	Hugo Lefevre	2026-01-08	2026-01-22	Mock audit report
Identify mock audit and gap diagnosis findings	Hugo Lefevre	2026-01-13	2026-02-01	Findings log
Categorize mock audit and gap diagnosis	Hugo Lefevre	2026-01-18	2026-02-11	Mock audit report

On completion: *each row becomes an action of the Action plan.*

D MP-016.3 Conduct mock audit and gap diagnosis (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Conduct mock audit and gap diagnosis carried out on core delivery process; Mock audit report updated.	Conduct mock audit and gap diagnosis	100

P MP-016.4 Identify mock audit and gap diagnosis findings (Compliance Officer · Register items) What to type ▾ **Mock audit and gap diagnosis findings identified — 3 rows to paste or type**

Mock audit and gap diagnosis findings	Category	Description and impact	Relevance	Source / evidence
Late delivery to customer	Nonconformity	Affects Mock audit report; followed by Compliance Officer.	High	Interview with the process owner, Nov 2025
Specification not met	Nonconformity	Affects Findings log; followed by Compliance Officer.	Medium	Regulatory watch bulletin, Nov 2025
Incomplete service record	Nonconformity	Affects Mock audit report; followed by Compliance Officer.	Medium	Supplier evaluation file, Nov 2025

Task MP-016.T2 — Execute mock audit and gap diagnosis activities

D MP-016.5 Categorize mock audit and gap diagnosis (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Categorize mock audit and gap diagnosis carried out on core delivery process; Mock audit report updated.	Conduct mock audit and gap diagnosis	100

A MP-016.6 Validate mock audit and gap diagnosis (Compliance Officer · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Compliance Officer	Mock audit report approved against ISO 9001; no blocking point.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Mock audit report complete	Yes	Mock audit report v1.0
Requirements of ISO 9001 §9.2 met	Yes	Checklist of the phase gate
Risks reviewed	Yes	Risk register

D MP-016.7 Issue mock audit and gap diagnosis report (Compliance Officer · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-UMS037-07	1.1	Mock audit report for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

Task MP-016.T3 — Verify, record and close mock audit and gap diagnosis

D MP-016.8 Present mock audit and gap diagnosis (Compliance Officer · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Top mgmt	Meeting	2026-01-13	Mock audit report: what changes for you and what to do by 2026-01-27.	Compliance Officer
Certification body	E-mail	2026-01-15	Findings log: what changes for you and what to do by 2026-01-27.	Compliance Officer

P MP-016.9 Define mock audit and gap diagnosis plans (Compliance Officer · Plan) What to type ▾ **Planned activities (become actions) — 1 row to paste or type**

Activity	Owner	Start	Due date	Deliverable
Monitor mock audit and gap diagnosis	Hugo Lefevre	2026-01-13	2026-01-27	Mock audit report

On completion: *each row becomes an action of the Action plan.*

C MP-016.10 Monitor mock audit and gap diagnosis (Compliance Officer · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Mock audit report); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Mock audit report); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

UMS038 (MP-017) — Certification Audit Preparation and Coordination

Select certifier; coordinate dates; support audit; obtain certification. Owner: Compliance Officer. Requirements: ISO/IEC 17021-1 (certification audit).

Task MP-017.T1 — Plan and prepare certification audit

P MP-017.1 Select certification audit certifier (Compliance Officer · Register items) What to type ▾ **Certification audit certifier identified — 3 rows to paste or type**

Certification audit certifier	Category	Description and impact	Relevance	Source / evidence
Certification report	Output	Affects Certification report; followed by Compliance Officer.	High	Customer complaint log, Dec 2025
Certificate	Output	Affects Certificate; followed by Compliance Officer.	Medium	Internal audit report, Dec 2025
Corrective actions	Output	Affects Certification report; followed by Compliance Officer.	Medium	Process performance dashboard, Dec 2025

D MP-017.2 Coordinate certification audit dates (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Coordinate certification audit dates carried out on core delivery process; Certification report updated.	CERT-1 — ISO 9001	100

D MP-017.3 Prepare certification audit dossiers (Compliance Officer · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-UMS038-03	1.1	Certification report for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

P MP-017.4 Designate certification audit accompanists (Compliance Officer · Plan) What to type ▾ Planned activities (become actions) — 3 rows to paste or type

Activity	Owner	Start	Due date	Deliverable
Monitor certification audit	Hugo Lefevre	2026-01-15	2026-01-29	Certification report
Analyze certification audit findings	Hugo Lefevre	2026-01-20	2026-02-08	Certificate
Validate certification audit findings	Hugo Lefevre	2026-01-25	2026-02-18	Certification report

On completion: *each row becomes an action of the Action plan.*

Task MP-017.T2 — Execute certification audit activities

C MP-017.5 Monitor certification audit (Compliance Officer · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Certification report); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Certification report); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

C MP-017.6 Analyze certification audit findings (Compliance Officer · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.6	Weighted score 3.6/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Certification report complete and up to date	30	4	Certification report reviewed on 2026-01-11; 2 gaps corrected.
Requirements of ISO/IEC 17021-1 (certification audit) met	30	4	Checked against ISO/IEC 17021-1 (certification audit) with the checklist of the phase gate.
Evidence available for Certificate	20	3	Records filed in the project: Certificate.
Results against target	20	3	KPI Q-KPI-01 used as the measure.

A MP-017.7 Validate certification audit findings (Compliance Officer · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Compliance Officer	Certification report approved against ISO 9001; no blocking point.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Certification report complete	Yes	Certification report v1.0
Requirements of ISO/IEC 17021-1 (certification audit) met	Yes	Checklist of the phase gate
Risks reviewed	Yes	Risk register

Task MP-017.T3 — Verify, record and close certification audit

D MP-017.8 Correct certification audit immediately (Compliance Officer · Change) What to type ▾

Change made	Reason	Documents or records updated
Certification report updated: Use of an obsolete document version.	Finding of the internal audit	CERT-1 — ISO 9001; Monitor certification audit

A MP-017.9 Close and obtain (Compliance Officer · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Compliance Officer	Certification report approved against ISO 9001; no blocking point.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Certification report complete	Yes	Certification report v1.0
Requirements of ISO/IEC 17021-1 (certification audit) met	Yes	Checklist of the phase gate
Risks reviewed	Yes	Risk register

D MP-017.10 Celebrate certification audit achievements (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Celebrate certification audit achievements carried out on core delivery process; Certification report updated.	CERT-1 — ISO 9001; Monitor certification audit	100

DMS035 (MP-096) — Multi-Standard Certification Portfolio Management

Manage multiple certifications; track status/renewals; coordinate audits; optimize cost. Owner: Compliance Officer.

Task MP-096.T1 — Plan and prepare certification portfolio

D MP-096.1 Register certification portfolio (Compliance Officer · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-DMS035-01	1.0	Certification portfolio for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

C MP-096.2 Track certification portfolio status (Compliance Officer · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 1 row to paste or type

KPI	Why this KPI for this step	Measured value	Target
KPI-09 — Certificates maintained	Certificates maintained measures the result of this macro process (Certification portfolio); it is the KPI its owner reviews at each Monthly review.	97.7	100%

P MP-096.3 Schedule certification portfolio audits (Compliance Officer · Plan) What to type ▾ Planned activities (become actions) — 3 rows to paste or type

Activity	Owner	Start	Due date	Deliverable
Coordinate certification portfolio across standards	Hugo Lefevre	2026-01-18	2026-02-01	Certification portfolio
Share certification portfolio evidence	Hugo Lefevre	2026-01-23	2026-02-11	Audit calendar
Track certification portfolio costs	Hugo Lefevre	2026-01-28	2026-02-21	Certification portfolio

On completion: *each row becomes an action of the Action plan.*

D **MP-096.4 Coordinate certification portfolio across standards** (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Coordinate certification portfolio across standards carried out on core delivery process; Certification portfolio updated.	Coordinate certification portfolio across standards	100

Task MP-096.T2 — Execute certification portfolio activities

D **MP-096.5 Share certification portfolio evidence** (Compliance Officer · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Top mgmt	E-mail	2026-01-17	Certification portfolio: what changes for you and what to do by 2026-01-31.	Compliance Officer
Quality mgrs	Intranet	2026-01-19	Audit calendar: what changes for you and what to do by 2026-01-31.	Compliance Officer

C **MP-096.6 Track certification portfolio costs** (Compliance Officer · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 1 row to paste or type

KPI	Why this KPI for this step	Measured value	Target
KPI-09 — Certificates maintained	Certificates maintained measures the result of this macro process (Certification portfolio); it is the KPI its owner reviews at each Monthly review.	97.7	100%

D **MP-096.7 Alert certification portfolio on renewals** (Compliance Officer · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Top mgmt	Notice board	2026-01-19	Certification portfolio: what changes for you and what to do by 2026-02-02.	Compliance Officer
Quality mgrs	Meeting	2026-01-21	Audit calendar: what changes for you and what to do by 2026-02-02.	Compliance Officer

Task MP-096.T3 — Verify, record and close certification portfolio

P **MP-096.8 Provide certification portfolio dashboard** (Compliance Officer · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Provide certification portfolio dashboard	Enabled for core delivery process	Needed to produce Certification portfolio
Owner and notification	Compliance Officer	Alerts go to the process owner

D **MP-096.9 Optimize certification portfolio calendar** (Compliance Officer · Change) What to type ▾

Change made	Reason	Documents or records updated
Certification portfolio updated: Use of an obsolete document version.	Decision of the management review	Coordinate certification portfolio across standards

Quality mgrs	Notice board	2026-01-19	Audit calendar: what changes for you and what to do by 2026-01-31.	Compliance Officer

DMS069 (MP-130) — Anti-Bribery and Corruption Management

Manage per FCPA/UK Bribery Act/ISO 37001; ensure ethical conduct. Owner: Compliance Officer.

Task MP-130.T1 — Plan and prepare anti-bribery programme

D **MP-130.1 Develop anti-bribery programme policy** (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Develop anti-bribery programme policy carried out on core delivery process; Anti-bribery policy updated.	—	100

D **MP-130.2 Conduct risk assessment** (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Conduct risk assessment carried out on core delivery process; Anti-bribery policy updated.	—	100

P **MP-130.3 Implement anti-bribery programme controls** (Compliance Officer · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Implement anti-bribery programme controls	Enabled for core delivery process	Needed to produce Anti-bribery policy
Owner and notification	Compliance Officer	Alerts go to the process owner

D **MP-130.4 Train employees on anti-bribery programme** (Compliance Officer · Training) What to type ▾

Session / module	Date	Units trained	Participants	Effectiveness evaluation method	Effectiveness (%)
Train employees on anti-bribery programme — practice session	2026-01-21	Finance	26	Quiz	96

Task MP-130.T2 — Execute anti-bribery programme activities

D **MP-130.5 Conduct due diligence** (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Conduct due diligence carried out on core delivery process; Anti-bribery policy updated.	—	100

C **MP-130.6 Monitor anti-bribery programme** (Compliance Officer · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Anti-bribery policy); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Anti-bribery policy); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

D **MP-130.7 Investigate anti-bribery programme incidents** (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Investigate anti-bribery programme incidents carried out on core delivery process; Anti-bribery policy updated.	—	100

Task MP-130.T3 — Verify, record and close anti-bribery programme

D **MP-130.8 Report on anti-bribery programme status** (Compliance Officer · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Board	Meeting	2026-01-19	Anti-bribery policy: what changes for you and what to do by 2026-02-02.	Compliance Officer
Top mgmt	E-mail	2026-01-21	Risk assessments: what changes for you and what to do by 2026-02-02.	Compliance Officer

C **MP-130.9 Review and improve anti-bribery programme** (Compliance Officer · Review) What to type ▾

Review frequency	Review date	Next review	Chaired by	Participants
Semi-annual	2026-01-23	2026-07-24	Compliance Officer	Compliance Officer, IMS Manager, Quality Manager

Inputs reviewed — 3 rows to paste or type

Input	Finding
FCPA requirements	FCPA requirements still valid; minor updates made.
UK Bribery Act	No major change since the last review.
ISO 37001	Gap found on Risk assessments.

Decisions and actions — 1 row to paste or type

Decision	Owner	Due date
Update Risk assessments	Hugo Lefevre	2026-02-22

On completion: *each row becomes an action of the Action plan.*

A **MP-130.10 Certify anti-bribery programme compliance** (Compliance Officer · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Hold	Compliance Officer	Hold until Risk assessments is complete; review in two weeks.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Anti-bribery policy complete	Yes	Anti-bribery policy v1.0
Requirements of ISO 9001 met	Partly	Checklist of the phase gate
Risks reviewed	Yes	Risk register

Gate — G4 — Ready for certification

Exit criteria: Mock audit closed; no open major finding; certification body scheduled.

What to do ▸ Lifecycle › phase card › gate panel. Tick: “Mock audit report issued” (mandatory, evidence); “All major findings closed” (mandatory, evidence); “Certification body contract signed” (mandatory, evidence).

Decision: sign in as Nabil Zerouali (ceo@horizon-universal.example), select Go and type the comment “Exit criteria met; evidence reviewed; proceed to the next phase.”

PDCA link — E2E-08 (requirements), E2E-11 (assurance), E2E-10 (review inputs).

E2E-05 — Resources To Readiness · Do

D **Goals:** Provide people, competence, documentation, records, measurement, health. **From trigger to terminal event:** IMS deployment, new hire, documentation change, or medical surveillance requirement → Competent people, controlled documentation, calibrated equipment, health records.

