About this guide

This guide, written by POWERACT Consulting, walks through complete runs of a management system in DynamicMS: every end-to-end phase, macro process, task and step, with the values to type in each form. The values come from the demonstration data seeded with the application, so the screens match the guide.

- **Audience.** IMS, quality and HSE managers, process owners, auditors and top management.
- **Conventions.** Menu paths are written Menu › Screen. Values to type are shown after the field name; list values are chosen as written.
- **Scenarios.** Scenario 1: Universal QMS (ISO 9001); Scenario 2: Universal QHSE (ISO 9001, 14001, 45001).

Getting started

Sign in

1. Open <http://localhost:5173> in Chrome, Edge, Firefox or Safari.
2. Type your e-mail (for example quality@horizon-universal.example) and the password Demo@2026, then select Sign in.
3. Choose the language with the EN / FR / ϵ selector at the top right. Arabic switches the whole layout to right-to-left.
4. Check the project shown in the header switcher. Every screen works on the selected project; change it at any time.

The navigation shell

- **Menu groups.** Work, Governance, Records, Insight, Intelligence, Design and Organization. Select a group title to collapse or expand it.
- **Favorites.** Point at a menu item and select the star; favorites appear in the first group.
- **Dock and pin.** The buttons at the bottom of the menu dock it at the start, end, top or bottom, and pin or unpin it. Unpinned, the menu slides in from the edge handle.
- **Mobile.** Below tablet width the menu becomes a drawer opened with the menu button; Escape closes it.
- **Alerts bell.** Shows the number of unread alerts of the project; select it to open the notification center.

How a lifecycle runs

Each project runs the end-to-end (E2E) processes of its management system in order, from E2E-01 Context To Strategy to E2E-12 Correction To Innovation. An E2E phase groups macro processes (MP); each macro process is made of tasks, and each task of workflow steps. Every step has one input form. When all steps of a phase are complete, its gate is decided (Go, Hold or No-Go) after the gate checklist is ticked.

5. Open Lifecycle and select the phase card (E2E-01 first).
6. Select a macro process in the table to see its tasks and steps.

7. Select a step. Read What to record, fill in the fields as shown in this guide, then select Complete step. Use Save draft to keep partial input.
8. The application moves you to the next step. When a phase is complete, tick its gate checklist and record the gate decision (top management or the IMS Manager).
9. To correct a completed step, select Reopen and type a justification; the previous value is kept as a version. A step cannot be reopened once its phase gate is passed.

Input forms

Seventeen form kinds cover the 1,572 steps of the process design. The table lists the fields of each kind; required fields are marked with an asterisk on screen.

Form	Fields
Periodicity	Frequency (list), Next due date, Scope / notes
Register items	Items identified (one per line), Source / evidence
Assessment	Score 1–5 (buttons), Rationale and facts
Decision	Decision (Go, No-Go, Hold), Approver (role), Comment — required for No-Go
Document	Document reference, Version, Summary
Communication	Audience, Channel (list), Message
Training	Session, Participants, Effectiveness (%)
Monitoring	Metric, Value, Target, Comment
Plan	Planned activities (one per line), Start, End
Execution	Evidence of execution, Completion (%)
Assignment	Role (list), Person, Scope
Configuration	Setting, Value, Notes
Update	What changed, Reason
Closure	Closure evidence, Closure date
Escalation	Escalated to (role), Reason
AI-assisted	Context given to the AI, Outcome (Accepted, Edited, Rejected), Final validated text
Automatic service	Result (filled by the DynamicMS Engine; no input)

Scenario 1 — Universal QMS (ISO 9001)

Organization: Horizon Universal Holdings (HZ-UNI), Large company, vertical UNI, 9167 employees, member of Horizon Industrial Group.

Project: HZ-UNI-QMS — QMS full run 2025–2026 — Horizon Universal Holdings. Management system QMS, mode FULL. Standards: ISO 9001. Start 2025-10-01, end 2026-12-30.

Configuration: Solution Pack DMS-ENT, capability packs DMS-AI, DMS-CERT, DMS-ESG, add-ons ADD-01, ADD-04, ADD-06, ADD-07.

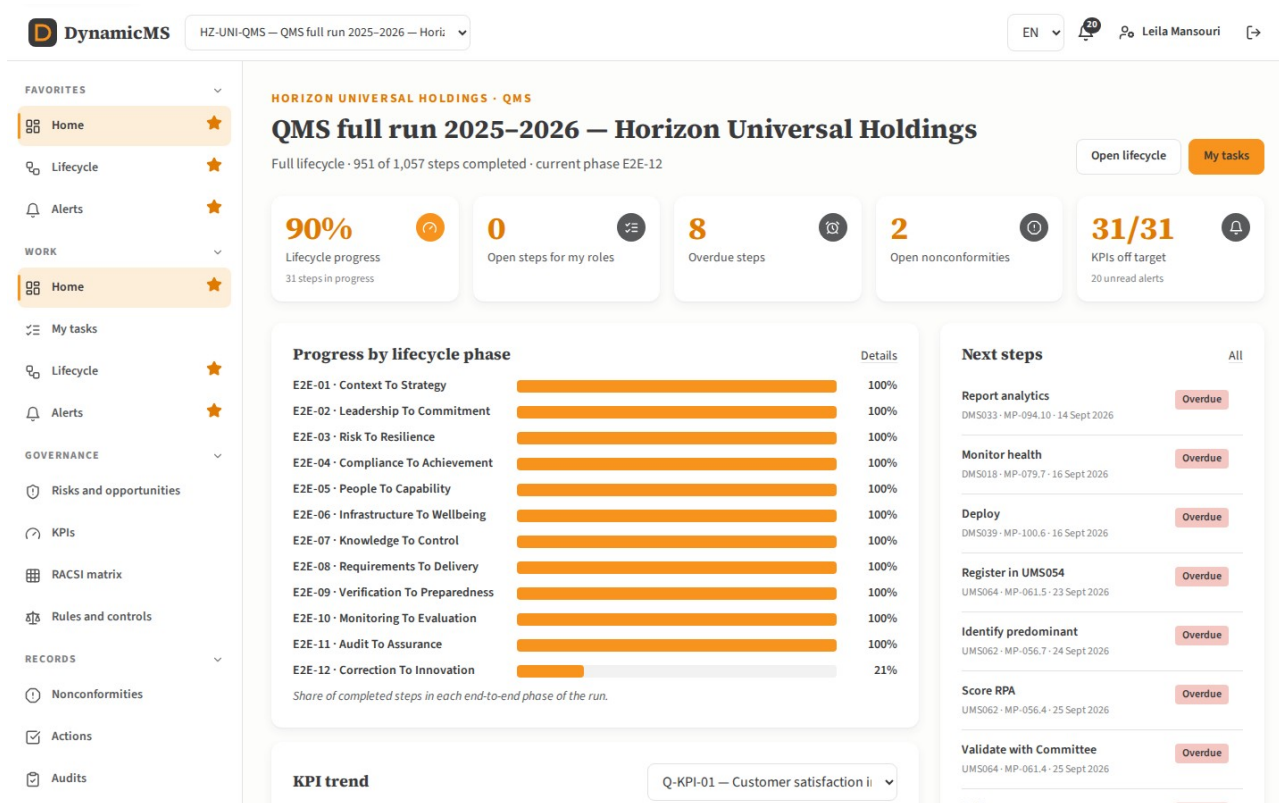

Figure — Home dashboard of HZ-UNI-QMS: progress by phase, KPI trend and next steps.

Before you start

Accounts of the organization

All accounts use the password Demo@2026. Sign in with the account whose role owns the step you want to complete; the IMS Manager and process owners can complete any step.

Role	Name	E-mail to type
Tenant Administrator	Hind Berrada	admin@horizon-universal.example
AI Governance Officer	Samira Benali	aigov@horizon-universal.example
Internal Audit Manager	Amina Ouazzani	audit@horizon-universal.example
Auditor (read-only)	Youssef El Idrissi	auditor@horizon-universal.example
Top Management	Nabil Zerouali	ceo@horizon-universal.example
Compliance Officer	Hugo Lefevre	compliance@horizon-universal.example

Create the project

10. Sign in as the IMS Manager (or the Quality Manager) and open Organization › New project.
11. Select From the catalog.
12. Name: type “QMS full run 2025–2026 — Horizon Universal Holdings”. Management system: QMS. Start date: 2025-10-01.
13. Template: choose TPL-UNI-FULL-QMS — Universal QMS — full lifecycle (ISO 9001).
14. Complexity score: set each criterion level as listed below, then select Create project.

Criterion	Weight	Level to choose
CX-01	20	3
CX-02	10	3
CX-03	20	4
CX-04	15	5
CX-05	15	4
CX-06	10	4
CX-07	10	3

Resulting complexity score: 69 / 100.

Note. The demonstration database already contains this project with its full run. To practise, create a copy with another name, or open the seeded project and follow the steps that are still open.

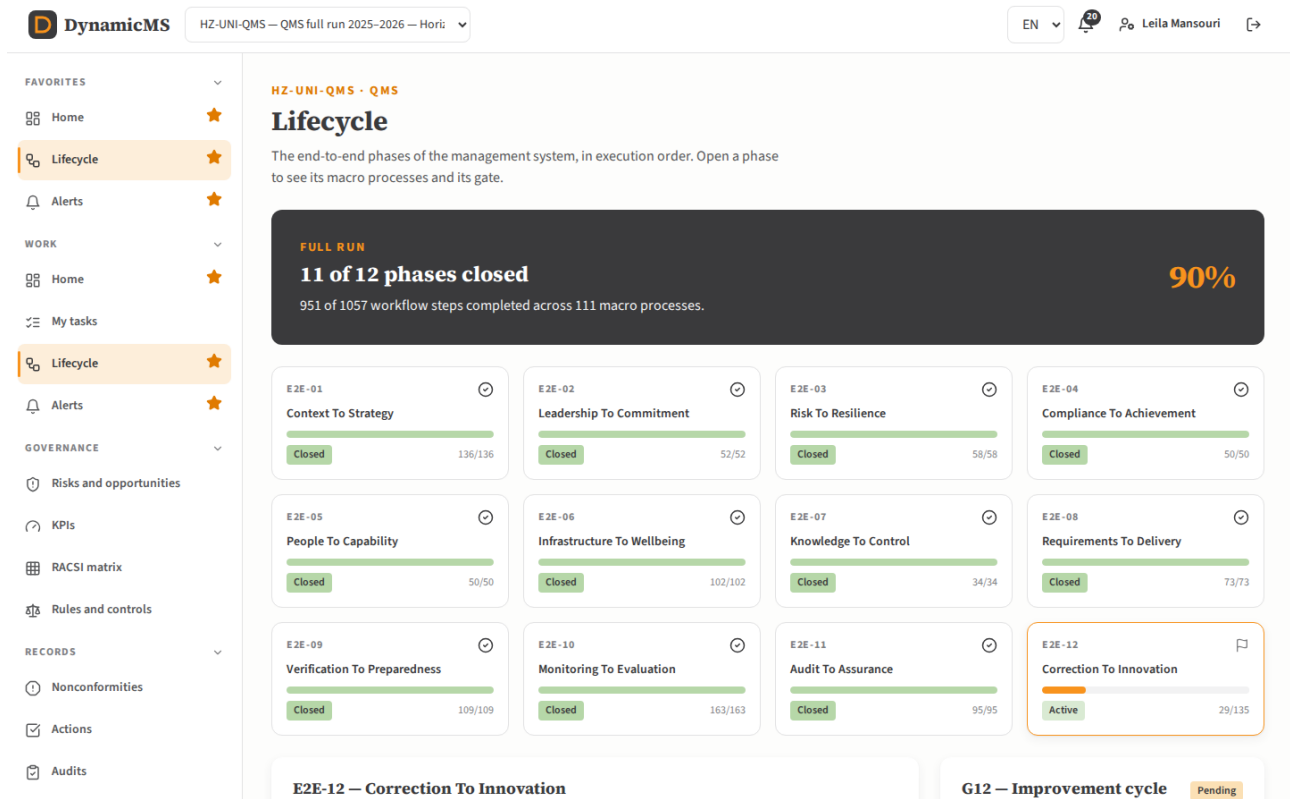

Figure — Lifecycle screen: phase cards with progress and gate status.

Run the lifecycle, phase by phase

The run has 12 phases, 111 macro processes and 1057 steps. For each step the tables give the step identifier, the responsible role, the form and what to type in each field. Values between quotes are typed as shown; choose list values as written.

E2E-01 — Context To Strategy

Goals: Define context, policy, strategy, objectives, compliance, governance

From trigger to terminal event: Strategic planning cycle, management review output, or significant context change → Approved policy, strategy, objectives, risk register, compliance framework in place

UMS016 (MP-001) — Context Analysis and Stakeholder Mapping

Understand internal/external issues; identify interested parties; define IMS scope. Owner: IMS Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-001.1	Fix periodicity of strategic diagnosis Task: Plan & Prepare	IMS Manager Periodicity	Frequency: Annual Next due date: 2026-10-03 Scope / notes: Scope: products and services at Casablanca
MP-001.2	Identify external issues Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents 3. Incomplete or inconsistent To-Be SIPOC published 4. Revision of ISO 9001 Source / evidence: Workshop records and Internal issues
MP-001.3	Identify internal issues	IMS Manager	Items identified (one per line): 1. late delivery to customer 2. specification not met

Step	Step and task	Role · form	What to type
	Task: Plan & Prepare	Register items	3. Workload on core delivery process Source / evidence: Workshop records and Internal issues
MP-001.4	Identify interested parties Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Customers (key accounts) 2. Employees and their representatives 3. Regulators and certification body 4. Suppliers of key accounts Source / evidence: Workshop records and Internal issues
MP-001.5	Determine needs/expectations Task: Execute	IMS Manager Assessment	Score (1–5): 4 Rationale and facts: 8 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-001.6	Validate and cascade Task: Execute	IMS Manager Decision	Decision: Go Approver (Accountable): IMS Manager Decision comment: Context analysis report confirmed against ISO 9001; no blocking issue.
MP-001.7	Identify interactions Task: Execute	IMS Manager Register items	Items identified (one per line): 1. Context analysis report 2. Stakeholder register 3. Requirements matrix Source / evidence: Workshop records and Internal issues
MP-001.8	Define/review scope Task: Verify, Record & Close	IMS Manager Register items	Items identified (one per line): 1. Context analysis report 2. Stakeholder register 3. Requirements matrix Source / evidence: Workshop records and Internal issues
MP-001.9	Document and communicate Task: Verify, Record & Close	IMS Manager Document	Document reference: HZ-UNI-UMS016-09 Version: 1.1 Content summary: Context analysis report for products and services, aligned with ISO 9001.
MP-001.10	Review periodically Task: Verify, Record & Close	IMS Manager Measurement	Indicator: Distribution acknowledgement rate Measured value: 92.7 Target: >= 95% Analysis: Trend improving versus last period; target met.

UMS022 (MP-002) — Quality Policy and Strategic Direction Definition

Establish quality policy; define strategic direction; secure top mgmt commitment. Owner: IMS Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-002.1	Fix review periodicity Task: Plan & Prepare	IMS Manager Periodicity	Frequency: Annual Next due date: 2026-10-04 Scope / notes: Scope: products and services at Casablanca
MP-002.2	Draft policy Task: Plan & Prepare	IMS Manager Document	Document reference: HZ-UNI-UMS022-02 Version: 2.0 Content summary: Policy document for products and services, aligned with ISO 9001.
MP-002.3	Consult top mgmt Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Policy document 2. Communication records 3. Review records Source / evidence: Workshop records and Purpose
MP-002.4	Integrate commitments Task: Execute	IMS Manager Configuration	Setting: Integrate commitments Value: Enabled for Casablanca site with Policy document Notes: Validated in test before go-live
MP-002.5	Align with requirements Task: Execute	IMS Manager Execution	Evidence of execution: Policy document completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-002.6	Obtain approval Task: Execute	IMS Manager Decision	Decision: Go Approver (Accountable): IMS Manager Decision comment: Policy document confirmed against ISO 9001; no blocking issue.
MP-002.7	Communicate Task: Verify, Record & Close	IMS Manager Communication	Audience: All employees; Process owners Channel: Notice board Key message: Policy document is published. Please read and acknowledge before 2025-10-22.
MP-002.8	Plan review Task: Verify, Record & Close	IMS Manager Plan	Planned activities (one per line): 1. Update 2. Select policy standards and scope type 3. Draft policy from template Start: 2025-10-07 End: 2025-11-02
MP-002.9	Update Task: Verify, Record & Close	IMS Manager Change	Change made: Policy document updated to reflect specification not met. Reason: Result of the periodic review
MP-002.10	Select policy standards and scope type Task: Manage Management System Policy Lifecycle	IMS Manager Register items	Items identified (one per line): 1. ISO 9001 Source / evidence: Workshop records and Purpose
MP-002.11	Draft policy from template Task: Manage Management System Policy Lifecycle	IMS Manager AI-assisted draft	Context given to the assistant: Inputs: Purpose; Context analysis; Strategic plan. Standards in scope: ISO 9001. Suggestion outcome: Accepted Final validated text: Draft reviewed by IMS Manager: Policy document covering ISO 9001.
MP-002.12	Review and approve policy version Task: Manage Management System Policy Lifecycle	IMS Manager Measurement	Indicator: Access recertification completion Measured value: 94.5 Target: 100% Analysis: Trend improving versus last period; target met.
MP-002.13	Publish policy and generate downloadable files Task: Manage Management System Policy Lifecycle	DynamicMS Engine Automated service task	System result confirmed: Policy document generated automatically by the DynamicMS Engine

UMS031 (MP-003) — Quality Objectives and Targets Deployment

Cascade strategic objectives; deploy SMART objectives; assign responsibilities; monitor. Owner: IMS Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-003.1	Cascade Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Objectives 2. KPI definitions 3. Action plans Source / evidence: Workshop records and Strategic objectives
MP-003.2	Define SMART Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Objectives 2. KPI definitions 3. Action plans Source / evidence: Workshop records and Strategic objectives
MP-003.3	Align Task: Plan & Prepare	IMS Manager Execution	Evidence of execution: Objectives completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-003.4	Designate responsible Task: Plan & Prepare	IMS Manager Plan	Planned activities (one per line): 1. Deploy 2. Monitor 3. Ensure visibility Start: 2025-10-10 End: 2025-12-05
MP-003.5	Deploy Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Objectives generated automatically by the DynamicMS Engine
MP-003.6	Monitor Task: Execute	IMS Manager Measurement	Indicator: Obligations mapped to process elements Measured value: 96.5 Target: 100% Analysis: Trend improving versus last period; target met.
MP-003.7	Ensure visibility Task: Execute	IMS Manager Execution	Evidence of execution: Objectives completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-003.8	Adjust Task: Verify, Record & Close	IMS Manager Change	Change made: Objectives updated to reflect specification not met. Reason: Result of the periodic review
MP-003.9	Celebrate Task: Verify, Record & Close	IMS Manager Execution	Evidence of execution: Objectives completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-003.10	Translate policy Task: Verify, Record & Close	IMS Manager Change	Change made: Objectives updated to reflect specification not met. Reason: Result of the periodic review

UMS002 (MP-004) — Process Architecture Mapping

Define architecture; identify core/support; map in BPMN; assign RACI. Owner: Process Excellence Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-004.1	Define scope Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Architecture map 2. BPMN diagrams 3. RACI matrix Source / evidence: Workshop records and Scope
MP-004.2	Identify core/support Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Architecture map 2. BPMN diagrams 3. RACI matrix Source / evidence: Workshop records and Scope
MP-004.3	Map in BPMN Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Architecture map 2. BPMN diagrams 3. RACI matrix Source / evidence: Workshop records and Scope

Step	Step and task	Role · form	What to type
MP-004.4	Assign RACI Task: Execute	Process Excellence Manager Assignment	Role: Process Excellence Manager Person / team: Adam Rahmani Scope of responsibility: Process Architecture Mapping for Casablanca site
MP-004.5	Validate Task: Execute	Process Excellence Manager Decision	Decision: Go Approver (Accountable): Process Excellence Manager Decision comment: Architecture map confirmed against ISO 9001; no blocking issue.
MP-004.6	Verify alignment Task: Execute	Process Excellence Manager Assessment	Score (1–5): 3 Rationale and facts: 18 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-004.7	Publish Task: Verify, Record & Close	Process Excellence Manager Document	Document reference: HZ-UNI-UMS002-07 Version: 2.0 Content summary: Architecture map for products and services, aligned with ISO 9001.
MP-004.8	Review Task: Verify, Record & Close	Process Excellence Manager Measurement	Indicator: Risks within appetite Measured value: 84.2 Target: >= 90% Analysis: Trend improving versus last period; target met.
MP-004.9	Create functions and decompose into process elements Task: Model Process Element Hierarchy	Process Excellence Manager Execution	Evidence of execution: Architecture map completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-004.10	Flag lowest-level elements as tasks Task: Model Process Element Hierarchy	DynamicMS Engine Automated service task	System result confirmed: Architecture map generated automatically by the DynamicMS Engine
MP-004.11	Generate process map for a function Task: Model Process Element Hierarchy	DynamicMS Engine Automated service task	System result confirmed: Architecture map generated automatically by the DynamicMS Engine
MP-004.12	Compile Macro Process Sheet Task: Compile Macro Process Sheets	Process Excellence Manager Document	Document reference: HZ-UNI-UMS002-12 Version: 1.0 Content summary: Architecture map for products and services, aligned with ISO 9001.
MP-004.13	Group atomic sheets into composite sheet Task: Compile Macro Process Sheets	Process Excellence Manager Execution	Evidence of execution: Architecture map completed on core delivery process; records filed in DynamicMS. Completion (%): 100

UMS023 (MP-005) — SIPOC and Value Stream Mapping

Define SIPOC; map value stream; identify value-added steps; optimize flow. Owner: Process Excellence Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-005.1	Define scope Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.2	Define SIPOC method Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.3	Define suppliers Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. critical supplies supplier A (critical) 2. critical supplies supplier B 3. Logistics provider

Step	Step and task	Role · form	What to type
			Source / evidence: Workshop records and Process scope
MP-005.4	Define inputs Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.5	Define steps Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.6	Define outputs Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.7	Define customers Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.8	Map value stream Task: Verify, Record & Close	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.9	Validate Task: Verify, Record & Close	Process Excellence Manager Decision	Decision: Go Approver (Accountable): Process Excellence Manager Decision comment: SIPOC diagrams confirmed against ISO 9001; no blocking issue.
MP-005.10	Publish Task: Verify, Record & Close	Process Excellence Manager Document	Document reference: HZ-UNI-UMS023-10 Version: 2.0 Content summary: SIPOC diagrams for products and services, aligned with ISO 9001.
MP-005.11	Capture As-Is SIPOC where required Task: Manage As-Is and To-Be SIPOC	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.12	Design To-Be SIPOC Task: Manage As-Is and To-Be SIPOC	Process Excellence Manager AI-assisted draft	Context given to the assistant: Inputs: Process scope; Requirements; Customer needs. Standards in scope: ISO 9001. Suggestion outcome: Edited Final validated text: Draft reviewed by Process Excellence Manager: SIPOC diagrams covering ISO 9001.
MP-005.13	Compare As-Is and To-Be SIPOC Task: Manage As-Is and To-Be SIPOC	DynamicMS Engine Automated service task	System result confirmed: SIPOC diagrams generated automatically by the DynamicMS Engine
MP-005.14	Approve and deploy To-Be version Task: Manage As-Is and To-Be SIPOC	Process Excellence Manager Decision	Decision: Go Approver (Accountable): Process Excellence Manager Decision comment: SIPOC diagrams confirmed against ISO 9001; no blocking issue.