4 macro processes, 50 steps. Delivers: Competent people, documented information, measuring resources ready for operation. **Feeds:** E2E-08 (delivery); E2E-09 (calibration and competence nonconformities).

UMS024 (MP-006) — Procedures and Work Instructions Development

Develop procedures; ensure clarity; validate compliance. Owner: Process Excellence Manager. Requirements: ISO 9001 §7.5, §8.1.

Task MP-006.T1 — Plan and prepare procedures and work instructions

P **MP-006.1 Identify procedures and work instructions need** (Process Excellence Manager · Register items) What to type ▾ **Procedures and work instructions need identified — 3 rows to paste or type**

Procedures and work instructions need	Category	Description and impact	Relevance	Source / evidence
Procedures	Output	Affects Procedures; followed by Process Excellence Manager.	High	Customer complaint log, Jan 2026
Work instructions	Output	Affects Work instructions; followed by Process Excellence Manager.	Medium	Internal audit report, Jan 2026
Visual aids	Output	Affects Procedures; followed by Process Excellence Manager.	Medium	Process performance dashboard, Dec 2025

P **MP-006.2 Define procedures and work instructions structure** (Process Excellence Manager · Register items) What to type ▾ **Procedures and work instructions structure identified — 3 rows to paste or type**

Procedures and work instructions structure	Category	Description and impact	Relevance	Source / evidence
Procedures	Output	Affects Procedures; followed by Process Excellence Manager.	High	Internal audit report, Jan 2026

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-UMS051-02	1.0	App inventory for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

P **MP-046.3 Map application repository interfaces** (IT Manager · Register items) What to type ▾ **Application repository interfaces identified — 3 rows to paste or type**

Application repository interfaces	Category	Description and impact	Relevance	Source / evidence
App inventory	Output	Affects App inventory; followed by IT Manager.	High	Process performance dashboard, Jan 2026
Interface maps	Output	Affects Interface maps; followed by IT Manager.	Medium	Interview with the process owner, Jan 2026

Application repository interfaces	Category	Description and impact	Relevance	Source / evidence
API specs	Output	Affects App inventory; followed by IT Manager.	Medium	Regulatory watch bulletin, Dec 2025

Task MP-046.T2 — Execute application repository activities

P **MP-046.4 Define application repository APIs** (IT Manager · Register items) What to type ▾ **Application repository APIs identified — 3 rows to paste or type**

Application repository APIs	Category	Description and impact	Relevance	Source / evidence
App inventory	Output	Affects App inventory; followed by IT Manager.	High	Interview with the process owner, Jan 2026
Interface maps	Output	Affects Interface maps; followed by IT Manager.	Medium	Regulatory watch bulletin, Jan 2026
API specs	Output	Affects App inventory; followed by IT Manager.	Medium	Supplier evaluation file, Dec 2025

D **MP-046.5 Maintain application repository schemas** (IT Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Maintain application repository schemas carried out on core delivery process; App inventory updated.	—	100

C **MP-046.6 Assess application repository obsolescence** (IT Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
4	Weighted score 4/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
App inventory complete and up to date	30	5	App inventory reviewed on 2026-02-15; 2 gaps corrected.
Requirements of ISO 9001 met	30	3	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Interface maps	20	5	Records filed in the project: Interface maps.
Results against target	20	3	KPI Q-KPI-01 used as the measure.

Task MP-046.T3 — Verify, record and close application repository

D **MP-046.7 Publish application repository** (IT Manager · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-UMS051-07	2.0	App inventory for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

D **MP-046.8 Update application repository** (IT Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
App inventory updated: specification not met.	Finding of the internal audit	—

UMS052 (MP-047) — Technology and Architecture Lifecycle

Define standards; evaluate new technologies; manage upgrades; monitor obsolescence. Owner: IT Manager.

Task MP-047.T1 — Plan and prepare technology architecture

P **MP-047.1 Define technology architecture standards** (IT Manager · Register items) What to type ▾ **Technology architecture standards identified — 1 row to paste or type**

Technology architecture standards	Category	Description and impact	Relevance	Source / evidence
ISO 9001	Requirement	Affects Standards; followed by IT Manager.	High	Customer complaint log, Feb 2026

C **MP-047.2 Evaluate technology architecture technologies** (IT Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.4	Weighted score 3.4/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Standards complete and up to date	30	3	Standards reviewed on 2026-02-17; 2 gaps corrected.
Requirements of ISO 9001 met	30	3	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Roadmaps	20	3	Records filed in the project: Roadmaps.
Results against target	20	5	KPI Q-KPI-01 used as the measure.

P **MP-047.3 Establish technology architecture roadmaps** (IT Manager · Plan) What to type ▾ **Planned activities (become actions) — 3 rows to paste or type**

Activity	Owner	Start	Due date	Deliverable
Manage technology architecture upgrades	Mehdi Fassi	2026-02-22	2026-03-08	Standards
Conduct technology architecture reviews	Mehdi Fassi	2026-02-27	2026-03-18	Roadmaps
Monitor technology architecture obsolescence	Mehdi Fassi	2026-03-04	2026-03-28	Standards

On completion: *each row becomes an action of the Action plan.*

Task MP-047.T2 — Execute technology architecture activities

D **MP-047.4 Manage technology architecture upgrades** (IT Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Manage technology architecture upgrades carried out on core delivery process; Standards updated.	Manage technology architecture upgrades	100

Step: Apply CAPA recommendations AI. Inputs: NC data; Historical CAPA; Root cause data. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Edited	CAPA recommendations drafted with the assistant and reviewed by Quality Manager: covers ISO 9001.

C **MP-081.3 Rank CAPA recommendations by effectiveness** (Quality Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.7	Weighted score 3.7/5. Main gap: Unauthorized approval of governed documents. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
CAPA recommendations complete and up to date	30	3	CAPA recommendations reviewed on 2026-05-14; 2 gaps corrected.
Requirements of ISO 9001 met	30	4	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Effectiveness rankings	20	4	Records filed in the project: Effectiveness rankings.
Results against target	20	4	KPI Q-KPI-01 used as the measure.

Task MP-081.T2 — Execute CAPA recommendations activities

D **MP-081.4 Link CAPA recommendations to successful** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Link CAPA recommendations to successful carried out on core delivery process; CAPA recommendations updated.	—	100

P **MP-081.5 Provide CAPA recommendations guidance** (Quality Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Provide CAPA recommendations guidance	Enabled for core delivery process	Needed to produce CAPA recommendations
Owner and notification	Quality Manager	Alerts go to the process owner

C **MP-081.6 Track CAPA recommendations effectiveness** (Quality Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (CAPA recommendations); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (CAPA recommendations); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

Task MP-081.T3 — Verify, record and close CAPA recommendations

D **MP-081.7 Learn from CAPA recommendations** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Learn from CAPA recommendations carried out on core delivery process; CAPA recommendations updated.	—	100

D **MP-081.8 Improve CAPA recommendations** (Quality Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
CAPA recommendations updated: specification not met.	Finding of the internal audit	—

DMS021 (MP-082) — NCP Knowledge Base and RAG Management

Build/maintain vector KB; semantic search; RAG; multi-language; RBAC-aware. Owner: Quality Manager.

Task MP-082.T1 — Plan and prepare NCP knowledge base

P **MP-082.1 Define NCP knowledge base schema** (Quality Manager · Register items) What to type ▾ **NCP knowledge base schema identified — 3 rows to paste or type**

NCP knowledge base schema	Category	Description and impact	Relevance	Source / evidence
Vector KB	Output	Affects Vector KB; followed by Quality Manager.	High	Customer complaint log, May 2026
RAG index	Output	Affects RAG index; followed by Quality Manager.	Medium	Internal audit report, Apr 2026
Search results	Output	Affects Vector KB; followed by Quality Manager.	Medium	Process performance dashboard, Apr 2026

D **MP-082.2 Ingest NCP knowledge base data** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Ingest NCP knowledge base data: done by the DynamicMS Engine; Vector KB available in the project.	—

D **MP-082.3 Generate NCP knowledge base embeddings** (Quality Manager · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Generate NCP knowledge base embeddings. Inputs: Closed NCP fiches; REX entries; Standards library. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Edited	Vector KB drafted with the assistant and reviewed by Quality Manager: covers ISO 9001.

D **MP-082.4 Index into vector DB** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Index into vector DB: done by the DynamicMS Engine; Vector KB available in the project.	—

Task MP-082.T2 — Execute NCP knowledge base activities

D **MP-082.5 Configure NCP knowledge base RAG** (Quality Manager · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Configure NCP knowledge base RAG. Inputs: Closed NCP fiches; REX entries; Standards library. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Edited	Vector KB drafted with the assistant and reviewed by Quality Manager: covers ISO 9001.

D **MP-082.6 Retrieve knowledge within access rights** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Retrieve knowledge within access rights carried out on core delivery process; Vector KB updated.	—	100

D **MP-082.7 Translate knowledge articles (EN/FR/AR)** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Translate knowledge articles (EN/FR/AR) carried out on core delivery process; Vector KB updated.	—	100

Task MP-082.T3 — Verify, record and close NCP knowledge base

C **MP-082.8 Monitor NCP knowledge base quality** (Quality Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Vector KB); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Vector KB); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

D **MP-082.9 Update NCP knowledge base on closure** (Quality Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
Vector KB updated: Use of an obsolete document version.	Decision of the management review	—

D **MP-082.10 Report on NCP knowledge base status** (Quality Manager · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
AI agents	Intranet	2026-05-27	Vector KB: what changes for you and what to do by 2026-06-10.	Quality Manager
NCP teams	Notice board	2026-05-29	RAG index: what changes for you and what to do by 2026-06-10.	Quality Manager

DMS022 (MP-083) — AI Agent Orchestration for Problem Solving

Coordinate 8 AI agents; manage state machine; ensure RBAC; log with confidence. Owner: Quality Manager.

Task MP-083.T1 — Plan and prepare AI problem-solving agents

D **MP-083.1 Initialize AI problem-solving agents Orchestrator** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Initialize AI problem-solving agents Orchestrator carried out on core delivery process; AI classifications updated.	—	100

D **MP-083.2 Trigger Classification at E1** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Trigger Classification at E1 carried out on core delivery process; AI classifications updated.	—	100

D **MP-083.3 Trigger Structuring at E2** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Trigger Structuring at E2 carried out on core delivery process; AI classifications updated.	—	100

D **MP-083.4 Trigger Containment at E3** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Trigger Containment at E3 carried out on core delivery process; AI classifications updated.	—	100

Task MP-083.T2 — Execute AI problem-solving agents activities

D **MP-083.5 Trigger RCA at E4** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Trigger RCA at E4 carried out on core delivery process; AI classifications updated.	—	100

D **MP-083.6 Trigger Action Rec. at E5** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Trigger Action Rec. at E5 carried out on core delivery process; AI classifications updated.	—	100

D **MP-083.7 Trigger Monitoring at E6** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Trigger Monitoring at E6 carried out on core delivery process; AI classifications updated.	—	100

Task MP-083.T3 — Verify, record and close AI problem-solving agents

D **MP-083.8 Trigger REX at E7** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Trigger REX at E7 carried out on core delivery process; AI classifications updated.	—	100

D **MP-083.9 Manage AI problem-solving agents transitions** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Manage AI problem-solving agents transitions carried out on core delivery process; AI classifications updated.	—	100

D **MP-083.10 Log agent answers with confidence score** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Log agent answers with confidence score: done by the DynamicMS Engine; AI classifications available in the project.	—

DMS023 (MP-084) — Smart Alert and Escalation Engine

Trigger 10 alert types (A–J); deliver; escalate; configurable per tenant. Owner: Performance Manager.

Task MP-084.T1 — Plan and prepare alert engine

P **MP-084.1 Configure alert engine A–J** (Performance Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Configure alert engine A–J	Enabled for core delivery process	Needed to produce In-app notifications
Owner and notification	Performance Manager	Alerts go to the process owner

D **MP-084.2 Send alert A for high-priority problems** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Send alert A for high-priority problems: done by the DynamicMS Engine; In-app notifications available in the project.	—

D **MP-084.3 Send alert B for overdue actions** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Send alert B for overdue actions: done by the DynamicMS Engine; In-app notifications available in the project.	—

D **MP-084.4 Send alert C for pending evaluations** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Send alert C for pending evaluations: done by the DynamicMS Engine; In-app notifications available in the project.	—

Task MP-084.T2 — Execute alert engine activities

D **MP-084.5 Send alert D for delayed root cause analyses** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Send alert D for delayed root cause analyses: done by the DynamicMS Engine; In-app notifications available in the project.	—

D **MP-084.6 Send alert E for lessons to capitalize** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Send alert E for lessons to capitalize: done by the DynamicMS Engine; In-app notifications available in the project.	—

D **MP-084.7 Send alert F for KPI breaches** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Send alert F for KPI breaches: done by the DynamicMS Engine; In-app notifications available in the project.	—

D **MP-084.8 Send reminders G–I one and two days before due dates** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Send reminders G–I one and two days before due dates: done by the DynamicMS Engine; In-app notifications available in the project.	—

Task MP-084.T3 — Verify, record and close alert engine

D **MP-084.9 Send alert J for inactive records** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Send alert J for inactive records: done by the DynamicMS Engine; In-app notifications available in the project.	—

D **MP-084.10 Escalate after 24h** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Escalate after 24h: done by the DynamicMS Engine; In-app notifications available in the project.	—

D **MP-084.11 Log alert dispatches and acknowledgements** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Log alert dispatches and acknowledgements: done by the DynamicMS Engine; In-app notifications available in the project.	—

DMS026 (MP-087) — REX Capitalization and Generalization

Document lessons; identify standardization (V1); generalization (V2); update KB. Owner: Quality Manager.