UMS030 (MP-012) — Operational Risk and Opportunity Management

Identify risks/opportunities; assess and prioritize; define actions; monitor. Owner: Risk Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-012.1	Identify risks Task: Plan & Prepare	Risk Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents 3. Incomplete or inconsistent To-Be SIPOC published 4. late delivery to customer Source / evidence: Workshop records and Context data
MP-012.2	Identify opportunities	Risk Manager	Items identified (one per line): 1. Digitize products and

Step	Step and task	Role · form	What to type
	Task: Plan & Prepare	Register items	services records to cut cycle time 2. Extend certification to win products and services tenders 3. Supplier development programme for products and services Source / evidence: Workshop records and Context data
MP-012.3	Assess Task: Plan & Prepare	Risk Manager Assessment	Score (1–5): 5 Rationale and facts: 18 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-012.4	Define control actions Task: Execute	Risk Manager Register items	Items identified (one per line): 1. Risk register 2. Opportunity register 3. Action plans Source / evidence: Workshop records and Context data
MP-012.5	Define exploitation actions Task: Execute	Risk Manager Register items	Items identified (one per line): 1. Risk register 2. Opportunity register 3. Action plans Source / evidence: Workshop records and Context data
MP-012.6	Designate responsible Task: Execute	Risk Manager Plan	Planned activities (one per line): 1. Monitor 2. Report 3. Update based on REX Start: 2025-10-29 End: 2025-12-30
MP-012.7	Monitor Task: Verify, Record & Close	Risk Manager Measurement	Indicator: To-Be SIPOC coverage Measured value: 90.9 Target: >= 95% Analysis: Trend declining versus last period; action plan opened.
MP-012.8	Report Task: Verify, Record & Close	Risk Manager Communication	Audience: Process owners; Top mgmt Channel: E-mail Key message: Risk register is published. Please read and acknowledge before 2025-11-09.
MP-012.9	Update based on REX Task: Verify, Record & Close	Risk Manager Change	Change made: Risk register updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

UMS044 (MP-027) — Unified Requirements Harmonization

Collect requirements; detect gaps; harmonize; publish and update. Owner: Compliance Officer. Tier 1.

Step	Step and task	Role · form	What to type
MP-027.1	Collect Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Harmonized reference 2. Gap analysis 3. Approval records Source / evidence: Workshop records and Contracts
MP-027.2	Categorize/label Task: Plan & Prepare	Compliance Officer Execution	Evidence of execution: Harmonized reference completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-027.3	Detect gaps Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Harmonized reference 2. Gap analysis 3. Approval records Source / evidence: Workshop records and Contracts
MP-027.4	Conduct workshops Task: Execute	Compliance Officer Execution	Evidence of execution: Harmonized reference completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-027.5	Establish reference Task: Execute	Compliance Officer Execution	Evidence of execution: Harmonized reference completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-027.6	Obtain approval Task: Execute	Compliance Officer Decision	Decision: Go Approver (Accountable): Compliance Officer Decision comment: Harmonized reference confirmed against

Step	Step and task	Role · form	What to type
			ISO 9001; no blocking issue.
MP-027.7	Publish Task: Verify, Record & Close	Compliance Officer Document	Document reference: HZ-UNI-UMS044-07 Version: 1.0 Content summary: Harmonized reference for products and services, aligned with ISO 9001.
MP-027.8	Maintain log Task: Verify, Record & Close	Compliance Officer Document	Document reference: HZ-UNI-UMS044-08 Version: 1.0 Content summary: Harmonized reference for products and services, aligned with ISO 9001.
MP-027.9	Update Task: Verify, Record & Close	Compliance Officer Change	Change made: Harmonized reference updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

GRC005 (MP-028) — Regulatory and Compliance Obligations Mapping

Maintain legal register; identify obligations; link to controls; monitor changes. Owner: Compliance Officer. Tier 1.

Step	Step and task	Role · form	What to type
MP-028.1	Maintain legal register Task: Plan & Prepare	Compliance Officer Document	Document reference: HZ-UNI-GRC005-01 Version: 2.0 Content summary: Legal register for products and services, aligned with ISO 9001.
MP-028.2	Identify obligations Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. ISO 9001 Source / evidence: Workshop records and Laws
MP-028.3	Link to policies/controls Task: Plan & Prepare	Compliance Officer Execution	Evidence of execution: Legal register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-028.4	Monitor changes Task: Plan & Prepare	Compliance Officer Measurement	Indicator: Competence gap closure rate Measured value: 74.5 Target: >= 80% Analysis: Trend declining versus last period; action plan opened.
MP-028.5	Assess impact Task: Execute	Compliance Officer Assessment	Score (1–5): 3 Rationale and facts: 10 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-028.6	Validate Task: Execute	Compliance Officer Decision	Decision: Go Approver (Accountable): Compliance Officer Decision comment: Legal register confirmed against ISO 9001; no blocking issue.
MP-028.7	Adjust policies Task: Execute	Compliance Officer Change	Change made: Legal register updated to reflect specification not met. Reason: Result of the periodic review
MP-028.8	Submit declarations Task: Verify, Record & Close	Compliance Officer Execution	Evidence of execution: Legal register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-028.9	Manage inspections Task: Verify, Record & Close	Compliance Officer Execution	Evidence of execution: Legal register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-028.10	Report compliance Task: Verify, Record & Close	Compliance Officer Communication	Audience: Top mgmt; Regulators Channel: Notice board Key message: Legal register is published. Please read and acknowledge before 2025-11-21.

GRC001 (MP-036) — Policy and Procedure Governance

Define policy lifecycle; identify gaps; validate and approve; publish and renew. Owner: IMS Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-036.1	Define lifecycle Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Policies 2. Procedures 3. Approval records Source / evidence: Workshop records and Policy requirements
MP-036.2	Identify gaps Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Policies 2. Procedures 3. Approval records Source / evidence: Workshop records and Policy requirements
MP-036.3	Draft Task: Plan & Prepare	IMS Manager Document	Document reference: HZ-UNI-GRC001-03 Version: 1.1 Content summary: Policies for products and services, aligned with ISO 9001.
MP-036.4	Align Task: Plan & Prepare	IMS Manager Execution	Evidence of execution: Policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-036.5	Submit Task: Execute	IMS Manager Execution	Evidence of execution: Policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-036.6	Validate Task: Execute	IMS Manager Decision	Decision: Go Approver (Accountable): IMS Manager Decision comment: Policies confirmed against ISO 9001; no blocking issue.
MP-036.7	Approve Task: Execute	IMS Manager Decision	Decision: Go Approver (Accountable): IMS Manager Decision comment: Policies confirmed against ISO 9001; no blocking issue.
MP-036.8	Publish Task: Execute	IMS Manager Document	Document reference: HZ-UNI-GRC001-08 Version: 2.0 Content summary: Policies for products and services, aligned with ISO 9001.
MP-036.9	Notify Task: Verify, Record & Close	IMS Manager Communication	Audience: Board; All employees Channel: Intranet Key message: Policies is published. Please read and acknowledge before 2025-11-22.
MP-036.10	Schedule renewal Task: Verify, Record & Close	IMS Manager Plan	Planned activities (one per line): 1. Retire Start: 2025-11-09 End: 2025-12-28
MP-036.11	Retire Task: Verify, Record & Close	IMS Manager Closure	Closure evidence: Policies closed; effectiveness verified and evidence archived. Closure date: 2025-11-11

GRC002 (MP-037) — Enterprise Risk Universe and Assessment

Define risk taxonomy; identify scenarios; assess probability/impact; publish heatmap. Owner: Risk Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-037.1	Define taxonomy Task: Plan & Prepare	Risk Manager Register items	Items identified (one per line): 1. Risk taxonomy 2. Risk register 3. Risk scores Source / evidence: Workshop records and Risk taxonomy
MP-037.2	Identify scenarios Task: Plan & Prepare	Risk Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents

Step	Step and task	Role · form	What to type
			3. Incomplete or inconsistent To-Be SIPOC published 4. Revision of ISO 9001 Source / evidence: Workshop records and Risk taxonomy
MP-037.3	Assess probability/impact Task: Plan & Prepare	Risk Manager Assessment	Score (1–5): 3 Rationale and facts: 16 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-037.4	Calculate scores Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Risk taxonomy generated automatically by the DynamicMS Engine
MP-037.5	Designate responsible Task: Execute	Risk Manager Plan	Planned activities (one per line): 1. Link to controls 2. Calculate residual 3. Validate Start: 2025-11-13 End: 2025-12-26
MP-037.6	Link to controls Task: Execute	Risk Manager Execution	Evidence of execution: Risk taxonomy completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-037.7	Calculate residual Task: Verify, Record & Close	DynamicMS Engine Automated service task	System result confirmed: Risk taxonomy generated automatically by the DynamicMS Engine
MP-037.8	Validate Task: Verify, Record & Close	Risk Manager Decision	Decision: Go Approver (Accountable): Risk Manager Decision comment: Risk taxonomy confirmed against ISO 9001; no blocking issue.
MP-037.9	Publish heatmap Task: Verify, Record & Close	Risk Manager Document	Document reference: HZ-UNI-GRC002-09 Version: 2.0 Content summary: Risk taxonomy for products and services, aligned with ISO 9001.

GRC003 (MP-038) — Risk Treatment and Mitigation Planning

Evaluate treatment options; design plans; implement and monitor; document acceptance. Owner: Risk Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-038.1	Evaluate options Task: Plan & Prepare	Risk Manager Assessment	Score (1–5): 3 Rationale and facts: 23 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-038.2	Design plans Task: Plan & Prepare	Risk Manager Plan	Planned activities (one per line): 1. Allocate budget 2. Implement 3. Monitor Start: 2025-11-16 End: 2025-12-25
MP-038.3	Allocate budget Task: Plan & Prepare	Risk Manager Assignment	Role: Risk Manager Person / team: Nadia Chraibi Scope of responsibility: Risk Treatment and Mitigation Planning for Casablanca site
MP-038.4	Implement Task: Execute	Risk Manager Configuration	Setting: Implement Value: Enabled for Casablanca site with Treatment plans Notes: Validated in test before go-live
MP-038.5	Monitor Task: Execute	Risk Manager Measurement	Indicator: Competence gap closure rate Measured value: 74.5 Target: >= 80% Analysis: Trend declining versus last period; action plan opened.
MP-038.6	Reassess Task: Execute	Risk Manager Execution	Evidence of execution: Treatment plans completed on core delivery process; records filed in DynamicMS.

Step	Step and task	Role · form	What to type
			Scope of responsibility: Access, Security, and Role Governance for Casablanca site
MP-045.3	Define SoD Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. RBAC policies 2. Role assignments 3. Access records Source / evidence: Workshop records and RBAC policies
MP-045.4	Process requests Task: Execute	Tenant Administrator Execution	Evidence of execution: RBAC policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-045.5	Conduct recertification Task: Execute	Tenant Administrator Execution	Evidence of execution: RBAC policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-045.6	Monitor privileged Task: Execute	Tenant Administrator Measurement	Indicator: Risks within appetite Measured value: 84.2 Target: >= 90% Analysis: Trend improving versus last period; target met.
MP-045.7	Remediate SoD Task: Verify, Record & Close	Tenant Administrator Change	Change made: RBAC policies updated to reflect specification not met. Reason: Result of the periodic review
MP-045.8	Maintain trails Task: Verify, Record & Close	Tenant Administrator Document	Document reference: HZ-UNI-UMS049-08 Version: 1.0 Content summary: RBAC policies for products and services, aligned with ISO 9001.