Task MP-087.T1 — Plan and prepare lessons learned (REX)

P **MP-087.1 Plan lessons learned (REX) workshop** (Quality Manager · Plan) What to type ▾ **Planned activities (become actions) — 3 rows to paste or type**

Activity	Owner	Start	Due date	Deliverable
Document lessons learned with AI assistance	Leila Mansouri	2026-06-04	2026-06-18	REX narrative
Identify lessons learned (REX) standardization	Leila Mansouri	2026-06-09	2026-06-28	Standardization records
Identify lessons learned (REX) generalization	Leila Mansouri	2026-06-14	2026-07-08	REX narrative

On completion: *each row becomes an action of the Action plan.*

D **MP-087.2 Document lessons learned with AI assistance** (Quality Manager · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Document lessons learned with AI assistance. Inputs: Closed fiches; Corrective records; Effectiveness evals. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Edited	REX narrative drafted with the assistant and reviewed by Quality Manager: covers ISO 9001.

P **MP-087.3 Identify lessons learned (REX) standardization** (Quality Manager · Register items) What to type ▾ **Lessons learned (REX) standardization identified — 1 row to paste or type**

Lessons learned (REX) standardization	Category	Description and impact	Relevance	Source / evidence
ISO 9001	Requirement	Affects REX narrative; followed by Quality Manager.	High	Process performance dashboard, May 2026

P **MP-087.4 Identify lessons learned (REX) generalization** (Quality Manager · Register items) What to type ▾ **Lessons learned (REX) generalization identified — 3 rows to paste or type**

Lessons learned (REX) generalization	Category	Description and impact	Relevance	Source / evidence
REX narrative	Output	Affects REX narrative; followed by Quality Manager.	High	Interview with the process owner, Apr 2026
Standardization records	Output	Affects Standardization records; followed by Quality Manager.	Medium	Regulatory watch bulletin, Apr 2026
Generalization plans	Output	Affects REX narrative; followed by Quality Manager.	Medium	Supplier evaluation file, Apr 2026

Task MP-087.T2 — Execute lessons learned (REX) activities

P **MP-087.5 Assign lessons learned (REX) responsible** (Quality Manager · Assignment) What to type ▾

Role	Person (from the OBS)	Organization units covered
Quality Manager	Leila Mansouri	Quality

RACSI of the macro process — 1 row to paste or type

R	A	C	S	I
Quality Manager	IMS Manager	Risk Manager	Document Controller	Top Management

D **MP-087.6 Set lessons learned (REX) deadlines** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Set lessons learned (REX) deadlines carried out on core delivery process; REX narrative updated.	Document lessons learned with AI assistance	100

D **MP-087.7 Update lessons learned (REX) knowledge base** (Quality Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
REX narrative updated: Use of an obsolete document version.	Change in regulation	Document lessons learned with AI assistance

Task MP-087.T3 — Verify, record and close lessons learned (REX)

D **MP-087.8 Update lessons learned (REX) procedures** (Quality Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
REX narrative updated: specification not met.	Finding of the internal audit	Document lessons learned with AI assistance

D **MP-087.9 Index lessons learned (REX) into RAG** (Quality Manager · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Index lessons learned (REX) into RAG. Inputs: Closed fiches; Corrective records; Effectiveness evals. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Edited	REX narrative drafted with the assistant and reviewed by Quality Manager: covers ISO 9001.

D **MP-087.10 Communicate lessons learned (REX)** (Quality Manager · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

DMS030 (MP-091) — Voice-to-Text Incident and Audit Reporting

Hands-free reporting; voice to structured text; multi-language; reduce time. Owner: Quality Manager.

Task MP-091.T1 — Plan and prepare voice reports

P **MP-091.1 Capture voice reports** (Quality Manager · Register items) What to type ▾ **Voice reports identified — 3 rows to paste or type**

Voice reports	Category	Description and impact	Relevance	Source / evidence
Structured reports	Output	Affects Structured reports; followed by Quality Manager.	High	Customer complaint log, May 2026
Audit observations	Output	Affects Audit observations; followed by Quality Manager.	Medium	Internal audit report, May 2026
Voice evidence	Output	Affects Structured reports; followed by Quality Manager.	Medium	Process performance dashboard, May 2026

D **MP-091.2 Transcribe voice reports to text (EN/FR/AR)** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Transcribe voice reports to text (EN/FR/AR) carried out on core delivery process; Structured reports updated.	—	100

P **MP-091.3 Extract structured data** (Quality Manager · Register items) What to type ▾ **Structured data identified — 3 rows to paste or type**

Structured data	Category	Description and impact	Relevance	Source / evidence
Structured reports	Output	Affects Structured reports; followed by Quality Manager.	High	Process performance dashboard, May 2026
Audit observations	Output	Affects Audit observations; followed by Quality Manager.	Medium	Interview with the process owner, Apr 2026
Voice evidence	Output	Affects Structured reports; followed by Quality Manager.	Medium	Regulatory watch bulletin, Apr 2026

C **MP-091.4 Classify voice reports type** (Quality Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.2	Weighted score 3.2/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Structured reports complete and up to date	30	3	Structured reports reviewed on 2026-06-05; 2 gaps corrected.
Requirements of ISO 9001 met	30	3	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Audit observations	20	3	Records filed in the project: Audit observations.
Results against target	20	4	KPI Q-KPI-01 used as the measure.

Task MP-091.T2 — Execute voice reports activities

D **MP-091.5 Suggest voice reports severity** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Suggest voice reports severity carried out on core delivery process; Structured reports updated.	—	100

D **MP-091.6 Route voice reports to workflow** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Route voice reports to workflow carried out on core delivery process; Structured reports updated.	—	100

D **MP-091.7 Attach voice reports recording** (Quality Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Attach voice reports recording carried out on core delivery process; Structured reports updated.	—	100

Task MP-091.T3 — Verify, record and close voice reports

P **MP-091.8 Enable voice reports review** (Quality Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Enable voice reports review	Enabled for core delivery process	Needed to produce Structured reports
Owner and notification	Quality Manager	Alerts go to the process owner

D **MP-091.9 Train voice reports models** (Quality Manager · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Train voice reports models. Inputs: Voice recordings; Incident data; Audit observations. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Accepted	Structured reports drafted with the assistant and reviewed by Quality Manager: covers ISO 9001.

D **MP-091.10 Report voice reports analytics** (Quality Manager · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Field operators	Intranet	2026-06-10	Structured reports: what changes for you and what to do by 2026-06-24.	Quality Manager
Auditors	Notice board	2026-06-12	Audit observations: what changes for you and what to do by 2026-06-24.	Quality Manager

Gate — G9 — Problem solving effective

Exit criteria: Critical NCs contained within 24 h; corrective actions verified by an independent evaluator.

What to do ▸ Lifecycle › phase card › gate panel. Tick: “Containment within 24 h for critical NCs” (mandatory, evidence); “Root cause validated for major NCs” (mandatory, evidence); “Effectiveness verified by independent evaluator” (mandatory, evidence).

Decision: sign in as Nabil Zerouali (ceo@horizon-universal.example), select Go and type the comment “Exit criteria met; evidence reviewed; proceed to the next phase.”

PDCA link — E2E-10 (NC KPIs); E2E-12 (improvement); E2E-05 (knowledge).

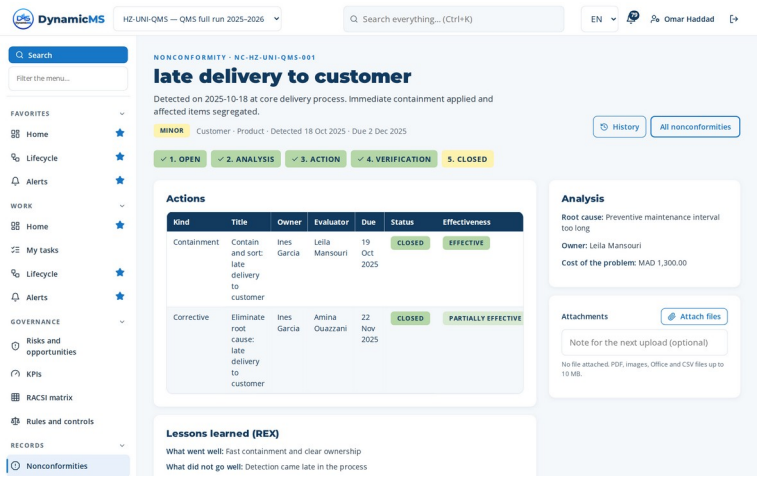

Figure — A nonconformity: containment, root cause, corrective actions, effectiveness.

E2E-10 — Monitoring To Evaluation · Check

C Goals: Monitor performance, evaluate results, steer the organization. **From trigger to terminal event:** Monitoring periodicity, performance deviation, or governance review → Performance evaluated; governance decisions made; improvements identified.

17 macro processes, 163 steps. Delivers: KPI results, process reviews, management review decisions and actions. **Feeds:** E2E-11 (audit focus); E2E-12 (improvement); E2E-01 (next cycle).

UMS027 (MP-009) — Process Indicators and KPI Management

Define KPIs; align with objectives; set targets; automate and visualize. Owner: Performance Manager. Requirements: ISO 9001 §9.1.1.

Task MP-009.T1 — Plan and prepare process KPIs

P MP-009.1 Define process KPIs indicators (Performance Manager · Register items) What to type ▾ **Process KPIs indicators identified — 4 rows to paste or type**

Process KPIs indicators	Category	Description and impact	Relevance	Source / evidence
Customer satisfaction index	Indicator	Affects KPI definitions; followed by Performance Manager.	High	Customer complaint log, May 2026
On-time delivery rate	Indicator	Affects Dashboards; followed by Performance Manager.	Medium	Internal audit report, May 2026
First pass yield	Indicator	Affects KPI definitions; followed by Performance Manager.	Medium	Process performance dashboard, May 2026
Cost of poor quality	Indicator	Affects Dashboards; followed by Performance Manager.	Low	Interview with the process owner, May 2026

D MP-009.2 Align process KPIs with objectives (Performance Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Align process KPIs with objectives carried out on core delivery process; KPI definitions updated.	HZ-UNI-QMS-KPI — KPI dashboard and measurement results	100

P MP-009.3 Set process KPIs targets (Performance Manager · SMART objectives) What to type ▾ **Objectives (become entries of the objectives register) — 4 rows to paste or type**

Specific objective	Measure (KPI)	Baseline	Achievable target	Relevant to (policy commitment)	Owner	Time-bound deadline	Resources
Raise customer satisfaction on products and services	Q-KPI-01 — Customer satisfaction index	78%	>= 85%	Satisfy customer requirements	Leila Mansouri	2026-09-26	Quarterly survey; complaint review meeting
Deliver products and services on time	Q-KPI-02 — On-time delivery rate	86%	>= 95%	On time, right first time	Ines Garcia	2026-06-28	Planning board; one extra technician in summer
Reduce the cost of poor quality	Q-KPI-04 — Cost of poor quality	4.1%	<= 2%	Continual improvement	Leila Mansouri	2026-09-26	Rework tracking in the NC register
Close corrective actions on time	Q-KPI-05 — Corrective actions closed on time	70%	>= 90%	Continual improvement	Omar Haddad	2026-03-30	Weekly action review

On completion: *each row becomes an objective of the register.*

Task MP-009.T2 — Execute process KPIs activities

P MP-009.4 Define process KPIs data sources (Performance Manager · Register items) What to type ▾ **Process KPIs data sources identified — 3 rows to paste or type**

Process KPIs data sources	Category	Description and impact	Relevance	Source / evidence
KPI definitions	Output	Affects KPI definitions; followed by Performance Manager.	High	Interview with the process owner, May 2026
Dashboards	Output	Affects Dashboards; followed by Performance Manager.	Medium	Regulatory watch bulletin, Apr 2026

Process KPIs data sources	Category	Description and impact	Relevance	Source / evidence
Target tracking	Output	Affects KPI definitions; followed by Performance Manager.	Medium	Supplier evaluation file, Apr 2026

P **MP-009.5 Establish process KPIs frequency** (Performance Manager · Periodicity) What to type ▾

Frequency	Next due date	Review chaired by	Organization units in scope	Review inputs and notes
Monthly	2026-07-11	Performance Manager	Operations	Inputs for each review: Process objectives; Strategic objectives; Performance data. An early review is triggered by: Receipt or update of Process objectives, Strategic objectives from Process owners, Data analysts.

P **MP-009.6 Designate owners of process KPIs** (Performance Manager · Plan) What to type ▾ **Planned activities (become actions) — 3 rows to paste or type**

Activity	Owner	Start	Due date	Deliverable
Review process KPIs relevance	Tariq Saleh	2026-06-14	2026-06-28	KPI definitions
Automate process KPIs	Tariq Saleh	2026-06-19	2026-07-08	Dashboards
Visualize process KPIs	Tariq Saleh	2026-06-24	2026-07-18	KPI definitions

On completion: *each row becomes an action of the Action plan.*

Task MP-009.T3 — Verify, record and close process KPIs

C **MP-009.7 Review process KPIs relevance** (Performance Manager · Review) What to type ▾

Review frequency	Review date	Next review	Chaired by	Participants
Quarterly	2026-06-15	2026-09-14	Performance Manager	Performance Manager, IMS Manager, Quality Manager

Inputs reviewed — 3 rows to paste or type

Input	Finding
Process objectives	Process objectives still valid; minor updates made.
Strategic objectives	No major change since the last review.
Performance data	Gap found on Dashboards.