UMS051 (MP-046) — Application and Interface Repository

Identify applications/owners; document lifecycle; map interfaces; maintain schemas. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-046.1	Identify apps/owners Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. App inventory 2. Interface maps 3. API specs Source / evidence: Workshop records and Application inventory
MP-046.2	Document purpose Task: Plan & Prepare	IT Manager Document	Document reference: HZ-UNI-UMS051-02 Version: 2.0 Content summary: App inventory for products and services, aligned with ISO 9001.
MP-046.3	Map interfaces Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. App inventory 2. Interface maps 3. API specs Source / evidence: Workshop records and Application inventory
MP-046.4	Define APIs Task: Execute	IT Manager Register items	Items identified (one per line): 1. App inventory 2. Interface maps 3. API specs Source / evidence: Workshop records and Application inventory
MP-046.5	Maintain schemas Task: Execute	IT Manager Execution	Evidence of execution: App inventory completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-046.6	Assess obsolescence Task: Execute	IT Manager Assessment	Score (1–5): 3 Rationale and facts: 8 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-046.7	Publish Task: Verify, Record & Close	IT Manager Document	Document reference: HZ-UNI-UMS051-07 Version: 2.0

Step	Step and task	Role · form	What to type
			Content summary: App inventory for products and services, aligned with ISO 9001.
MP-046.8	Update Task: Verify, Record & Close	IT Manager Change	Change made: App inventory updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

UMS052 (MP-047) — Technology and Architecture Lifecycle

Define standards; evaluate new technologies; manage upgrades; monitor obsolescence. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-047.1	Define standards Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. ISO 9001 Source / evidence: Workshop records and Technology standards
MP-047.2	Evaluate technologies Task: Plan & Prepare	IT Manager Assessment	Score (1–5): 3 Rationale and facts: 14 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-047.3	Establish roadmaps Task: Plan & Prepare	IT Manager Plan	Planned activities (one per line): 1. Manage upgrades 2. Conduct reviews 3. Monitor obsolescence Start: 2026-02-23 End: 2026-03-21
MP-047.4	Manage upgrades Task: Execute	IT Manager Execution	Evidence of execution: Standards completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-047.5	Conduct reviews Task: Execute	IT Manager Execution	Evidence of execution: Standards completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-047.6	Monitor obsolescence Task: Execute	IT Manager Measurement	Indicator: Access recertification completion Measured value: 94.5 Target: 100% Analysis: Trend improving versus last period; target met.
MP-047.7	Plan decommissioning Task: Verify, Record & Close	IT Manager Plan	Planned activities (one per line): 1. Communicate Start: 2026-02-26 End: 2026-04-06
MP-047.8	Communicate Task: Verify, Record & Close	IT Manager Communication	Audience: DSI; IT teams Channel: Intranet Key message: Standards is published. Please read and acknowledge before 2026-03-15.

UMS059 (MP-048) — Tenant Sovereignty and Security Governance

Define isolation policies; map residency; implement jurisdictional controls; audit. Owner: Tenant Administrator. Tier 2.

Step	Step and task	Role · form	What to type
MP-048.1	Define policies Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Isolation policies 2. Residency maps 3. Compliance certificates Source / evidence: Workshop records and Isolation policies
MP-048.2	Map residency Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Isolation policies 2. Residency maps 3. Compliance certificates

Step	Step and task	Role · form	What to type
			Source / evidence: Workshop records and Isolation policies
MP-048.3	Implement controls Task: Plan & Prepare	Tenant Administrator Configuration	Setting: Implement controls Value: Enabled for Casablanca site with Isolation policies Notes: Validated in test before go-live
MP-048.4	Monitor segregation Task: Execute	Tenant Administrator Measurement	Indicator: Risks within appetite Measured value: 84.2 Target: >= 90% Analysis: Trend improving versus last period; target met.
MP-048.5	Manage gov access Task: Execute	Tenant Administrator Execution	Evidence of execution: Isolation policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-048.6	Conduct audits Task: Execute	Tenant Administrator Execution	Evidence of execution: Isolation policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-048.7	Maintain certificates Task: Verify, Record & Close	Tenant Administrator Execution	Evidence of execution: Isolation policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-048.8	Update Task: Verify, Record & Close	Tenant Administrator Change	Change made: Isolation policies updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

UMS056 (MP-059) — Configuration and Parameter Governance

Catalog parameters; define environment values; implement change control; monitor drift. Owner: Tenant Administrator. Tier 2.

Step	Step and task	Role · form	What to type
MP-059.1	Catalog parameters Task: Plan & Prepare	Tenant Administrator Execution	Evidence of execution: Parameter catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-059.2	Define values Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Parameter catalog 2. Config records 3. Change records Source / evidence: Workshop records and Configurable parameters
MP-059.3	Change control Task: Plan & Prepare	Tenant Administrator Execution	Evidence of execution: Parameter catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-059.4	Test Task: Execute	Tenant Administrator Assessment	Score (1–5): 3 Rationale and facts: 23 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-059.5	Deploy with rollback Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Parameter catalog generated automatically by the DynamicMS Engine
MP-059.6	Maintain logs Task: Execute	Tenant Administrator Document	Document reference: HZ-UNI-UMS056-06 Version: 1.1 Content summary: Parameter catalog for products and services, aligned with ISO 9001.
MP-059.7	Monitor drift Task: Verify, Record & Close	Tenant Administrator Measurement	Indicator: Certificates maintained Measured value: 97.7 Target: 100% Analysis: Trend improving versus last period; target met.
MP-059.8	Document dependencies Task: Verify, Record & Close	Tenant Administrator Document	Document reference: HZ-UNI-UMS056-08 Version: 1.1 Content summary: Parameter catalog for products and services, aligned with ISO 9001.

Step	Step and task	Role · form	What to type
MP-059.9	Name hierarchy levels Task: Configure Process Framework	Tenant Administrator Execution	Evidence of execution: Parameter catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-059.10	Configure drop-down value lists Task: Configure Process Framework	Tenant Administrator Configuration	Setting: Configure drop-down value lists Value: Enabled for Casablanca site with Parameter catalog Notes: Validated in test before go-live
MP-059.11	Configure custom sheet sections Task: Configure Process Framework	Tenant Administrator Configuration	Setting: Configure custom sheet sections Value: Enabled for Casablanca site with Parameter catalog Notes: Validated in test before go-live
MP-059.12	Maintain branded templates per document type Task: Configure Document Templates & Versioning	Tenant Administrator Execution	Evidence of execution: Parameter catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-059.13	Configure versioning and retention scheme Task: Configure Document Templates & Versioning	Tenant Administrator Configuration	Setting: Configure versioning and retention scheme Value: Enabled for Casablanca site with Parameter catalog Notes: Validated in test before go-live

DMS058 (MP-119) — Asset Reliability and Maintenance Management

Manage reliability per ISO 55001; optimize maintenance; maximize availability. Owner: Operations Manager. Tier 6.

Step	Step and task	Role · form	What to type
MP-119.1	Register assets Task: Plan & Prepare	Operations Manager Document	Document reference: HZ-UNI-DMS058-01 Version: 2.0 Content summary: Asset register for products and services, aligned with ISO 9001.
MP-119.2	Criticality analysis Task: Plan & Prepare	Operations Manager Execution	Evidence of execution: Asset register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-119.3	Define strategies Task: Plan & Prepare	Operations Manager Register items	Items identified (one per line): 1. Asset register 2. Maintenance plans 3. Work orders Source / evidence: Workshop records and Asset register
MP-119.4	Plan PM Task: Plan & Prepare	Operations Manager Plan	Planned activities (one per line): 1. Execute 2. Predictive maintenance 3. Analyze failures Start: 2026-03-09 End: 2026-05-11
MP-119.5	Execute Task: Execute	Operations Manager Execution	Evidence of execution: Asset register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-119.6	Predictive maintenance Task: Execute	Operations Manager Execution	Evidence of execution: Asset register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-119.7	Analyze failures Task: Execute	Operations Manager Assessment	Score (1–5): 3 Rationale and facts: 13 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-119.8	Optimize Task: Verify, Record & Close	Operations Manager Change	Change made: Asset register updated to reflect Use of an obsolete document version. Reason: Result of the periodic review
MP-119.9	Monitor Task: Verify, Record & Close	Operations Manager Measurement	Indicator: Policy review on time rate Measured value: 99.5 Target: 100% Analysis: Trend improving versus last period; target met.

Step	Step and task	Role · form	What to type
MP-119.10	Report Task: Verify, Record & Close	Operations Manager Communication	Audience: Operations; Maintenance Channel: Meeting Key message: Asset register is published. Please read and acknowledge before 2026-03-24.

DMS072 (MP-133) — Facility Management

Manage facilities per ISO 41001; ensure performance and safety. Owner: Operations Manager. Tier 6.

Step	Step and task	Role · form	What to type
MP-133.1	Define policy Task: Plan & Prepare	Operations Manager Register items	Items identified (one per line): 1. Facility management plan 2. Maintenance records 3. Space records Source / evidence: Workshop records and ISO 41001
MP-133.2	Assess needs Task: Plan & Prepare	Operations Manager Assessment	Score (1–5): 5 Rationale and facts: 18 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-133.3	Plan services Task: Plan & Prepare	Operations Manager Plan	Planned activities (one per line): 1. Manage maintenance 2. Manage space 3. Manage utilities Start: 2026-03-12 End: 2026-05-17
MP-133.4	Manage maintenance Task: Plan & Prepare	Operations Manager Execution	Evidence of execution: Facility management plan completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-133.5	Manage space Task: Execute	Operations Manager Execution	Evidence of execution: Facility management plan completed on core delivery process; records filed in DynamicMS. Completion (%): 100

Gate — G6 — Infrastructure secured

Exit criteria: Access rights recertified; data protection register complete; assets under maintenance plan.

42. Open Lifecycle and select the phase card; the gate panel is on the right.
43. Tick “Access rights recertified (mandatory, evidence required)”.
44. Tick “Processing register complete (mandatory, evidence required)”.
45. Tick “Asset register reconciled”.
46. Sign in as Top Management (ceo@...) or the IMS Manager and select Go. For Hold or No-Go, type a comment explaining why.

E2E-07 — Knowledge To Control

Goals: Govern data, formulas, calculations, knowledge

From trigger to terminal event: Data governance requirement, formula change, or knowledge gap
→ Governed data, formulas, calculations, knowledge graph

UMS048 (MP-044) — Data Governance and Master Data Quality

Define domains/owners; establish rules; profile and clean; monitor. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-044.1	Define domains Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. Data domains 2. Quality rules 3. Cleansing records Source / evidence: Workshop records and Data domains
MP-044.2	Establish rules Task: Plan & Prepare	IT Manager Execution	Evidence of execution: Data domains completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-044.3	Implement profiling Task: Plan & Prepare	IT Manager Configuration	Setting: Implement profiling Value: Enabled for Casablanca site with Data domains Notes: Validated in test before go-live
MP-044.4	Manage lineage	IT Manager	Evidence of execution: Data domains completed on core

Step	Step and task	Role · form	What to type
	Task: Execute	Execution	delivery process; records filed in DynamicMS. Completion (%): 100
MP-044.5	Operate MDM Task: Execute	IT Manager Configuration	Setting: Operate MDM Value: Enabled for Casablanca site with Data domains Notes: Validated in test before go-live
MP-044.6	Monitor dashboards Task: Execute	IT Manager Measurement	Indicator: Obligations mapped to process elements Measured value: 96.5 Target: 100% Analysis: Trend improving versus last period; target met.
MP-044.7	Resolve incidents Task: Verify, Record & Close	IT Manager Execution	Evidence of execution: Data domains completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-044.8	Report scores Task: Verify, Record & Close	IT Manager Communication	Audience: Top mgmt; Data consumers Channel: Meeting Key message: Data domains is published. Please read and acknowledge before 2026-04-07.
MP-044.9	Maintain customizable value lists Task: Govern Custom Value Lists	IT Manager Execution	Evidence of execution: Data domains completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-044.10	Retire unused custom values Task: Govern Custom Value Lists	IT Manager Closure	Closure evidence: Data domains closed; effectiveness verified and evidence archived. Closure date: 2026-03-24

UMS054 (MP-057) — Formula Repository and Variable Governance

Catalog formulas; define syntax; validate; version and publish. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-057.1	Catalog formulas Task: Plan & Prepare	IT Manager Execution	Evidence of execution: Formula repository completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-057.2	Define syntax Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. Formula repository 2. Syntax definitions 3. Validation records Source / evidence: Workshop records and Business formulas
MP-057.3	Validate Task: Plan & Prepare	IT Manager Decision	Decision: Go Approver (Accountable): IT Manager Decision comment: Formula repository confirmed against ISO 9001; no blocking issue.
MP-057.4	Version Task: Execute	IT Manager Execution	Evidence of execution: Formula repository completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-057.5	Publish Task: Execute	IT Manager Document	Document reference: HZ-UNI-UMS054-05 Version: 1.0 Content summary: Formula repository for products and services, aligned with ISO 9001.
MP-057.6	Change control Task: Execute	IT Manager Execution	Evidence of execution: Formula repository completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-057.7	Link to data Task: Verify, Record & Close	IT Manager Execution	Evidence of execution: Formula repository completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-057.8	Provide search Task: Verify, Record & Close	IT Manager Configuration	Setting: Provide search Value: Enabled for Casablanca site with Formula repository Notes: Validated in test before go-live

UMS055 (MP-058) — Formula Execution and Traceability Orchestration

Deploy formulas; ingest data; execute calculations; log and trace. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-058.1	Deploy Task: Plan & Prepare	DynamicMS Engine Automated service task	System result confirmed: Calculation results generated automatically by the DynamicMS Engine
MP-058.2	Ingest Task: Plan & Prepare	DynamicMS Engine Automated service task	System result confirmed: Calculation results generated automatically by the DynamicMS Engine
MP-058.3	Execute Task: Plan & Prepare	IT Manager Execution	Evidence of execution: Calculation results completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-058.4	Log parameters Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Calculation results generated automatically by the DynamicMS Engine
MP-058.5	Capture steps Task: Execute	IT Manager Register items	Items identified (one per line): 1. Calculation results 2. Traceability logs 3. Parameter records Source / evidence: Workshop records and Formulas
MP-058.6	Store with traceability Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Calculation results generated automatically by the DynamicMS Engine
MP-058.7	Ensure traceability Task: Verify, Record & Close	IT Manager Execution	Evidence of execution: Calculation results completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-058.8	Detect anomalies Task: Verify, Record & Close	IT Manager Register items	Items identified (one per line): 1. Calculation results 2. Traceability logs 3. Parameter records Source / evidence: Workshop records and Formulas

DMS013 (MP-074) — Knowledge Graph and Semantic Search

Build knowledge graph; enable semantic search; connect information; power AI. Owner: Document Controller. Tier 3.

Step	Step and task	Role · form	What to type
MP-074.1	Define schema Task: Plan & Prepare	Document Controller Register items	Items identified (one per line): 1. Knowledge graph 2. Search index 3. Query results Source / evidence: Workshop records and IMS data
MP-074.2	Extract entities/relationships Task: Plan & Prepare	Document Controller Register items	Items identified (one per line): 1. Knowledge graph 2. Search index 3. Query results Source / evidence: Workshop records and IMS data
MP-074.3	Build graph Task: Plan & Prepare	Document Controller Execution	Evidence of execution: Knowledge graph completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-074.4	Index for search Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Knowledge graph generated automatically by the DynamicMS Engine
MP-074.5	Enable NL queries Task: Execute	Document Controller Configuration	Setting: Enable NL queries Value: Enabled for Casablanca site with Knowledge graph Notes: Validated in test before go-live
MP-074.6	Power AI Task: Execute	Document Controller AI-assisted draft	Context given to the assistant: Inputs: IMS data; Documents; Process data. Standards in scope: ISO 9001. Suggestion outcome: Accepted Final validated text: Draft reviewed by Document Controller: Knowledge graph covering ISO 9001.
MP-074.7	Maintain accuracy Task: Verify, Record & Close	Document Controller Execution	Evidence of execution: Knowledge graph completed on core delivery process; records filed in DynamicMS. Completion (%): 100

Step	Step and task	Role · form	What to type
MP-074.8	Report insights Task: Verify, Record & Close	Document Controller Communication	Audience: All users; Process owners Channel: Meeting Key message: Knowledge graph is published. Please read and acknowledge before 2026-04-15.

Gate — G7 — Data and formulas governed

Exit criteria: Master data owners named; KPI formulas validated before activation.

47. Open Lifecycle and select the phase card; the gate panel is on the right.
48. Tick “Data owners designated (mandatory, evidence required)”.
49. Tick “KPI formulas validated (mandatory, evidence required)”.
50. Sign in as Top Management (ceo@...) or the IMS Manager and select Go. For Hold or No-Go, type a comment explaining why.

E2E-08 — Requirements To Delivery

Goals: Transform requirements into delivered products/services

From trigger to terminal event: Customer order, production plan, supplier onboarding, welding requirement, laboratory test, or eco-design → Products/services delivered; suppliers controlled; traceability ensured; quality validated; LCA completed

UMS025 (MP-007) — Process Control Plan Management

Identify critical control points; define methods; assign responsibilities; monitor. Owner: Process Excellence Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-007.1	Identify critical points Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Control plans 2. Monitoring records 3. Verification records Source / evidence: Workshop records and Process designs
MP-007.2	Define methods Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Control plans 2. Monitoring records 3. Verification records Source / evidence: Workshop records and Process designs
MP-007.3	Designate responsible Task: Plan & Prepare	Process Excellence Manager Plan	Planned activities (one per line): 1. Define acceptance criteria 2. Document 3. Monitor Start: 2026-04-02 End: 2026-06-08
MP-007.4	Define acceptance criteria Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. Control plans 2. Monitoring records 3. Verification records Source / evidence: Workshop records and Process designs
MP-007.5	Document Task: Execute	Process Excellence Manager Document	Document reference: HZ-UNI-UMS025-05 Version: 1.1 Content summary: Control plans for products and services, aligned with ISO 9001.
MP-007.6	Monitor Task: Execute	Process Excellence Manager Measurement	Indicator: Continuity test success Measured value: 94.3 Target: 100% Analysis: Trend declining versus last period; action plan opened.
MP-007.7	Verify	Process Excellence	Score (1–5): 5

Step	Step and task	Role · form	What to type
	Task: Verify, Record & Close	Manager Assessment	Rationale and facts: 7 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-007.8	Adjust Task: Verify, Record & Close	Process Excellence Manager Change	Change made: Control plans updated to reflect specification not met. Reason: Result of the periodic review
MP-007.9	Archive Task: Verify, Record & Close	Process Excellence Manager Closure	Closure evidence: Control plans closed; effectiveness verified and evidence archived. Closure date: 2026-04-09

UMS026 (MP-008) — Business Rules and Process Logic Management

Identify decision points; define conditional logic; define thresholds; simulate. Owner: Process Excellence Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-008.1	Identify decision points Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Business rules 2. Decision logic docs 3. Exception procedures Source / evidence: Workshop records and Process designs

Gate — G9 — Problem solving effective

Exit criteria: Critical NCs contained within 24 h; corrective actions verified by an independent evaluator.

56. Open Lifecycle and select the phase card; the gate panel is on the right.
57. Tick “Containment within 24 h for critical NCs (mandatory, evidence required)”.
58. Tick “Root cause validated for major NCs (mandatory, evidence required)”.
59. Tick “Effectiveness verified by independent evaluator (mandatory, evidence required)”.
60. Sign in as Top Management (ceo@...) or the IMS Manager and select Go. For Hold or No-Go, type a comment explaining why.

E2E-10 — Monitoring To Evaluation

Goals: Monitor performance, evaluate results, steer the organization

From trigger to terminal event: Monitoring periodicity, performance deviation, or governance review → Performance evaluated; governance decisions made; improvements identified

UMS027 (MP-009) — Process Indicators and KPI Management

Define KPIs; align with objectives; set targets; automate and visualize. Owner: Performance Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-009.1	Define indicators Task: Plan & Prepare	Performance Manager Register items	Items identified (one per line): 1. Policy review on time rate 2. To-Be SIPOC coverage 3. Macro process sheet completeness 4. Competence gap closure rate Source / evidence: Workshop records and Process objectives

Step	Step and task	Role · form	What to type
MP-009.2	Align with objectives Task: Plan & Prepare	Performance Manager Execution	Evidence of execution: KPI definitions completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-009.3	Set targets Task: Plan & Prepare	Performance Manager Execution	Evidence of execution: KPI definitions completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-009.4	Define data sources Task: Execute	Performance Manager Register items	Items identified (one per line): 1. KPI definitions 2. Dashboards 3. Target tracking Source / evidence: Workshop records and Process objectives
MP-009.5	Establish frequency Task: Execute	Performance Manager Periodicity	Frequency: Monthly Next due date: 2026-07-14 Scope / notes: Scope: products and services at Casablanca
MP-009.6	Designate responsible Task: Execute	Performance Manager Plan	Planned activities (one per line): 1. Review relevance 2. Automate 3. Visualize Start: 2026-06-11 End: 2026-07-05
MP-009.7	Review relevance Task: Verify, Record & Close	Performance Manager Assessment	Score (1–5): 4 Rationale and facts: 14 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-009.8	Automate Task: Verify, Record & Close	DynamicMS Engine Automated service task	System result confirmed: KPI definitions generated automatically by the DynamicMS Engine
MP-009.9	Visualize Task: Verify, Record & Close	Performance Manager Execution	Evidence of execution: KPI definitions completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-009.10	Set KPI measurement and analysis frequencies Task: Govern KPI Frequencies & RACSI	Performance Manager Execution	Evidence of execution: KPI definitions completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-009.11	Assign KPI RACSI Task: Govern KPI Frequencies & RACSI	Performance Manager Assignment	Role: Performance Manager Person / team: Tariq Saleh Scope of responsibility: Process Indicators and KPI Management for Casablanca site

UMS028 (MP-010) — Process Alert and Escalation Thresholds

Define alert thresholds; set escalation levels; configure notifications; test. Owner: Performance Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-010.1	Define thresholds Task: Plan & Prepare	Performance Manager Register items	Items identified (one per line): 1. Alert thresholds 2. Escalation procedures 3. Notification records Source / evidence: Workshop records and KPI definitions
MP-010.2	Set alert levels Task: Plan & Prepare	Performance Manager Execution	Evidence of execution: Alert thresholds completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-010.3	Configure triggers Task: Plan & Prepare	Performance Manager Configuration	Setting: Configure triggers Value: Enabled for Casablanca site with Alert thresholds Notes: Validated in test before go-live
MP-010.4	Designate recipients Task: Execute	Performance Manager Plan	Planned activities (one per line): 1. Define escalation paths 2. Test 3. Monitor Start: 2026-06-17 End: 2026-07-21

Step	Step and task	Role · form	What to type
MP-010.5	Define escalation paths Task: Execute	Performance Manager Register items	Items identified (one per line): 1. Alert thresholds 2. Escalation procedures 3. Notification records Source / evidence: Workshop records and KPI definitions
MP-010.6	Test Task: Execute	Performance Manager Assessment	Score (1–5): 3 Rationale and facts: 18 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-010.7	Monitor Task: Verify, Record & Close	Performance Manager Measurement	Indicator: Certificates maintained Measured value: 97.7 Target: 100% Analysis: Trend declining versus last period; action plan opened.