Decisions and actions — 1 row to paste or type

Decision	Owner	Due date
Update Dashboards	Tariq Saleh	2026-07-15

On completion: *each row becomes an action of the Action plan.*

D **MP-009.8 Automate process KPIs** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Automate process KPIs: done by the DynamicMS Engine; KPI definitions available in the project.	HZ-UNI-QMS-KPI — KPI dashboard and measurement results; Review process KPIs relevance

D **MP-009.9 Visualize process KPIs** (Performance Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Visualize process KPIs carried out on core delivery process; KPI definitions updated.	HZ-UNI-QMS-KPI — KPI dashboard and measurement results; Review process KPIs relevance	100

Task MP-009.T4 — Govern KPI Frequencies & RACSI

D **MP-009.10 Set KPI measurement and analysis frequencies** (Performance Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Set KPI measurement and analysis frequencies carried out on core delivery process; KPI definitions updated.	HZ-UNI-QMS-KPI — KPI dashboard and measurement results; Review process KPIs relevance	100

P **MP-009.11 Assign KPI RACSI** (Performance Manager · Assignment) What to type ▾

Role	Person (from the OBS)	Organization units covered
Performance Manager	Tariq Saleh	Operations

RACSI of the macro process — 1 row to paste or type

R	A	C	S	I
Performance Manager	IMS Manager	Risk Manager	Document Controller	Top Management

UMS028 (MP-010) — Process Alert and Escalation Thresholds

Define alert thresholds; set escalation levels; configure notifications; test. Owner: Performance Manager. Requirements: ISO 9001 §9.1.1.

Task MP-010.T1 — Plan and prepare alert and escalation thresholds

P **MP-010.1 Define alert and escalation thresholds** (Performance Manager · Register items) What to type ▾ **Alert and escalation thresholds identified — 3 rows to paste or type**

Alert and escalation thresholds	Category	Description and impact	Relevance	Source / evidence
Alert thresholds	Output	Affects Alert thresholds; followed by Performance Manager.	High	Customer complaint log, Jun 2026
Escalation procedures	Output	Affects Escalation procedures; followed by Performance Manager.	Medium	Internal audit report, May 2026
Notification records	Output	Affects Alert thresholds; followed by Performance Manager.	Medium	Process performance dashboard, May 2026

D **MP-010.2 Set alert levels** (Performance Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Set alert levels carried out on core delivery process; Alert thresholds updated.	—	100

P **MP-010.3 Configure alert and escalation thresholds triggers** (Performance Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Configure alert and escalation thresholds triggers	Enabled for core delivery process	Needed to produce Alert thresholds
Owner and notification	Performance Manager	Alerts go to the process owner

Task MP-010.T2 — Execute alert and escalation thresholds activities

P **MP-010.4 Designate alert and escalation thresholds recipients** (Performance Manager · Plan) What to type ▾ **Planned activities (become actions) — 3 rows to paste or type**

Activity	Owner	Start	Due date	Deliverable
Define escalation paths	Tariq Saleh	2026-06-14	2026-06-28	Alert thresholds
Test alert and escalation thresholds	Tariq Saleh	2026-06-19	2026-07-08	Escalation procedures
Monitor alert and escalation thresholds	Tariq Saleh	2026-06-24	2026-07-18	Alert thresholds

On completion: *each row becomes an action of the Action plan.*

P **MP-010.5 Define escalation paths** (Performance Manager · Register items) What to type ▾ **Escalation paths identified — 3 rows to paste or type**

Escalation paths	Category	Description and impact	Relevance	Source / evidence
Alert thresholds	Output	Affects Alert thresholds; followed by Performance Manager.	High	Regulatory watch bulletin, Apr 2026
Escalation procedures	Output	Affects Escalation procedures; followed by Performance Manager.	Medium	Supplier evaluation file, Apr 2026
Notification records	Output	Affects Alert thresholds; followed by Performance Manager.	Medium	Management review minutes, Apr 2026

C **MP-010.6 Test alert and escalation thresholds** (Performance Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
4.6	Weighted score 4.6/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Alert thresholds complete and up to date	30	5	Alert thresholds reviewed on 2026-06-11; 2 gaps corrected.
Requirements of ISO 9001 §9.1.1 met	30	5	Checked against ISO 9001 §9.1.1 with the checklist of the phase gate.
Evidence available for Escalation procedures	20	5	Records filed in the project: Escalation procedures.
Results against target	20	3	KPI Q-KPI-01 used as the measure.

Task MP-010.T3 — Verify, record and close alert and escalation thresholds

C **MP-010.7 Monitor alert and escalation thresholds** (Performance Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Alert thresholds); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Alert thresholds); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

D **MP-010.8 Adjust alert and escalation thresholds** (Performance Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
Alert thresholds updated: Use of an obsolete document version.	Finding of the internal audit	Define escalation paths

D **MP-010.9 Update alert and escalation thresholds** (Performance Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
Alert thresholds updated: specification not met.	Decision of the management review	Define escalation paths

UMS029 (MP-011) — Real-Time Dashboard and Process Steering

Provide real-time visibility; enable drill-down; control access; update. Owner: Performance Manager. Requirements: ISO 9001 §9.1.3.

Task MP-011.T1 — Plan and prepare process dashboard

P **MP-011.1 Identify process dashboard profiles** (Performance Manager · Register items) What to type ▾ **Process dashboard profiles identified — 3 rows to paste or type**

Process dashboard profiles	Category	Description and impact	Relevance	Source / evidence
Dashboards	Output	Affects Dashboards; followed by Performance Manager.	High	Customer complaint log, Jun 2026
Drill-down reports	Output	Affects Drill-down reports; followed by Performance Manager.	Medium	Internal audit report, May 2026
Access records	Output	Affects Dashboards; followed by Performance Manager.	Medium	Process performance dashboard, May 2026

P **MP-011.2 Define process dashboard layout** (Performance Manager · Register items) What to type ▾ **Process dashboard layout identified — 3 rows to paste or type**

Process dashboard layout	Category	Description and impact	Relevance	Source / evidence
Dashboards	Output	Affects Dashboards; followed by Performance Manager.	High	Internal audit report, May 2026

DMS016 (MP-077) — Cross-Site Benchmarking

Compare performance across sites; identify best practices; share; drive standardization. Owner: Performance Manager.

Task MP-077.T1 — Plan and prepare cross-site benchmark

P **MP-077.1 Define cross-site benchmark metrics** (Performance Manager · Register items) What to type ▾ **Cross-site benchmark metrics identified — 4 rows to paste or type**

Cross-site benchmark metrics	Category	Description and impact	Relevance	Source / evidence
Customer satisfaction index	Indicator	Affects Benchmarking reports; followed by Performance Manager.	High	Customer complaint log, Jul 2026
On-time delivery rate	Indicator	Affects Best practice library; followed by Performance Manager.	Medium	Internal audit report, Jul 2026
First pass yield	Indicator	Affects Benchmarking reports; followed by Performance Manager.	Medium	Process performance dashboard, Jun 2026
Cost of poor quality	Indicator	Affects Best practice library; followed by Performance Manager.	Low	Interview with the process owner, Jun 2026

P **MP-077.2 Collect cross-site benchmark data** (Performance Manager · Register items) What to type ▾ **Cross-site benchmark data identified — 3 rows to paste or type**

Cross-site benchmark data	Category	Description and impact	Relevance	Source / evidence
Benchmarking reports	Output	Affects Benchmarking reports; followed by Performance Manager.	High	Internal audit report, Jul 2026
Best practice library	Output	Affects Best practice library; followed by Performance Manager.	Medium	Process performance dashboard, Jun 2026
Standardization recommendations	Output	Affects Benchmarking reports; followed by Performance Manager.	Medium	Interview with the process owner, Jun 2026

D **MP-077.3 Normalize and compare** (Performance Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Normalize and compare carried out on core delivery process; Benchmarking reports updated.	—	100

Task MP-077.T2 — Execute cross-site benchmark activities

P **MP-077.4 Identify top performers** (Performance Manager · Register items) What to type ▾ **Top performers identified — 3 rows to paste or type**

Top performers	Category	Description and impact	Relevance	Source / evidence
Benchmarking reports	Output	Affects Benchmarking reports; followed by Performance Manager.	High	Interview with the process owner, Jun 2026
Best practice library	Output	Affects Best practice library; followed by Performance Manager.	Medium	Regulatory watch bulletin, Jun 2026
Standardization recommendations	Output	Affects Benchmarking reports; followed by Performance Manager.	Medium	Supplier evaluation file, May 2026

P **MP-077.5 Extract best practices** (Performance Manager · Register items) What to type ▾ **Best practices identified — 3 rows to paste or type**

Best practices	Category	Description and impact	Relevance	Source / evidence
Benchmarking reports	Output	Affects Benchmarking reports; followed by Performance Manager.	High	Regulatory watch bulletin, Jun 2026
Best practice library	Output	Affects Best practice library; followed by Performance Manager.	Medium	Supplier evaluation file, Jun 2026
Standardization recommendations	Output	Affects Benchmarking reports; followed by Performance Manager.	Medium	Management review minutes, May 2026

D **MP-077.6 Share cross-site benchmark learnings** (Performance Manager · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Top mgmt	Intranet	2026-07-31	Benchmarking reports: what changes for you and what to do by 2026-08-14.	Performance Manager
Site mgrs	Notice board	2026-08-02	Best practice library: what changes for you and what to do by 2026-08-14.	Performance Manager

Task MP-077.T3 — Verify, record and close cross-site benchmark

D **MP-077.7 Drive cross-site benchmark standardization** (Performance Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Drive cross-site benchmark standardization carried out on core delivery process; Benchmarking reports updated.	—	100

C **MP-077.8 Track cross-site benchmark improvement** (Performance Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Benchmarking reports); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Benchmarking reports); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

DMS032 (MP-093) — Augmented Reality Guided Audits and Inspections

Guide auditors with AR; step-by-step instructions; remote expert assistance. Owner: Internal Audit Manager.

Task MP-093.T1 — Plan and prepare AR-guided inspections

P **MP-093.1 Define AR content** (Internal Audit Manager · Register items) What to type ▾ **AR content identified — 3 rows to paste or type**

AR content	Category	Description and impact	Relevance	Source / evidence
AR audit records	Output	Affects AR audit records; followed by Internal Audit Manager.	High	Customer complaint log, Jul 2026
Visual evidence	Output	Affects Visual evidence; followed by Internal Audit Manager.	Medium	Internal audit report, Jul 2026
Remote assistance logs	Output	Affects AR audit records; followed by Internal Audit Manager.	Medium	Process performance dashboard, Jun 2026

D **MP-093.2 Deploy AR-guided inspections overlays** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Deploy AR-guided inspections overlays: done by the DynamicMS Engine; AR audit records available in the project.	—

D **MP-093.3 Guide AR-guided inspections step-by-step** (Internal Audit Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Guide AR-guided inspections step-by-step carried out on core delivery process; AR audit records updated.	—	100

D **MP-093.4 Connect a remote expert to the inspection** (Internal Audit Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Connect a remote expert to the inspection carried out on core delivery process; AR audit records updated.	—	100

Task MP-093.T2 — Execute AR-guided inspections activities

P **MP-093.5 Capture AR evidence** (Internal Audit Manager · Register items) What to type ▾ **AR evidence identified — 3 rows to paste or type**

AR evidence	Category	Description and impact	Relevance	Source / evidence
AR audit records	Output	Affects AR audit records; followed by Internal Audit Manager.	High	Regulatory watch bulletin, Jun 2026
Visual evidence	Output	Affects Visual evidence; followed by Internal Audit Manager.	Medium	Supplier evaluation file, Jun 2026
Remote assistance logs	Output	Affects AR audit records; followed by Internal Audit Manager.	Medium	Management review minutes, May 2026

C **MP-093.6 Compare actual vs expected** (Internal Audit Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
4	Weighted score 4/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
AR audit records complete and up to date	30	4	AR audit records reviewed on 2026-07-30; 2 gaps corrected.
Requirements of ISO 9001 met	30	4	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Visual evidence	20	3	Records filed in the project: Visual evidence.
Results against target	20	5	KPI Q-KPI-01 used as the measure.

D **MP-093.7 Log inspection findings automatically** (Internal Audit Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Log inspection findings automatically carried out on core delivery process; AR audit records updated.	—	100

Task MP-093.T3 — Verify, record and close AR-guided inspections

D **MP-093.8 Train inspectors in augmented-reality mode** (Internal Audit Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Train inspectors in augmented-reality mode carried out on core delivery process; AR audit records updated.	—	100

D **MP-093.9 Update AR-guided inspections content** (Internal Audit Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
AR audit records updated: specification not met.	Decision of the management review	—

D **MP-093.10 Report AR-guided inspections analytics** (Internal Audit Manager · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Auditors	Intranet	2026-08-06	AR audit records: what changes for you and what to do by 2026-08-20.	Internal Audit Manager
Inspectors	Notice board	2026-08-08	Visual evidence: what changes for you and what to do by 2026-08-20.	Internal Audit Manager

DMS036 (MP-097) — Remote and Virtual Audit Capability

Enable remote audits; video/screen/document review; comply with IAF; reduce cost. Owner: Internal Audit Manager.

Task MP-097.T1 — Plan and prepare remote audit

P **MP-097.1 Define remote audit protocols** (Internal Audit Manager · Register items) What to type ▾ **Remote audit protocols identified — 3 rows to paste or type**

Remote audit protocols	Category	Description and impact	Relevance	Source / evidence
Remote audit reports	Output	Affects Remote audit reports; followed by Internal Audit Manager.	High	Customer complaint log, Jul 2026
Video records	Output	Affects Video records; followed by Internal Audit Manager.	Medium	Internal audit report, Jul 2026
Document review logs	Output	Affects Remote audit reports; followed by Internal Audit Manager.	Medium	Process performance dashboard, Jul 2026

P **MP-097.2 Schedule remote audit sessions** (Internal Audit Manager · Plan) What to type ▾ **Planned activities (become actions) — 3 rows to paste or type**

Activity	Owner	Start	Due date	Deliverable
Conduct audit interviews by video	Amina Ouazzani	2026-08-05	2026-08-19	Remote audit reports
Share remote audit screens	Amina Ouazzani	2026-08-10	2026-08-29	Video records
Review remote audit documents	Amina Ouazzani	2026-08-15	2026-09-08	Remote audit reports

On completion: *each row becomes an action of the Action plan.*

D **MP-097.3 Conduct audit interviews by video** (Internal Audit Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Conduct audit interviews by video carried out on core delivery process; Remote audit reports updated.	Conduct audit interviews by video	100

System result confirmed	Records produced
Generate multi-standard mapping matrix: done by the DynamicMS Engine; Cross-mapping matrix available in the project.	—

A MP-064.5 Validate multi-standard mapping (Compliance Officer · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Compliance Officer	Cross-mapping matrix approved against ISO 9001; no blocking point.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Cross-mapping matrix complete	Yes	Cross-mapping matrix v1.0
Requirements of ISO 9001 met	Yes	Checklist of the phase gate
Risks reviewed	Yes	Risk register

D MP-064.6 Publish multi-standard mapping (Compliance Officer · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-DMS003-06	1.0	Cross-mapping matrix for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

Task MP-064.T3 — Verify, record and close multi-standard mapping

D MP-064.7 Update multi-standard mapping on change (Compliance Officer · Change) What to type ▾

Change made	Reason	Documents or records updated
Cross-mapping matrix updated: specification not met.	Change in regulation	—

D MP-064.8 Report multi-standard mapping coverage (Compliance Officer · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Compliance	Meeting	2026-08-22	Cross-mapping matrix: what changes for you and what to do by 2026-09-05.	Compliance Officer
Process owners	E-mail	2026-08-24	Overlap analysis: what changes for you and what to do by 2026-09-05.	Compliance Officer

DMS004 (MP-065) — Intelligent Document Generation

Auto-generate documents; ensure compliance; reduce effort. Owner: Document Controller.

Task MP-065.T1 — Plan and prepare generated documents

P MP-065.1 Select generated documents template (Document Controller · Register items) What to type ▾ **Generated documents template identified — 3 rows to paste or type**

Generated documents template	Category	Description and impact	Relevance	Source / evidence
Generated docs	Output	Affects Generated docs; followed by Document Controller.	High	Customer complaint log, Aug 2026
Compliance validation	Output	Affects Compliance validation; followed by Document Controller.	Medium	Internal audit report, Jul 2026
Approval records	Output	Affects Generated docs; followed by Document Controller.	Medium	Process performance dashboard, Jul 2026

P MP-065.2 Gather generated documents data (Document Controller · Register items) What to type ▾ **Generated documents data identified — 3 rows to paste or type**

Generated documents data	Category	Description and impact	Relevance	Source / evidence
Generated docs	Output	Affects Generated docs; followed by Document Controller.	High	Internal audit report, Jul 2026
Compliance validation	Output	Affects Compliance validation; followed by Document Controller.	Medium	Process performance dashboard, Jul 2026
Approval records	Output	Affects Generated docs; followed by Document Controller.	Medium	Interview with the process owner, Jul 2026

D MP-065.3 Generate generated documents draft (Document Controller · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-DMS004-03	1.1	Generated docs for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

Task MP-065.T2 — Execute generated documents activities

A MP-065.4 Validate generated documents against standards (Document Controller · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Document Controller	Generated docs approved against ISO 9001; no blocking point.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Generated docs complete	Yes	Generated docs v1.0
Requirements of ISO 9001 met	Yes	Checklist of the phase gate
Risks reviewed	Yes	Risk register

D MP-065.5 Route generated documents for review (Document Controller · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Route generated documents for review carried out on core delivery process; Generated docs updated.	—	100

D **MP-065.6 Publish generated documents** (Document Controller · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-DMS004-06	1.1	Generated docs for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	HZ-UNI-QMS-PROC-01 — Procedure — Context To Strategy

Task MP-065.T3 — Verify, record and close generated documents

C **MP-065.7 Track generated documents version** (Document Controller · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Generated docs); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Generated docs); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

A **MP-065.8 Archive generated documents** (Document Controller · Closure) What to type ▾

Closure evidence	Records that prove effectiveness	Closure date
Generated docs closed; effectiveness verified on the KPI and evidence filed.	—	2026-08-22

DMS005 (MP-066) — Digital Twin Process Simulation

Create digital twin; simulate scenarios; predict outcomes; optimize design. Owner: Transformation Manager.

Task MP-066.T1 — Plan and prepare process digital twin

D **MP-066.1 Build process digital twin** (Transformation Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Build process digital twin carried out on core delivery process; Digital twin model updated.	—	100

D **MP-066.2 Calibrate process digital twin** (Transformation Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Calibrate process digital twin carried out on core delivery process; Digital twin model updated.	—	100

P **MP-066.3 Define process digital twin scenarios** (Transformation Manager · Register items) What to type ▾ **Process digital twin scenarios identified — 4 rows to paste or type**

Process digital twin scenarios	Category	Description and impact	Relevance	Source / evidence
Use of an obsolete document version	External issue	Affects Digital twin model; followed by Transformation Manager.	High	Process performance dashboard, Jul 2026
Unauthorized approval of governed documents	External issue	Affects Simulation results; followed by Transformation Manager.	Medium	Interview with the process owner, Jul 2026
Incomplete or inconsistent To-Be SIPOC published	External issue	Affects Digital twin model; followed by Transformation Manager.	Medium	Regulatory watch bulletin, Jul 2026
Revision of ISO 9001	Requirement	Affects Simulation results; followed by Transformation Manager.	Low	Supplier evaluation file, Jun 2026

Task MP-066.T2 — Execute process digital twin activities

D **MP-066.4 Run process digital twin simulations** (Transformation Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Run process digital twin simulations carried out on core delivery process; Digital twin model updated.	—	100

C **MP-066.5 Analyze process digital twin outcomes** (Transformation Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.7	Weighted score 3.7/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Digital twin model complete and up to date	30	4	Digital twin model reviewed on 2026-08-20; 2 gaps corrected.
Requirements of ISO 9001 met	30	3	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Simulation results	20	3	Records filed in the project: Simulation results.
Results against target	20	5	KPI Q-KPI-01 used as the measure.

C **MP-066.6 Compare process digital twin** (Transformation Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
4.4	Weighted score 4.4/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Digital twin model complete and up to date	30	4	Digital twin model reviewed on 2026-08-22; 2 gaps corrected.
Requirements of ISO 9001 met	30	4	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Simulation results	20	5	Records filed in the project: Simulation results.
Results against target	20	5	KPI Q-KPI-01 used as the measure.

Task MP-066.T3 — Verify, record and close process digital twin

D **MP-066.7 Recommend process digital twin design** (Transformation Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Recommend process digital twin design carried out on core delivery process; Digital twin model updated.	—	100

A **MP-066.8 Validate process digital twin** (Transformation Manager · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Go	Transformation Manager	Digital twin model approved against ISO 9001; no blocking point.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Digital twin model complete	Yes	Digital twin model v1.0
Requirements of ISO 9001 met	Yes	Checklist of the phase gate
Risks reviewed	Yes	Risk register

D **MP-066.9 Update process digital twin** (Transformation Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
Digital twin model updated: specification not met.	Decision of the management review	—

DMS014 (MP-075) — Natural Language Process Mining

Extract process insights from text; detect deviations; identify improvements. Owner: Process Excellence Manager.

Task MP-075.T1 — Plan and prepare process mining

P **MP-075.1 Collect process mining data** (Process Excellence Manager · Register items) What to type ▾ **Process mining data identified — 3 rows to paste or type**

Process mining data	Category	Description and impact	Relevance	Source / evidence
Discovered models	Output	Affects Discovered models; followed by Process Excellence Manager.	High	Customer complaint log, Aug 2026
Deviation reports	Output	Affects Deviation reports; followed by Process Excellence Manager.	Medium	Internal audit report, Aug 2026
Improvement recommendations	Output	Affects Discovered models; followed by Process Excellence Manager.	Medium	Process performance dashboard, Jul 2026

D **MP-075.2 Apply process mining NLP** (Process Excellence Manager · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Apply process mining NLP. Inputs: Process logs; Text data; Emails. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Accepted	Discovered models drafted with the assistant and reviewed by Process Excellence Manager: covers ISO 9001.

D **MP-075.3 Build process mining models** (Process Excellence Manager · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Build process mining models. Inputs: Process logs; Text data; Emails. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Accepted	Discovered models drafted with the assistant and reviewed by Process Excellence Manager: covers ISO 9001.

Task MP-075.T2 — Execute process mining activities

P **MP-075.4 Detect process mining deviations** (Process Excellence Manager · Register items) What to type ▾ **Process mining deviations identified — 3 rows to paste or type**

Process mining deviations	Category	Description and impact	Relevance	Source / evidence
Discovered models	Output	Affects Discovered models; followed by Process Excellence Manager.	High	Interview with the process owner, Jul 2026
Deviation reports	Output	Affects Deviation reports; followed by Process Excellence Manager.	Medium	Regulatory watch bulletin, Jul 2026
Improvement recommendations	Output	Affects Discovered models; followed by Process Excellence Manager.	Medium	Supplier evaluation file, Jul 2026

P **MP-075.5 Identify process mining bottlenecks** (Process Excellence Manager · Register items) What to type ▾ **Process mining bottlenecks identified — 3 rows to paste or type**

Process mining bottlenecks	Category	Description and impact	Relevance	Source / evidence
Discovered models	Output	Affects Discovered models; followed by Process Excellence Manager.	High	Regulatory watch bulletin, Jul 2026
Deviation reports	Output	Affects Deviation reports; followed by Process Excellence Manager.	Medium	Supplier evaluation file, Jun 2026
Improvement recommendations	Output	Affects Discovered models; followed by Process Excellence Manager.	Medium	Management review minutes, Jun 2026

D **MP-075.6 Recommend process mining improvements** (Process Excellence Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Recommend process mining improvements carried out on core delivery process; Discovered models updated.	—	100

Task MP-075.T3 — Verify, record and close process mining

A **MP-075.7 Validate process mining** (Process Excellence Manager · Decision) What to type ▾

Decision	Approver (Accountable)	Decision comment and conditions
Hold	Process Excellence Manager	Hold until Deviation reports is complete; review in two weeks.

Decision criteria checked — 3 rows to paste or type

Criterion	Met	Evidence
Discovered models complete	Yes	Discovered models v1.0
Requirements of ISO 9001 met	Partly	Checklist of the phase gate
Risks reviewed	Yes	Risk register

D **MP-075.8 Update process mining models** (Process Excellence Manager · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Update process mining models. Inputs: Process logs; Text data; Emails. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Accepted	Discovered models drafted with the assistant and reviewed by Process Excellence Manager: covers ISO 9001.

DMS017 (MP-078) — Predictive Compliance Intelligence

Predict compliance risks; identify at-risk processes; recommend actions; reduce NCs. Owner: Compliance Officer.

Task MP-078.T1 — Plan and prepare compliance prediction

P **MP-078.1 Collect compliance prediction data** (Compliance Officer · Register items) What to type ▾ **Compliance prediction data identified — 3 rows to paste or type**

Compliance prediction data	Category	Description and impact	Relevance	Source / evidence
Compliance risk predictions	Output	Affects Compliance risk predictions; followed by Compliance Officer.	High	Customer complaint log, Aug 2026
At-risk list	Output	Affects At-risk list; followed by Compliance Officer.	Medium	Internal audit report, Aug 2026
Preventive recommendations	Output	Affects Compliance risk predictions; followed by Compliance Officer.	Medium	Process performance dashboard, Jul 2026

D **MP-078.2 Train compliance prediction models** (Compliance Officer · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Train compliance prediction models. Inputs: Compliance data; Audit findings; NC data. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Accepted	Compliance risk predictions drafted with the assistant and reviewed by Compliance Officer: covers ISO 9001.

D **MP-078.3 Predict compliance prediction risks** (Compliance Officer · AI-assisted draft) What to type ▾

Context given to the assistant	Suggestion outcome	Final validated text
Step: Predict compliance prediction risks. Inputs: Compliance data; Audit findings; NC data. Standards: ISO 9001. Organization: Horizon Universal Holdings (products and services).	Edited	Compliance risk predictions drafted with the assistant and reviewed by Compliance Officer: covers ISO 9001.