MP-075.5	Identify bottlenecks Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. Discovered models 2. Deviation reports 3. Improvement recommendations Source / evidence: Workshop records and Process logs
MP-075.6	Recommend improvements Task: Execute	Process Excellence Manager Execution	Evidence of execution: Discovered models completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-075.7	Validate Task: Verify, Record & Close	Process Excellence Manager Decision	Decision: Hold Approver (Accountable): Process Excellence Manager Decision comment: Hold until Deviation reports is completed.
MP-075.8	Update models Task: Verify, Record & Close	Process Excellence Manager AI-assisted draft	Context given to the assistant: Inputs: Process logs; Text data; Emails. Standards in scope: ISO 9001. Suggestion outcome: Accepted Final validated text: Draft reviewed by Process Excellence Manager: Discovered models covering ISO 9001.

DMS017 (MP-078) — Predictive Compliance Intelligence

Predict compliance risks; identify at-risk processes; recommend actions; reduce NCs. Owner: Compliance Officer. Tier 3.

Step	Step and task	Role · form	What to type
MP-078.1	Collect data Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Compliance risk predictions 2. At-risk list 3. Preventive recommendations Source / evidence: Workshop records and Compliance data
MP-078.2	Train models Task: Plan & Prepare	Compliance Officer AI-assisted draft	Context given to the assistant: Inputs: Compliance data; Audit findings; NC data. Standards in scope: ISO 9001. Suggestion outcome: Edited Final validated text: Draft reviewed by Compliance Officer: Compliance risk predictions covering ISO 9001.
MP-078.3	Predict risks Task: Plan & Prepare	Compliance Officer AI-assisted draft	Context given to the assistant: Inputs: Compliance data; Audit findings; NC data. Standards in scope: ISO 9001. Suggestion outcome: Accepted Final validated text: Draft reviewed by Compliance Officer: Compliance risk predictions covering ISO 9001.
MP-078.4	Identify at-risk Task: Execute	Compliance Officer Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents 3. Incomplete or inconsistent To-Be SIPOC published 4. late delivery to customer Source / evidence: Workshop records and Compliance data
MP-078.5	Recommend actions Task: Execute	Compliance Officer Execution	Evidence of execution: Compliance risk predictions completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-078.6	Alert compliance Task: Execute	Compliance Officer Communication	Audience: Compliance; Top mgmt Channel: Notice board Key message: Compliance risk predictions is published. Please read and acknowledge before 2026-09-18.
MP-078.7	Track accuracy Task: Verify, Record & Close	Compliance Officer Measurement	Indicator: Distribution acknowledgement rate Measured value: 92.7 Target: >= 95% Analysis: Trend declining versus last period; action plan opened.
MP-078.8	Report Task: Verify, Record & Close	Compliance Officer Communication	Audience: Compliance; Top mgmt Channel: Notice board Key message: Compliance risk predictions is published. Please read and acknowledge before 2026-09-18.

DMS019 (MP-080) — Real-Time Regulatory Change Impact

Assess regulatory impact in real time; identify affected; recommend actions. Owner: Compliance Officer. Tier 3.

Step	Step and task	Role · form	What to type
MP-080.1	Detect change Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Impact assessments 2. Affected process lists 3. Action recommendations Source / evidence: Workshop records and Regulatory changes
MP-080.2	Assess impact Task: Plan & Prepare	Compliance Officer Assessment	Score (1–5): 3 Rationale and facts: 13 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-080.3	Identify affected Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Impact assessments 2. Affected process lists 3. Action recommendations Source / evidence: Workshop records and Regulatory changes
MP-080.4	Recommend actions Task: Execute	Compliance Officer Execution	Evidence of execution: Impact assessments completed on core delivery process; records filed in DynamicMS. Completion (%): 100

Step	Step and task	Role · form	What to type
MP-080.5	Alert owners Task: Execute	Compliance Officer Communication	Audience: Compliance; Process owners Channel: Notice board Key message: Impact assessments is published. Please read and acknowledge before 2026-09-20.
MP-080.6	Track implementation Task: Execute	Compliance Officer Measurement	Indicator: Document approval cycle time Measured value: 5.5 Target: <= 5 days Analysis: Trend declining versus last period; action plan opened.
MP-080.7	Verify compliance Task: Verify, Record & Close	Compliance Officer Assessment	Score (1–5): 5 Rationale and facts: 7 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-080.8	Report Task: Verify, Record & Close	Compliance Officer Communication	Audience: Compliance; Process owners Channel: Meeting Key message: Impact assessments is published. Please read and acknowledge before 2026-09-22.

DMS027 (MP-088) — AI Explainability and Confidence Scoring

Log AI recommendations with confidence; provide explainability; human-in-the-loop. Owner: Transformation Manager. Tier 4.

Step	Step and task	Role · form	What to type
MP-088.1	Define requirements per agent Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. ISO 9001 Source / evidence: Workshop records and AI outputs
MP-088.2	Log with confidence Task: Plan & Prepare	DynamicMS Engine Automated service task	System result confirmed: AI recommendation logs generated automatically by the DynamicMS Engine
MP-088.3	Attach source refs Task: Plan & Prepare	Transformation Manager Execution	Evidence of execution: AI recommendation logs completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-088.4	Enable human review Task: Execute	Transformation Manager Configuration	Setting: Enable human review Value: Enabled for Casablanca site with AI recommendation logs Notes: Validated in test before go-live
MP-088.5	Track accuracy Task: Execute	Transformation Manager Measurement	Indicator: Certificates maintained Measured value: 97.7 Target: 100% Analysis: Trend improving versus last period; target met.
MP-088.6	Generate reports Task: Execute	Transformation Manager Document	Document reference: HZ-UNI-DMS027-06 Version: 1.1 Content summary: AI recommendation logs for products and services, aligned with ISO 9001.
MP-088.7	Conduct bias audits Task: Verify, Record & Close	Transformation Manager Execution	Evidence of execution: AI recommendation logs completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-088.8	Update models Task: Verify, Record & Close	Transformation Manager AI-assisted draft	Context given to the assistant: Inputs: AI outputs; Confidence scores; Source references. Standards in scope: ISO 9001. Suggestion outcome: Edited Final validated text: Draft reviewed by Transformation Manager: AI recommendation logs covering ISO 9001.

DMS031 (MP-092) — IoT and Sensor Data Integration

Integrate IoT/equipment; capture real-time data; trigger alerts/workflows. Owner: Transformation Manager. Tier 5.

Step	Step and task	Role · form	What to type
MP-092.1	Define architecture Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Real-time data 2. Automated alerts 3. Triggered workflows Source / evidence: Workshop records and Sensor data
MP-092.2	Connect sensors Task: Plan & Prepare	Transformation Manager Configuration	Setting: Connect sensors Value: Enabled for Casablanca site with Real-time data Notes: Validated in test before go-live
MP-092.3	Ingest streams Task: Plan & Prepare	DynamicMS Engine Automated service task	System result confirmed: Real-time data generated automatically by the DynamicMS Engine
MP-092.4	Threshold/anomaly detection Task: Plan & Prepare	Transformation Manager Execution	Evidence of execution: Real-time data completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-092.5	Trigger alerts Task: Execute	Transformation Manager Execution	Evidence of execution: Real-time data completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-092.6	Correlate with quality Task: Execute	Transformation Manager Execution	Evidence of execution: Real-time data completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-092.7	Predictive quality models Task: Execute	Transformation Manager AI-assisted draft	Context given to the assistant: Inputs: Sensor data; Telemetry; Environmental data. Standards in scope: ISO 9001. Suggestion outcome: Accepted Final validated text: Draft reviewed by Transformation Manager: Real-time data covering ISO 9001.
MP-092.8	Store time-series Task: Verify, Record & Close	DynamicMS Engine Automated service task	System result confirmed: Real-time data generated automatically by the DynamicMS Engine
MP-092.9	Provide dashboards Task: Verify, Record & Close	Transformation Manager Configuration	Setting: Provide dashboards Value: Enabled for Casablanca site with Real-time data Notes: Validated in test before go-live
MP-092.10	Report health Task: Verify, Record & Close	Transformation Manager Communication	Audience: Operations; Quality teams Channel: E-mail Key message: Real-time data is published. Please read and acknowledge before 2026-09-25.

DMS038 (MP-099) — Task Mining and Process Discovery Automation

Discover processes from interactions; identify automation; detect deviations. Owner: Process Excellence Manager. Tier 5.

Step	Step and task	Role · form	What to type
MP-099.1	Collect data Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Discovered models 2. Automation candidates 3. Deviation reports Source / evidence: Workshop records and User logs
MP-099.2	Apply task mining Task: Plan & Prepare	Process Excellence Manager Configuration	Setting: Apply task mining Value: Enabled for Casablanca site with Discovered models Notes: Validated in test before go-live
MP-099.3	Reconstruct flows Task: Plan & Prepare	Process Excellence Manager Execution	Evidence of execution: Discovered models completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-099.4	Compare to designed Task: Plan & Prepare	Process Excellence Manager Assessment	Score (1–5): 5 Rationale and facts: 9 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-099.5	Identify automation Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. Discovered models 2. Automation candidates 3. Deviation reports Source / evidence: Workshop records and User logs

Step	Step and task	Role · form	What to type
MP-099.6	Score potential Task: Execute	Process Excellence Manager Assessment	Score (1–5): 3 Rationale and facts: 11 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-099.7	Recommend improvements Task: Execute	Process Excellence Manager Execution	Evidence of execution: Discovered models completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-099.8	Validate Task: Verify, Record & Close	Process Excellence Manager Decision	Decision: Go Approver (Accountable): Process Excellence Manager Decision comment: Discovered models confirmed against ISO 9001; no blocking issue.
MP-099.9	Update models Task: Verify, Record & Close	Process Excellence Manager AI-assisted draft	Context given to the assistant: Inputs: User logs; Application events; Process data. Standards in scope: ISO 9001. Suggestion outcome: Edited Final validated text: Draft reviewed by Process Excellence Manager: Discovered models covering ISO 9001.
MP-099.10	Report Task: Verify, Record & Close	Process Excellence Manager Communication	Audience: Process owners; Improvement teams Channel: Notice board Key message: Discovered models is published. Please read and acknowledge before 2026-10-01.

Gate — G11 — Assurance in place

Exit criteria: Predictive alerts reviewed by humans; ESG and carbon data verified.

66. Open Lifecycle and select the phase card; the gate panel is on the right.

67. Tick “Predictive alerts reviewed by a human (mandatory, evidence required)”.

68. Tick “Regulatory watch log current”.

69. Sign in as Top Management (ceo@...) or the IMS Manager and select Go. For Hold or No-Go, type a comment explaining why.