Task MP-078.T2 — Execute compliance prediction activities

P **MP-078.4 Identify compliance prediction at-risk** (Compliance Officer · Register items) What to type ▾ **Compliance prediction at-risk identified — 4 rows to paste or type**

Compliance prediction at-risk	Category	Description and impact	Relevance	Source / evidence
Use of an obsolete document version	Risk	Affects Compliance risk predictions; followed by Compliance Officer.	High	Interview with the process owner, Jul 2026
Unauthorized approval of governed documents	Risk	Affects At-risk list; followed by Compliance Officer.	Medium	Regulatory watch bulletin, Jul 2026
Incomplete or inconsistent To-Be SIPOC published	Risk	Affects Compliance risk predictions; followed by Compliance Officer.	Medium	Supplier evaluation file, Jun 2026

Compliance prediction at-risk	Category	Description and impact	Relevance	Source / evidence
Late delivery to customer	Risk	Affects At-risk list; followed by Compliance Officer.	Low	Management review minutes, Jun 2026

D **MP-078.5 Recommend compliance prediction actions** (Compliance Officer · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Recommend compliance prediction actions carried out on core delivery process; Compliance risk predictions updated.	—	100

D **MP-078.6 Alert compliance prediction** (Compliance Officer · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Compliance	Intranet	2026-09-02	Compliance risk predictions: what changes for you and what to do by 2026-09-16.	Compliance Officer
Top mgmt	Notice board	2026-09-04	At-risk list: what changes for you and what to do by 2026-09-16.	Compliance Officer

Task MP-078.T3 — Verify, record and close compliance prediction

C **MP-078.7 Track compliance prediction accuracy** (Compliance Officer · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: stable, below target; action opened. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Compliance risk predictions); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Compliance risk predictions); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

Document authors	Intranet	2026-11-16	Co-edited documents: what changes for you and what to do by 2026-11-30.	Document Controller
Process owners	Notice board	2026-11-18	Presence records: what changes for you and what to do by 2026-11-30.	Document Controller

DMS033 (MP-094) — Digital Signature and E-Signature Workflow

Enable legally binding signatures; comply with eIDAS/ESIGN; automate workflows. Owner: Document Controller.

Task MP-094.T1 — Plan and prepare e-signature workflow

P **MP-094.1 Define e-signature workflow requirements** (Document Controller · Register items) What to type ▾ **E-signature workflow requirements identified — 1 row to paste or type**

E-signature workflow requirements	Category	Description and impact	Relevance	Source / evidence
ISO 9001	Requirement	Affects Signed documents; followed by Document Controller.	High	Customer complaint log, Nov 2026

P **MP-094.2 Integrate e-signature workflow providers** (Document Controller · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Integrate e-signature workflow providers	Enabled for core delivery process	Needed to produce Signed documents
Owner and notification	Document Controller	Alerts go to the process owner

C **MP-094.3 Verify e-signature workflow identity** (Document Controller · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.6	Weighted score 3.6/5. Main gap: Unauthorized approval of governed documents. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Signed documents complete and up to date	30	4	Signed documents reviewed on 2026-11-15; 2 gaps corrected.
Requirements of ISO 9001 met	30	4	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Signature certificates	20	3	Records filed in the project: Signature certificates.
Results against target	20	3	KPI Q-KPI-01 used as the measure.

D **MP-094.4 Route e-signature workflow for signature** (Document Controller · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Route e-signature workflow for signature carried out on core delivery process; Signed documents updated.	—	100

Task MP-094.T2 — Execute e-signature workflow activities

P **MP-094.5 Capture e-signature workflow with timestamps** (Document Controller · Register items) What to type ▾ **E-signature workflow with timestamps identified — 3 rows to paste or type**

E-signature workflow with timestamps	Category	Description and impact	Relevance	Source / evidence
Signed documents	Output	Affects Signed documents; followed by Document Controller.	High	Regulatory watch bulletin, Oct 2026
Signature certificates	Output	Affects Signature certificates; followed by Document Controller.	Medium	Supplier evaluation file, Sep 2026
Audit trail	Output	Affects Signed documents; followed by Document Controller.	Medium	Management review minutes, Sep 2026

D **MP-094.6 Store e-signature workflow certificates** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Store e-signature workflow certificates: done by the DynamicMS Engine; Signed documents available in the project.	—

P **MP-094.7 Provide audit trail** (Document Controller · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Provide audit trail	Enabled for core delivery process	Needed to produce Signed documents
Owner and notification	Document Controller	Alerts go to the process owner

Task MP-094.T3 — Verify, record and close e-signature workflow

D **MP-094.8 Sign documents in bulk** (Document Controller · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Sign documents in bulk carried out on core delivery process; Signed documents updated.	—	100

D **MP-094.9 Route documents for multi-party signature** (Document Controller · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Route documents for multi-party signature carried out on core delivery process; Signed documents updated.	—	100

D **MP-094.10 Report e-signature workflow analytics** (Document Controller · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Document authors	Intranet	2026-11-27	Signed documents: what changes for you and what to do by 2026-12-11.	Document Controller
Approvers	Notice board	2026-11-29	Signature certificates: what changes for you and what to do by 2026-12-11.	Document Controller

DMS039 (MP-100) — Low-Code Process Builder and Workflow Designer

Enable citizen developers; drag-and-drop; reduce IT dependency; accelerate digitization. Owner: Transformation Manager.

Task MP-100.T1 — Plan and prepare low-code workflows

P **MP-100.1 Provide low-code workflows designer** (Transformation Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Provide low-code workflows designer	Enabled for core delivery process	Needed to produce Custom workflows
Owner and notification	Transformation Manager	Alerts go to the process owner

P **MP-100.2 Enable form building** (Transformation Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Enable form building	Enabled for core delivery process	Needed to produce Custom workflows
Owner and notification	Transformation Manager	Alerts go to the process owner

P **MP-100.3 Configure low-code workflows rules** (Transformation Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Configure low-code workflows rules	Enabled for core delivery process	Needed to produce Custom workflows
Owner and notification	Transformation Manager	Alerts go to the process owner

P **MP-100.4 Connect low-code workflows data/APIs** (Transformation Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Connect low-code workflows data/APIs	Enabled for core delivery process	Needed to produce Custom workflows
Owner and notification	Transformation Manager	Alerts go to the process owner

Task MP-100.T2 — Execute low-code workflows activities

C **MP-100.5 Test low-code workflows in sandbox** (Transformation Manager · Assessment) What to type ▾

Weighted score (1–5)	Conclusion
3.9	Weighted score 3.9/5. Main gap: Use of an obsolete document version. Action recorded in the action plan.

Decision matrix — 4 rows to paste or type

Criterion	Weight (%)	Score (1–5)	Facts that justify the score
Custom workflows complete and up to date	30	3	Custom workflows reviewed on 2026-11-27; 2 gaps corrected.
Requirements of ISO 9001 met	30	4	Checked against ISO 9001 with the checklist of the phase gate.
Evidence available for Forms	20	5	Records filed in the project: Forms.
Results against target	20	4	KPI Q-KPI-01 used as the measure.

D **MP-100.6 Deploy low-code workflows** (DynamicMS Engine · Automated service task) What to type ▾

System result confirmed	Records produced
Deploy low-code workflows: done by the DynamicMS Engine; Custom workflows available in the project.	—

C **MP-100.7 Monitor low-code workflows performance** (Transformation Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Custom workflows); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Custom workflows); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

Task MP-100.T3 — Verify, record and close low-code workflows

D **MP-100.8 Govern and version low-code workflows** (Transformation Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Govern and version low-code workflows carried out on core delivery process; Custom workflows updated.	—	100

P **MP-100.9 Enable low-code workflows training** (Transformation Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Enable low-code workflows training	Enabled for core delivery process	Needed to produce Custom workflows
Owner and notification	Transformation Manager	Alerts go to the process owner

D **MP-100.10 Report low-code workflows adoption** (Transformation Manager · Communication) What to type ▾ **Communication records — 2 rows to paste or type**

Audience	Channel	Date	Key message	Communicated by
Business users	Intranet	2026-09-16	Custom workflows: what changes for you and what to do by 2026-09-30.	Transformation Manager
Process owners	Notice board	2026-09-18	Forms: what changes for you and what to do by 2026-09-30.	Transformation Manager

DMS040 (MP-101) — Marketplace for Templates, Connectors, and Industry Packs

Provide marketplace; enable contributions; accelerate deployment; new revenue. Owner: Transformation Manager.

Task MP-101.T1 — Plan and prepare marketplace items

P **MP-101.1 Define marketplace items architecture** (Transformation Manager · Register items) What to type ▾ **Marketplace items architecture identified — 3 rows to paste or type**

Marketplace items architecture	Category	Description and impact	Relevance	Source / evidence
Marketplace catalog	Output	Affects Marketplace catalog; followed by Transformation Manager.	High	Customer complaint log, Nov 2026
Certified templates	Output	Affects Certified templates; followed by Transformation Manager.	Medium	Internal audit report, Nov 2026
Connectors	Output	Affects Marketplace catalog; followed by Transformation Manager.	Medium	Process performance dashboard, Nov 2026

P **MP-101.2 Enable marketplace items onboarding** (Transformation Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Enable marketplace items onboarding	Enabled for core delivery process	Needed to produce Marketplace catalog
Owner and notification	Transformation Manager	Alerts go to the process owner

P **MP-101.3 Provide marketplace items guidelines** (Transformation Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Provide marketplace items guidelines	Enabled for core delivery process	Needed to produce Marketplace catalog
Owner and notification	Transformation Manager	Alerts go to the process owner

C **MP-101.4 Review and certify marketplace items** (Transformation Manager · Review) What to type ▾

Review frequency	Review date	Next review	Chaired by	Participants
Quarterly	2026-12-12	2027-03-13	Transformation Manager	Transformation Manager, IMS Manager, Quality Manager

Inputs reviewed — 3 rows to paste or type

Input	Finding
Templates	Templates still valid; minor updates made.
Connectors	No major change since the last review.
Industry packs	Gap found on Certified templates.

Decisions and actions — 1 row to paste or type

Decision	Owner	Due date
Update Certified templates	Salma Kettani	2027-01-11

On completion: *each row becomes an action of the Action plan.*

Task MP-101.T2 — Execute marketplace items activities

D **MP-101.5 Publish marketplace items** (Transformation Manager · Document) What to type ▾

Document template	Document reference	Version	Content summary	Generated document
TPL-PROC — Procedure	HZ-UNI-QMS-DMS040-05	2.0	Marketplace catalog for products and services, aligned with ISO 9001; generated from the project data, then completed by the author.	—

P **MP-101.6 Enable marketplace items browsing/purchase** (Transformation Manager · Configuration) What to type ▾

Tested before use
Yes

Settings — 2 rows to paste or type

Setting	Value	Reason
Enable marketplace items browsing/purchase	Enabled for core delivery process	Needed to produce Marketplace catalog
Owner and notification	Transformation Manager	Alerts go to the process owner

D **MP-101.7 Rate and review marketplace items** (Transformation Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Rate and review marketplace items carried out on core delivery process; Marketplace catalog updated.	—	100

Task MP-101.T3 — Verify, record and close marketplace items

C **MP-101.8 Track marketplace items analytics** (Transformation Manager · Measurement) What to type ▾

Analysis of gaps and trend
Trend over the last three months: improving. Next analysis at the performance review.

Indicators measured — 2 rows to paste or type

KPI	Why this KPI for this step	Measured value	Target
Q-KPI-01 — Customer satisfaction index	Customer satisfaction index measures the result of this macro process (Marketplace catalog); it is the KPI its owner reviews at each Monthly review.	80.4	>= 85%
Q-KPI-02 — On-time delivery rate	On-time delivery rate measures the result of this macro process (Marketplace catalog); it is the KPI its owner reviews at each Monthly review.	90.4	>= 95%

D **MP-101.9 Calculate marketplace revenue sharing** (Transformation Manager · Execution) What to type ▾

What was done	Records that prove it	Completion (%)
Calculate marketplace revenue sharing carried out on core delivery process; Marketplace catalog updated.	—	100

D **MP-101.10 Update marketplace items continuously** (Transformation Manager · Change) What to type ▾

Change made	Reason	Documents or records updated
Marketplace catalog updated: specification not met.	Customer complaint analysis	—

Gate — G12 — Improvement cycle closed

Exit criteria: Improvement pipeline prioritized by ROI; lessons learned capitalized in the knowledge base.

What to do ▸ Lifecycle › phase card › gate panel. Tick: “Improvement ideas prioritized by ROI” (mandatory, evidence); “Lessons learned indexed in knowledge base” (mandatory, evidence).

Decision: this phase is still active in the demonstration database; when its last step is complete, Top Management selects Go to close the cycle and open the next one.

PDCA link — E2E-01 of the next cycle (context, policy and objectives are reviewed again).

Process review: from data sources to reports

This chapter follows the process review of the run from end to end: define and configure the data sources, capture the data, generate the documents, hold the reviews, then export the reports in PDF, Word, Excel, PowerPoint or CSV. It is the PDCA of reporting: Plan the sources and templates, Do the capture and generation, Check in the reviews, Act on the decisions.

Plan — define and configure the data sources

P **R1 Connect the external systems** · Tenant Administrator — Hind Berrada (admin@horizon-universal.example)
Where: Administration › Integrations.
What to type ▸ Enabled: tick INT-02 SAP ERP / S/4HANA (orders, deliveries, suppliers), INT-04 Personio HR (people, competences), INT-08 ManWinWin CMMS (equipment, calibration), INT-09 EcoOnline EHS (incidents). Leave the others unticked.
Check ▸ select Test on each enabled line; Health must show OK with the date of the test.

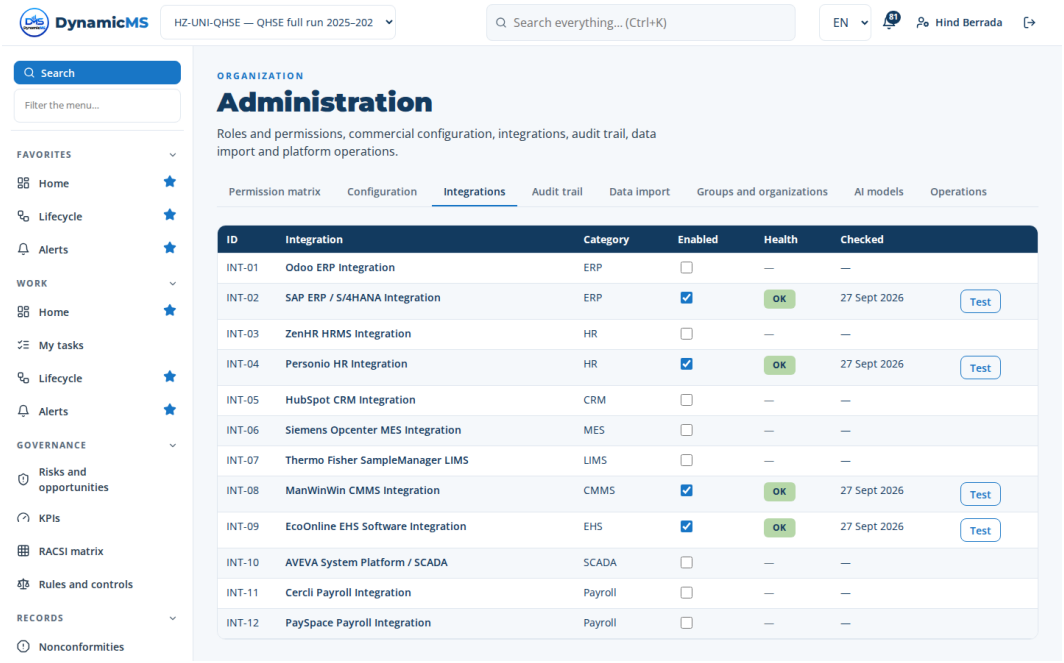

Figure — Integrations: enabled data sources and their health.

P **R2 Define the KPIs and their data** · Performance Manager — Tariq Saleh
Where: KPIs (and the KPI steps of E2E-07 and E2E-10, for example MP-009.3 Set process KPIs targets).
What to type ▸ for each KPI its target and frequency, as in the project: KPI-01 Policy review on time rate — target 100%; KPI-02 To-Be SIPOC coverage — target >= 95%; KPI-03 Macro process sheet completeness — target >= 98%; KPI-04 Competence gap closure rate — target >= 80%; KPI-05 Distribution acknowledgement rate — target >= 95%; KPI-06 Risks within appetite — target >= 90%.

P **R3 Configure the document templates and their data sources** · Document Controller — Sofia Bennani
Where: Documents › Templates › TPL-POL-Q Quality policy › Copy to edit (the copy replaces the library template for the organization).
What to type ▸ Structure tab: for each section keep Type = Project data and choose its data source: 1. Our vision and ambition → policy_vision:Q; 2. Our strategic axes → policy_axes:Q; 3. Our commitments → policy_commitments:Q; 4. Roles → policy_roles:Q; 5. Review → policy_review; 6. Approval → policy_signature. Introduction (optional): type “This policy applies to all sites of {org}.”
Formatting tab ▸ Body font Open Sans 10, headings Montserrat 14, margins 1.7 cm, table of contents on, page numbers on. Select Save template.

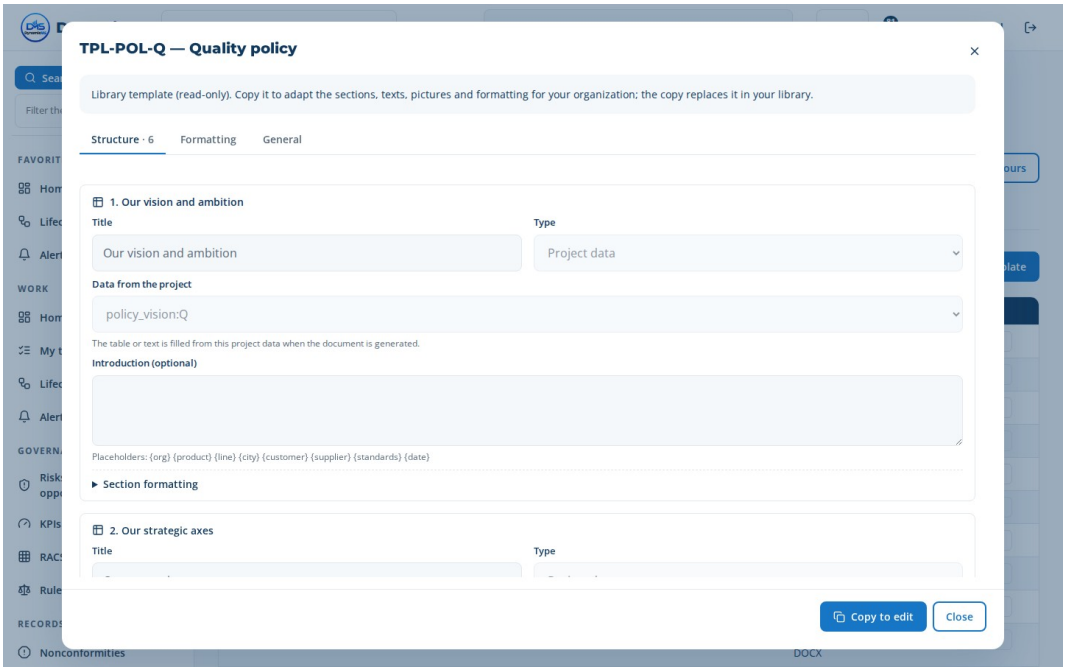

Figure — Template editor: each section takes its data from a project data source.

Data sources (Data from the project)	Content
context_*, pestle, swot, needs_parties, parties_full, scope_*	Context, interested parties, scope (E2E-01)
policy_vision, policy_axes, policy_commitments, policy_roles, policy_review, policy_signature	Policy sections; the argument chooses the system (:Q, :E, :OHS, :IMS)
objectives, objectives_full, objectives_summary	SMART objectives register
risks, risks_full, risks_top, heatmap, opportunities	Risks and opportunities, heat map
obligations, obligations_full, clause_matrix, mandatory_matrix	Compliance obligations, clause coverage
competence, competence_matrix, training, training_plan	Competences and training
documents, documents_full, records_retention, revisions	Documented information
kpis, kpi_definitions, kpi_values, kpi_results, kpi_analysis	KPI definitions, values, results and analysis
ncs, ncs_full, capa_d0 … capa_d8, rex	Nonconformities, 8D corrective actions, lessons learned
audits, audit_findings, audit_conclusion, audit_universe	Audit programme, findings and conclusions
mr_header, mr_inputs, mr_outputs, mr_agenda, mr_conclusion	Management review pack
mp_*, phase_*, process_list, pmap_diagram, racsi	Process sheets: SIPOC, BPMN, RACSI, KPIs, risks, gate
step_rows:<step>, step_matrix:<step>, step_review:<step>	The rows typed in one step (for example step_rows:MP-001.7)

P **R4 Set the document layout** · Document Controller — Sofia Bennani

Where: Documents › Layout.
What to type ▸ Table header color #123A5F; Accent color #1876C6; Title color #123A5F; Logo text “Horizon Universal Holdings”; Header text “Controlled copy — Horizon Universal Holdings”; Footer text empty (organization, code and version by default). Upload a logo (PNG or JPEG), then select Save layout.

Do — capture the data and generate the documents

D **R5 Record the KPI values** · Performance Manager — Tariq Saleh

Where: KPIs › select a KPI › Record a value (or the Measurement steps of the run).
What to type ▸ Period (month) and measured value, for example: KPI-01 = 99.5; KPI-02 = 90.9; KPI-03 = 94.1; KPI-04 = 74.5; KPI-05 = 92.7; KPI-06 = 84.2.

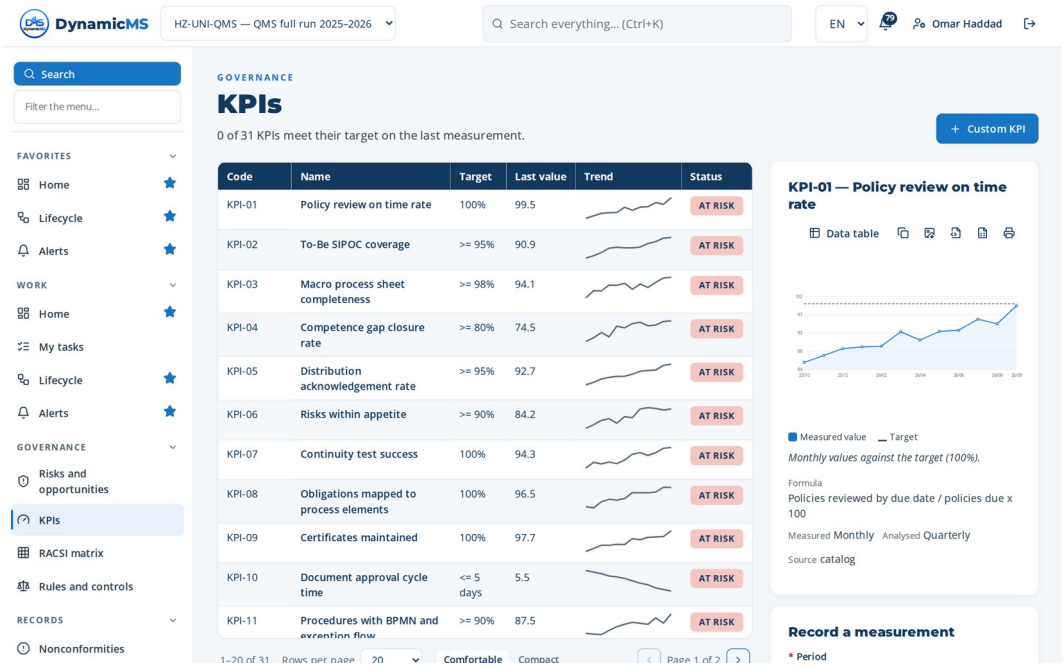

Figure — KPIs with their last value, target and status.

D **R6 Generate a document from a step** · Process owner of the step

Where: any Document step of the run (for example the policy step of UMS022), select Generate document.

What to type ▸ Template: TPL-POL-Q Quality policy; select Generate. The step fields Document reference, Version 0.1 and Template are filled; the document appears under Documents of this step.

D **R7 Review, approve and publish the version** · Document Controller, then Quality Manager

Where: Documents › open the document › Versions.

What to type ▸ Change note “First issue generated from the project data”; Submit for review; the approver selects Approve then Publish. The version becomes 1.0 Published and the next review date is set by the review frequency.

Check — hold the process and management reviews

R8 Run step MP-034.4 — Hold monthly process mini-reviews

C **MP-034.4 Hold monthly process mini-reviews** (IMS Manager · Review) **What to type ▾**

Review frequency	Review date	Next review	Chaired by	Participants
Quarterly	2026-07-07	2026-10-06	IMS Manager	IMS Manager, Quality Manager

Inputs reviewed — 3 rows to paste or type

Input	Finding
Governance calendar	Governance calendar still valid; minor updates made.
Required data	No major change since the last review.
Decision requirements	Gap found on Minutes.

Decisions and actions — 1 row to paste or type

Decision	Owner	Due date
Update Minutes	Omar Haddad	2026-08-06

On completion: *each row becomes an action of the Action plan.*

R9 Run step MP-034.5 — Hold full management reviews

C **MP-034.5 Hold full management reviews** (IMS Manager · Review) **What to type ▾**

Review frequency	Review date	Next review	Chaired by	Participants
Quarterly	2026-07-11	2026-10-10	IMS Manager	IMS Manager, Quality Manager

Inputs reviewed — 3 rows to paste or type

Input	Finding
Governance calendar	Governance calendar still valid; minor updates made.
Required data	No major change since the last review.
Decision requirements	Gap found on Minutes.

Decisions and actions — 1 row to paste or type

Decision	Owner	Due date
Update Minutes	Omar Haddad	2026-08-10

On completion: *each row becomes an action of the Action plan.*

Act — export the reports and follow the decisions

A **R10 Export the reports in the format you need** · IMS Manager — Omar Haddad

Where: Insight › Reports.

What to choose ▸ Format: PDF (to sign and archive), Excel (one sheet per table, filters), Word (to edit), PowerPoint (16:9 slides for the review meeting: title, KPI cards, one slide per section, tables split over slides) or CSV (data). Language: English, Français or العربية. Then select Download on the report.