E2E-12 — Correction To Innovation

Goals: Drive continual improvement, innovation, automation, ecosystem

From trigger to terminal event: Improvement opportunity, innovation idea, or automation candidate → Improvements implemented; innovations deployed; ecosystem expanded

UMS017 (MP-041) — AI Management System Supervision

Establish AI policy; define scope/risks; apply lifecycle controls; monitor/audit. Owner: Transformation Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-041.1	Establish policy Task: Plan & Prepare	Transformation Manager Execution	Evidence of execution: AI policy completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-041.2	Define scope Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. AI policy 2. Risk register 3. Impact assessment Source / evidence: Workshop records and AI policy requirements
MP-041.3	Identify risks Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents 3. Incomplete or inconsistent To-Be SIPOC published

Step	Step and task	Role · form	What to type
			4. late delivery to customer Source / evidence: Workshop records and AI policy requirements
MP-041.4	Assess impacts Task: Plan & Prepare	Transformation Manager Assessment	Score (1–5): 3 Rationale and facts: 13 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-041.5	Define roles Task: Execute	Transformation Manager Register items	Items identified (one per line): 1. AI policy 2. Risk register 3. Impact assessment Source / evidence: Workshop records and AI policy requirements
MP-041.6	Apply controls Task: Execute	Transformation Manager Configuration	Setting: Apply controls Value: Enabled for Casablanca site with AI policy Notes: Validated in test before go-live
MP-041.7	Monitor Task: Execute	Transformation Manager Measurement	Indicator: To-Be SIPOC coverage Measured value: 90.9 Target: >= 95% Analysis: Trend declining versus last period; action plan opened.
MP-041.8	Audit Task: Verify, Record & Close	Transformation Manager Measurement	Indicator: Document approval cycle time Measured value: 5.5 Target: <= 5 days Analysis: Trend improving versus last period; target met.
MP-041.9	Correct Task: Verify, Record & Close	Transformation Manager Change	Change made: AI policy updated to reflect Use of an obsolete document version. Reason: Result of the periodic review
MP-041.10	Update Task: Verify, Record & Close	Transformation Manager Change	Change made: AI policy updated to reflect specification not met. Reason: Result of the periodic review
MP-041.11	Activate AI use cases by scope Task: Administer AI Use Cases	Transformation Manager Configuration	Setting: Activate AI use cases by scope Value: Enabled for Casablanca site with AI policy Notes: Validated in test before go-live
MP-041.12	Approve custom AI use cases Task: Administer AI Use Cases	Transformation Manager Decision	Decision: Go Approver (Accountable): Transformation Manager Decision comment: AI policy confirmed against ISO 9001; no blocking issue.

UMS041 (MP-053) — Optimization and Automation Project Management

Set periodicity; identify opportunities; manage projects; validate benefits. Owner: Transformation Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-053.1	Set periodicity Task: Plan & Prepare	Transformation Manager Periodicity	Frequency: Monthly Next due date: 2026-10-21 Scope / notes: Scope: products and services at Casablanca
MP-053.2	Identify opportunities Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Digitize products and services records to cut cycle time 2. Extend certification to win products and services tenders 3. Supplier development programme for products and services Source / evidence: Workshop records and Opportunities
MP-053.3	Define scope Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Optimization projects 2. Automation records 3. Benefit validation Source / evidence: Workshop records and Opportunities
MP-053.4	Manage BPR	Transformation Manager	Evidence of execution: Optimization projects completed on

Step	Step and task	Role · form	What to type
	Task: Execute	Execution	core delivery process; records filed in DynamicMS. Completion (%): 100
MP-053.5	Manage automation Task: Execute	Transformation Manager Execution	Evidence of execution: Optimization projects completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-053.6	Track milestones Task: Execute	Transformation Manager Measurement	Indicator: Access recertification completion Measured value: 94.5 Target: 100% Analysis: Trend improving versus last period; target met.
MP-053.7	Validate benefits Task: Verify, Record & Close	Transformation Manager Decision	Decision: Go Approver (Accountable): Transformation Manager Decision comment: Optimization projects confirmed against ISO 9001; no blocking issue.
MP-053.8	Standardize Task: Verify, Record & Close	Transformation Manager Change	Change made: Optimization projects updated to reflect Use of an obsolete document version. Reason: Result of the periodic review
MP-053.9	Transfer Task: Verify, Record & Close	Transformation Manager Execution	Evidence of execution: Optimization projects completed on core delivery process; records filed in DynamicMS. Completion (%): 100

UMS042 (MP-054) — Macro Process Discovery and Prioritization

Collect friction points; score processes; define prioritization; publish. Owner: Process Excellence Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-054.1	Collect friction Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. late delivery to customer 2. specification not met 3. Workload on core delivery process Source / evidence: Workshop records and Friction points
MP-054.2	Score processes Task: Plan & Prepare	Process Excellence Manager Assessment	Score (1–5): 3 Rationale and facts: 10 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-054.3	Define criteria Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Prioritization portfolio 2. Scoring records 3. Validation records Source / evidence: Workshop records and Friction points
MP-054.4	Rank Task: Execute	Process Excellence Manager Assessment	Score (1–5): 4 Rationale and facts: 21 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-054.5	Validate Task: Execute	Process Excellence Manager Decision	Decision: Go Approver (Accountable): Process Excellence Manager Decision comment: Prioritization portfolio confirmed against ISO 9001; no blocking issue.
MP-054.6	Build portfolio Task: Execute	Process Excellence Manager Plan	Planned activities (one per line): 1. Publish 2. Revise quarterly Start: 2026-09-25 End: 2026-11-22
MP-054.7	Publish Task: Verify, Record & Close	Process Excellence Manager Document	Document reference: HZ-UNI-UMS042-07 Version: 2.0 Content summary: Prioritization portfolio for products and services, aligned with ISO 9001.
MP-054.8	Revise quarterly Task: Verify, Record & Close	Process Excellence Manager Change	Change made: Prioritization portfolio updated to reflect specification not met. Reason: Result of the periodic review

UMS057 (MP-055) — Enterprise Simulation and Digital Twin

Build digital twin; calibrate; define scenarios; run simulations; validate. Owner: Transformation Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-055.1	Build model Task: Plan & Prepare	Transformation Manager AI-assisted draft	Context given to the assistant: Inputs: Process data; Historical data; Scenario definitions. Standards in scope: ISO 9001. Suggestion outcome: Edited Final validated text: Draft reviewed by Transformation Manager: Digital twin model covering ISO 9001.
MP-055.2	Calibrate Task: Plan & Prepare	Transformation Manager Execution	Evidence of execution: Digital twin model in progress on core delivery process; remaining items tracked. Completion (%): 80
MP-055.3	Define scenarios Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents 3. Incomplete or inconsistent To-Be SIPOC published 4. Revision of ISO 9001 Source / evidence: Workshop records and Process data

DMS024 (MP-085) — Composable Module Governance

Manage reusable modules; ensure shareability across apps. Owner: Tenant Administrator. Tier 4.

Step	Step and task	Role · form	What to type
MP-085.1	Define catalog Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Module catalog 2. API specs 3. Version matrix Source / evidence: Workshop records and Module catalog
MP-085.2	Establish interfaces Task: Plan & Prepare	Tenant Administrator Execution	Evidence of execution: Module catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-085.3	Versioning Task: Plan & Prepare	Tenant Administrator Execution	Evidence of execution: Module catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-085.4	Enable sharing Task: Execute	Tenant Administrator Configuration	Setting: Enable sharing Value: Enabled for Casablanca site with Module catalog Notes: Validated in test before go-live
MP-085.5	Govern RBAC/tenant Task: Execute	Tenant Administrator Execution	Evidence of execution: Module catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-085.6	Monitor usage Task: Execute	Tenant Administrator Measurement	Indicator: Competence gap closure rate Measured value: 74.5 Target: >= 80% Analysis: Trend declining versus last period; action plan opened.
MP-085.7	Manage lifecycle Task: Verify, Record & Close	Tenant Administrator Execution	Evidence of execution: Module catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-085.8	Report reuse/ROI Task: Verify, Record & Close	Tenant Administrator Communication	Audience: All DynamicMS applications; Product teams Channel: Notice board Key message: Module catalog is published. Please read and acknowledge before 2026-11-11.

DMS025 (MP-086) — Multi-Tenant Isolation and Governance

Ensure complete data isolation; enforce tenant-level config/branding/RBAC. Owner: Tenant Administrator. Tier 4.

Step	Step and task	Role · form	What to type
MP-086.1	Define isolation Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Isolation records 2. Config records 3. Access logs Source / evidence: Workshop records and Tenant config
MP-086.2	Implement context propagation Task: Plan & Prepare	Tenant Administrator Configuration	Setting: Implement context propagation Value: Enabled for Casablanca site with Isolation records Notes: Validated in test before go-live
MP-086.3	Enforce tenant_id Task: Plan & Prepare	Tenant Administrator Configuration	Setting: Enforce tenant_id Value: Enabled for Casablanca site with Isolation records Notes: Validated in test before go-live
MP-086.4	Configure tenant-level Task: Execute	Tenant Administrator Configuration	Setting: Configure tenant-level Value: Enabled for Casablanca site with Isolation records Notes: Validated in test before go-live
MP-086.5	Manage onboarding/offboarding Task: Execute	Tenant Administrator Execution	Evidence of execution: Isolation records completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-086.6	Monitor cross-tenant Task: Execute	Tenant Administrator Measurement	Indicator: Continuity test success Measured value: 94.3 Target: 100% Analysis: Trend improving versus last period; target met.
MP-086.7	Conduct audits	Tenant Administrator	Evidence of execution: Isolation records completed on core

Step	Step and task	Role · form	What to type
	Task: Verify, Record & Close	Execution	delivery process; records filed in DynamicMS. Completion (%): 100
MP-086.8	Report compliance Task: Verify, Record & Close	Tenant Administrator Communication	Audience: Tenant admins; All tenant users Channel: Meeting Key message: Isolation records is published. Please read and acknowledge before 2026-11-20.

DMS028 (MP-089) — Real-Time Collaborative Editing and Co-Authoring

Enable simultaneous editing; presence awareness; conflict resolution; version history. Owner: Document Controller. Tier 5.

Step	Step and task	Role · form	What to type
MP-089.1	Enable multi-user sessions Task: Plan & Prepare	Document Controller Configuration	Setting: Enable multi-user sessions Value: Enabled for Casablanca site with Co-edited documents Notes: Validated in test before go-live
MP-089.2	Display presence Task: Plan & Prepare	Document Controller Execution	Evidence of execution: Co-edited documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-089.3	Apply CRDT Task: Plan & Prepare	Document Controller Configuration	Setting: Apply CRDT Value: Enabled for Casablanca site with Co-edited documents Notes: Validated in test before go-live
MP-089.4	Track contributions Task: Plan & Prepare	Document Controller Measurement	Indicator: Continuity test success Measured value: 94.3 Target: 100% Analysis: Trend improving versus last period; target met.
MP-089.5	Inline comments Task: Execute	Document Controller Execution	Evidence of execution: Co-edited documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-089.6	Threaded discussions Task: Execute	Document Controller Execution	Evidence of execution: Co-edited documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-089.7	Version history Task: Execute	Document Controller Execution	Evidence of execution: Co-edited documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-089.8	Notify Task: Verify, Record & Close	Document Controller Communication	Audience: Document authors; Process owners Channel: Intranet Key message: Co-edited documents is published. Please read and acknowledge before 2026-11-28.
MP-089.9	Lock for approval Task: Verify, Record & Close	Document Controller Decision	Decision: Go Approver (Accountable): Document Controller Decision comment: Co-edited documents confirmed against ISO 9001; no blocking issue.
MP-089.10	Report analytics Task: Verify, Record & Close	Document Controller Communication	Audience: Document authors; Process owners Channel: Intranet Key message: Co-edited documents is published. Please read and acknowledge before 2026-11-30.

DMS033 (MP-094) — Digital Signature and E-Signature Workflow

Enable legally binding signatures; comply with eIDAS/ESIGN; automate workflows. Owner: Document Controller. Tier 5.