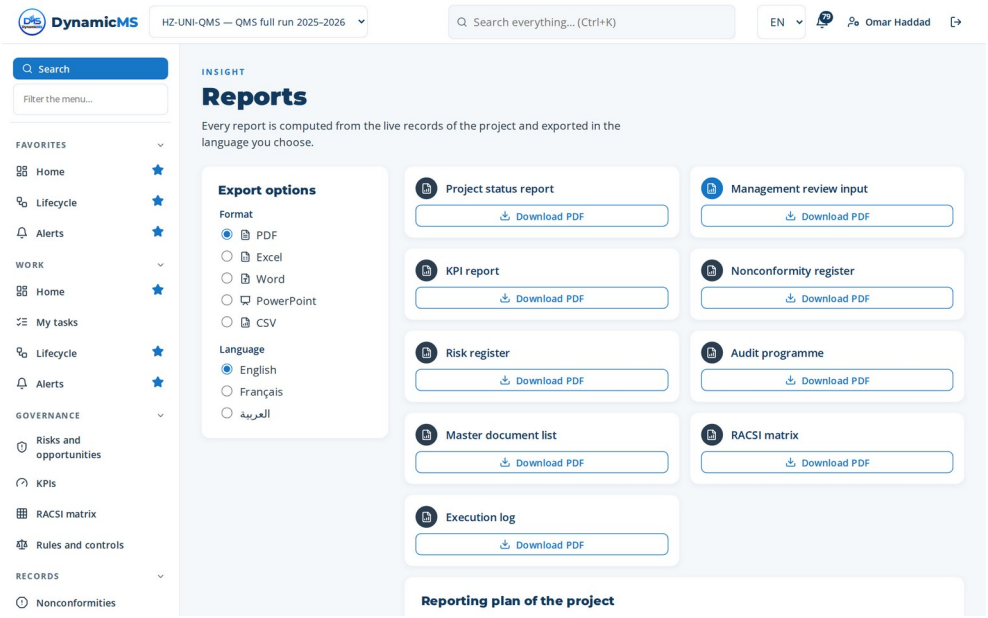

Figure — Reports: choose the format (PDF, Excel, Word, PowerPoint, CSV) and the language.

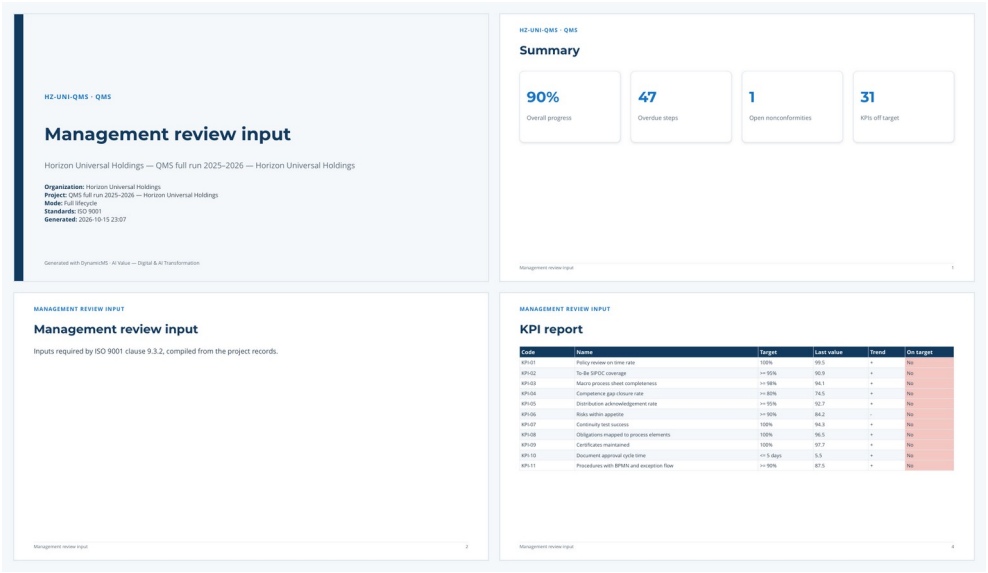

Figure — The Management review input report of the run exported to PowerPoint: title slide, KPI cards, quality objectives, KPI table.

Report	Use in the review	Best format
Project status report	Progress by phase and gate, overdue steps	PowerPoint, PDF
Management review input	Inputs required by ISO 9001 §9.3.2	PowerPoint, Word
KPI report	KPI results against targets	Excel, PowerPoint
Nonconformity register	Nonconformities and corrective actions	Excel, PDF
Risk register	Risks and opportunities by score	Excel, PDF
Audit programme	Audits planned and done	Word, PDF
Master document list	Documented information and review dates	Excel
RACSI matrix	Who is responsible and accountable	Excel, PDF
Execution log	Values typed in each step (evidence)	Excel, CSV

A R11 Download a document in every format · Any reader

Where: Documents › Download column, or the document page.

What to choose ▸ PDF, DOCX or XLSX as the template allows, and PPTX for every document (to present a procedure, a policy or a review pack). A draft carries the mention UNCONTROLLED DRAFT.

A **R12 Turn the decisions into actions and restart the cycle** · IMS Manager and action owners

Where: the Decisions and actions table of the review step creates the actions; follow them in Records › Action plan.
What to type ▸ for each action: progress (%), status, evidence; the evaluator (another person than the owner) records the effectiveness. Effective actions feed E2E-12; the review outputs and the improvement results open the next E2E-01.

AI assistance in the run, under human control

Every AI suggestion comes from an active AI use case linked to the step or screen where it is shown. A screen with no active use case offers no AI action. Each proposal is labelled "AI-generated — to be reviewed by a person"; each item is accepted, edited or rejected, and every outcome is written to the usage log, which can only grow.

#	Action	Where	What to do
A1	Use an AI proposal in a step	Step MP-056.5 (Transformation Manager, transformation@horizon-universal.example) › AI assistance › Suggest	Edit an item if needed, then Accept or Reject each item, or Accept all. Accepted items are inserted in the step.
A2	Propose rows of a table	Needs step (MP-001.5) › Propose with AI	One proposed need per interested party; Accept the relevant rows: they are added with Entered from = AI.
A3	Govern the AI use cases	Intelligence › AI use cases (AI Governance Officer or administrator)	Library figures and filters; Coverage of the process design › Suggest a use case for a task not covered; open a use case › Edit (reason required), Duplicate, Test run, Activate after review.
A4	Choose the model	Administration › AI models (Organization) or Settings › Personal AI connection	Order used: model of the use case, Organization model, personal connection (key kept in the browser only), built-in engine.

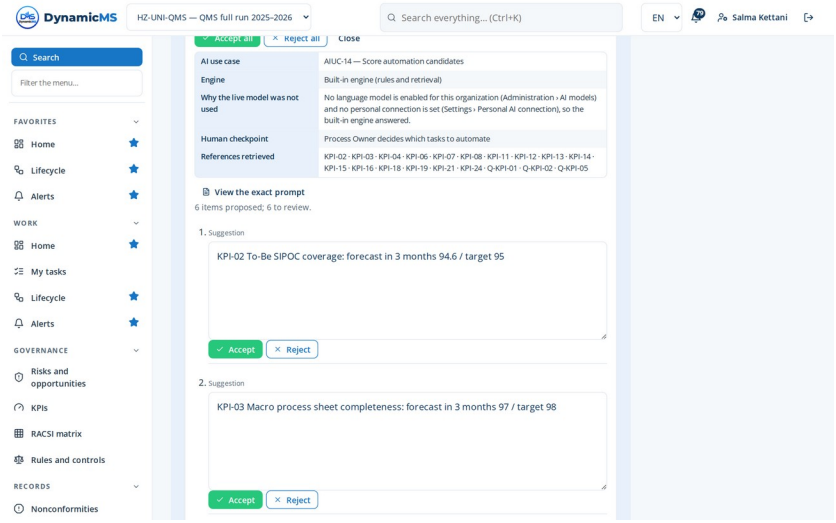

Figure — An AI proposal: use case, engine, reason, human checkpoint, references, then each item to accept or reject.

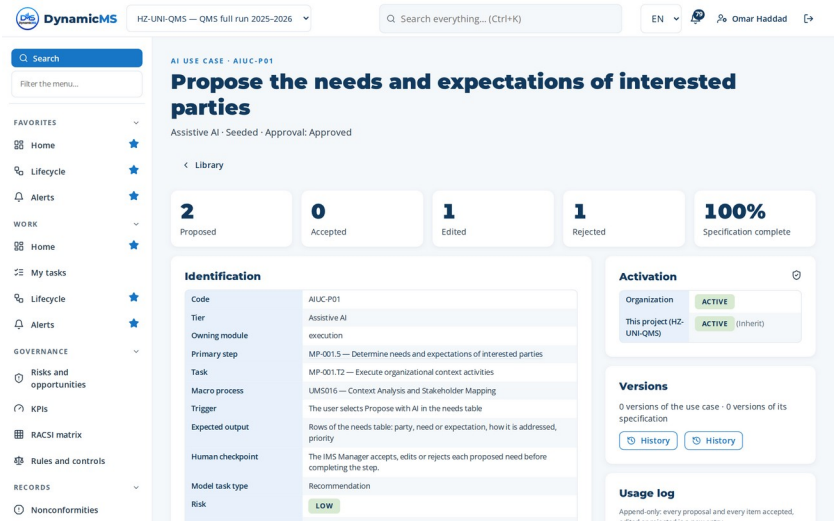

Figure — The page of an AI use case: outcomes logged, identification, activation, specification and versions.

Records created by the run

Besides the step values, the run creates records in the Records and Governance menus. The main ones are listed below with the values of the run.

Nonconformities

Code	Title	Source	Criticality	Stage	Root cause
NC-HZ-UNI-QMS-001	late delivery to customer	Customer	Minor	Closed	Preventive maintenance interval too long
NC-HZ-UNI-QMS-002	specification not met	Process	Critical	Closed	Supplier batch variation not detected at receiving
NC-HZ-UNI-QMS-003	incomplete service record	Customer	Minor	Closed	Supplier batch variation not detected at receiving

Risks and opportunities

Code	Kind	Title	L × I	Treatment
UNI-R05	Risk	Policy not covering all standards in scope	5 × 5 = 25	Reduce
RSK-19	Risk	Business interruption	5 × 4 = 20	Accept
Q-R02	Risk	specification not met	4 × 5 = 20	Reduce
UNI-R03	Risk	Incomplete or inconsistent To-Be SIPOC published	4 × 4 = 16	Reduce
Q-R03	Risk	incomplete service record	4 × 4 = 16	Reduce

Audits

Code	Title	Type	Standard	Planned	Status
AUD-HZ-UNI-QMS-01	Internal audit — Resources To Readiness	Internal	ISO 9001	2026-01-29	Completed
AUD-HZ-UNI-QMS-02	Internal audit — Requirements To Delivery	Internal	ISO 9001	2026-03-30	Completed
AUD-HZ-UNI-QMS-03	Supplier audit — Requirements To Delivery	Supplier	ISO 9001	2026-04-29	Completed
AUD-HZ-UNI-QMS-04	Mock certification audit — Compliance To Achievement	Mock	ISO 9001	2026-06-08	Completed
AUD-HZ-UNI-QMS-05	Internal audit — Nonconformity To Knowledge	Internal	ISO 9001	2026-07-28	Completed
AUD-HZ-UNI-QMS-06	Certification audit (stage 2) — Compliance To Achievement	Certification	ISO 9001	2026-08-17	Completed
AUD-HZ-UNI-QMS-07	Surveillance audit — Monitoring To Evaluation	Surveillance	ISO 9001	2026-11-27	Planned

Documents

53 documents are generated from the templates during the run. A selection:

Code	Title	Type	Template	Version	Status
HZ-UNI-QMS-AUDPRG	Internal audit programme	Plan	TPL-AUDPRG	1.0	Published
HZ-UNI-QMS-AUDREP-01	Internal audit report — AUD-HZ-UNI-QMS-01	Report	TPL-AUDREP	1.0	Published
HZ-UNI-QMS-AUDREP-02	Internal audit report — AUD-HZ-UNI-QMS-02	Report	TPL-AUDREP	1.0	Published

Code	Title	Type	Template	Version	Status
HZ-UNI-QMS-AUDREP-03	Internal audit report — AUD-HZ-UNI-QMS-03	Report	TPL-AUDREP	1.0	Published
HZ-UNI-QMS-AUDREP-04	Internal audit report — AUD-HZ-UNI-QMS-04	Report	TPL-AUDREP	1.0	Published
HZ-UNI-QMS-AUDREP-05	Internal audit report — AUD-HZ-UNI-QMS-05	Report	TPL-AUDREP	1.0	Published
HZ-UNI-QMS-CAL	Monitoring and measuring equipment register	Register	TPL-CAL	1.1	Published
HZ-UNI-QMS-CAPA-002	Corrective action report (8D) — NC-HZ-UNI-QMS-002	Report	TPL-CAPA	1.0	Published
HZ-UNI-QMS-CAPA-004	Corrective action report (8D) — NC-HZ-UNI-QMS-004	Report	TPL-CAPA	1.0	Published
HZ-UNI-QMS-CAPA-008	Corrective action report (8D) — NC-HZ-UNI-QMS-008	Report	TPL-CAPA	1.0	Published

Appendix — Frequent questions

Question	Answer
I cannot complete a step.	The step belongs to another role, a required field is empty, or the phase gate is passed. Sign in with the role shown on the step.
The Go button is disabled.	Steps of the phase are still open or a mandatory checklist item is not ticked.
My typing is kept when I save a draft?	Yes. Saving a draft, generating a document or switching tabs keeps what you are typing.
Which format for the review meeting?	PowerPoint: Reports › format PowerPoint, or PPTX on any document.
Where is the history of a change?	Every change is in Administration › Audit trail; versioned records keep their history.
Does the AI send data outside?	Only when the administrator enables an external model in Administration › AI models; otherwise the built-in engine answers.