Step	Step and task	Role · form	What to type
MP-094.1	Define requirements Task: Plan & Prepare	Document Controller Register items	Items identified (one per line): 1. ISO 9001 Source / evidence: Workshop records and Documents
MP-094.2	Integrate providers Task: Plan & Prepare	Document Controller Configuration	Setting: Integrate providers Value: Enabled for Casablanca site with Signed documents Notes: Validated in test before go-live
MP-094.3	Verify identity Task: Plan & Prepare	Document Controller Assessment	Score (1–5): 3 Rationale and facts: 10 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-094.4	Route for signature Task: Plan & Prepare	Document Controller Execution	Evidence of execution: Signed documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-094.5	Capture with timestamps Task: Execute	Document Controller Register items	Items identified (one per line): 1. Signed documents 2. Signature certificates 3. Audit trail Source / evidence: Workshop records and Documents
MP-094.6	Store certificates Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Signed documents generated automatically by the DynamicMS Engine
MP-094.7	Provide audit trail Task: Execute	Document Controller Configuration	Setting: Provide audit trail Value: Enabled for Casablanca site with Signed documents Notes: Validated in test before go-live
MP-094.8	Bulk signatures Task: Verify, Record & Close	Document Controller Execution	Evidence of execution: Signed documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-094.9	Multi-party Task: Verify, Record & Close	Document Controller Execution	Evidence of execution: Signed documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-094.10	Report analytics Task: Verify, Record & Close	Document Controller Communication	Audience: Document authors; Approvers Channel: Meeting Key message: Signed documents is published. Please read and acknowledge before 2026-09-28.

DMS039 (MP-100) — Low-Code Process Builder and Workflow Designer

Enable citizen developers; drag-and-drop; reduce IT dependency; accelerate digitization. Owner: Transformation Manager. Tier 5.

Step	Step and task	Role · form	What to type
MP-100.1	Provide designer Task: Plan & Prepare	Transformation Manager Configuration	Setting: Provide designer Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.2	Enable form building Task: Plan & Prepare	Transformation Manager Configuration	Setting: Enable form building Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.3	Configure rules Task: Plan & Prepare	Transformation Manager Configuration	Setting: Configure rules Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.4	Connect data/APIs Task: Plan & Prepare	Transformation Manager Configuration	Setting: Connect data/APIs Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.5	Test in sandbox Task: Execute	Transformation Manager Assessment	Score (1–5): 3 Rationale and facts: 12 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-100.6	Deploy Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Custom workflows generated automatically by the DynamicMS Engine

Step	Step and task	Role · form	What to type
MP-100.7	Monitor performance Task: Execute	Transformation Manager Measurement	Indicator: Continuity test success Measured value: 94.3 Target: 100% Analysis: Trend improving versus last period; target met.
MP-100.8	Governance/versioning Task: Verify, Record & Close	Transformation Manager Execution	Evidence of execution: Custom workflows completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-100.9	Enable training Task: Verify, Record & Close	Transformation Manager Configuration	Setting: Enable training Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.10	Report adoption Task: Verify, Record & Close	Transformation Manager Communication	Audience: Business users; Process owners Channel: E-mail Key message: Custom workflows is published. Please read and acknowledge before 2026-12-22.

DMS040 (MP-101) — Marketplace for Templates, Connectors, and Industry Packs

Provide marketplace; enable contributions; accelerate deployment; new revenue. Owner: Transformation Manager. Tier 5.

Step	Step and task	Role · form	What to type
MP-101.1	Define architecture Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Marketplace catalog 2. Certified templates 3. Connectors Source / evidence: Workshop records and Templates
MP-101.2	Enable onboarding Task: Plan & Prepare	Transformation Manager Configuration	Setting: Enable onboarding Value: Enabled for Casablanca site with Marketplace catalog Notes: Validated in test before go-live
MP-101.3	Provide guidelines Task: Plan & Prepare	Transformation Manager Configuration	Setting: Provide guidelines Value: Enabled for Casablanca site with Marketplace catalog Notes: Validated in test before go-live
MP-101.4	Review/certify Task: Plan & Prepare	Transformation Manager Measurement	Indicator: Obligations mapped to process elements Measured value: 96.5 Target: 100% Analysis: Trend improving versus last period; target met.
MP-101.5	Publish Task: Execute	Transformation Manager Document	Document reference: HZ-UNI-DMS040-05 Version: 1.1 Content summary: Marketplace catalog for products and services, aligned with ISO 9001.
MP-101.6	Enable browsing/purchase Task: Execute	Transformation Manager Configuration	Setting: Enable browsing/purchase Value: Enabled for Casablanca site with Marketplace catalog Notes: Validated in test before go-live
MP-101.7	Ratings/reviews Task: Execute	Transformation Manager Execution	Evidence of execution: Marketplace catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-101.8	Track analytics Task: Verify, Record & Close	Transformation Manager Measurement	Indicator: Certificates maintained Measured value: 97.7 Target: 100% Analysis: Trend improving versus last period; target met.
MP-101.9	Revenue sharing Task: Verify, Record & Close	Transformation Manager Execution	Evidence of execution: Marketplace catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-101.10	Update continuously Task: Verify, Record & Close	Transformation Manager Change	Change made: Marketplace catalog updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

Gate — G12 — Improvement cycle closed

Exit criteria: Improvement pipeline prioritized by ROI; lessons learned capitalized in the knowledge base.

70. Open Lifecycle and select the phase card; the gate panel is on the right.
71. Tick “Improvement ideas prioritized by ROI (mandatory, evidence required)”.
72. Tick “Lessons learned indexed in knowledge base (mandatory, evidence required)”.
73. Sign in as Top Management (ceo@...) or the IMS Manager and select Go. For Hold or No-Go, type a comment explaining why.

Records created along the run

Besides the workflow steps, the run creates records in the Records and Governance menus. The examples below are the ones seeded in the demonstration; type the same values to reproduce them.

Report a problem (nonconformity)

74. Open Records › Nonconformities and select Report a problem.
75. Title: type “late delivery to customer”.
76. Description: type “Detected on 2025-10-18 at core delivery process. Immediate containment applied and affected items segregated.”.
77. Source: choose Process. Criticality: choose Minor.
78. Select Submit. A Critical problem raises an alert to the Quality Manager and top management.
79. Open the nonconformity and select Move to Analysis, then type the root cause (“Work instruction not updated after change”).
80. Select Add action: type the title, choose an owner and a different evaluator, and a due date.
81. When all actions are closed, move to Verification then Closed; type the lessons learned (what went well, what did not, recommendation).

Record a risk

82. Open Governance › Risks and opportunities and select Add.
83. Title: “Business interruption”; kind Risk; likelihood 5; impact 4.
84. Treatment: “Transfer”, then select Save. The heatmap updates immediately.

Code	Kind	Title	L × I
RSK-19	Risk	Business interruption	$5 \times 4 = 20$
Q-R02	Risk	specification not met	$4 \times 5 = 20$
UNI-R05	Risk	Policy not covering all standards in scope	$4 \times 4 = 16$
RSK-01	Risk	Use of an obsolete document version	$5 \times 3 = 15$
RSK-02	Risk	Unauthorized approval of governed documents	$5 \times 3 = 15$

Record a KPI measurement

85. Open Governance › KPIs and select KPI-01 — Policy review on time rate.
86. In Record a measurement, type the period (for example 2026-09) and the value (for example 99.5); target 100%.
87. Select Record. A value off target raises a KPI alert to the Performance Manager and the IMS Manager.

Audit programme

Code	Audit	Standard	Planned	Status
AUD-HZ-UNI-QMS-01	Internal audit — People To Capability	ISO 9001	2026-01-29	Completed
AUD-HZ-UNI-QMS-02	Internal audit — Requirements To Delivery	ISO 9001	2026-03-30	Completed
AUD-HZ-UNI-QMS-03	Supplier audit — Requirements To Delivery	ISO 9001	2026-04-29	Completed
AUD-HZ-UNI-QMS-04	Mock certification audit — Compliance To Achievement	ISO 9001	2026-06-08	Completed
AUD-HZ-UNI-QMS-05	Internal audit — Verification To Preparedness	ISO 9001	2026-07-28	Completed
AUD-HZ-UNI-QMS-06	Certification audit (stage 2) — Compliance To Achievement	ISO 9001	2026-08-17	Completed
AUD-HZ-UNI-QMS-07	Surveillance audit — Monitoring To Evaluation	ISO 9001	2026-11-27	Planned

To add a finding: open the audit, select Add finding, choose the type (Major, Minor, Observation, OFI), type the clause and the finding; for Major and Minor choose the action owner and a different evaluator.

Documented information

Code	Title	Type	Version	Status
HZ-UNI-QMS-CP	Control plan — products and services	Plan	2.0	In review
HZ-UNI-QMS-MAN	Management System Manual	Manual	1.1	Published
HZ-UNI-QMS-MAP	Process map	Map	1.0	Published
HZ-UNI-QMS-POL	Quality Policy	Policy	1.1	Published
HZ-UNI-QMS-PR-01	Procedure — Context To Strategy	Procedure	1.1	Published
HZ-UNI-QMS-PR-02	Procedure — Leadership To Commitment	Procedure	1.1	Published
HZ-UNI-QMS-PR-03	Procedure — Risk To Resilience	Procedure	1.1	Published
HZ-UNI-QMS-PR-04	Procedure — Compliance To Achievement	Procedure	1.1	Published

To revise a document: open it, select New version, choose Minor or Major, type the summary of change and the content, then Submit for review. Another user approves and publishes it; the author cannot approve their own version.

Export the management review report

88. Open Insight › Reports.

89. Choose the format (PDF, Excel, Word or CSV) and the language.

90. Select Download on Management review input. The report compiles objectives, KPIs, audit results, nonconformities and phase status.

The screenshot shows the 'Nonconformities' section of the DynamicMS application. The left sidebar contains navigation menus for FAVORITES, WORK, GOVERNANCE, and RECORDS. The main content area is titled 'RECORDS' and 'Nonconformities'. It includes a sub-header 'Problems move through five stages: open, analysis, action, verification and closure with lessons learned.' and a '+ Report a problem' button. Below this is a filter bar with 'Open - 2', 'Closed - 8', and 'All'. A table lists two nonconformities:

Code	Title	Source	Criticality	Stage	Detected	Owner	Actions
NC-HZ-UNI-QMS-010	specification not met	Process	Minor	Action	31 Aug 2026	Leila Mansouri	2
NC-HZ-UNI-QMS-009	late delivery to customer	Process	Minor	Verification	27 Jul 2026	Ines Garcia	2

Figure — Nonconformity register of the project.

The screenshot shows the 'Reports' section of the DynamicMS application. The left sidebar is identical to the previous figure. The main content area is titled 'INSIGHT' and 'Reports'. It includes a sub-header 'Every report is computed from the live records of the project and exported in the language you choose.' and an 'Export options' panel. The 'Export options' panel has two sections: 'Format' with radio buttons for PDF (selected), Excel, Word, and CSV; and 'Language' with radio buttons for English (selected), Français, and العربية. To the right of the export options is a grid of report cards, each with a document icon, a title, and a 'Download PDF' button:

- Project status report
- Management review input
- KPI report
- Nonconformity register
- Risk register
- Audit programme
- Master document list
- RACSI matrix
- Execution log

At the bottom of the grid is a section titled 'Report catalog of the process design'.

Figure — Reports: choose the format and language, then download.

Scenario 2 — Universal QHSE (ISO 9001, 14001, 45001)

Organization: Horizon Universal Holdings (HZ-UNI), Large company, vertical UNI, 9167 employees, member of Horizon Industrial Group.

Project: HZ-UNI-QHSE — QHSE full run 2025–2026 — Horizon Universal Holdings. Management system QHSE, mode FULL. Standards: ISO 9001, ISO 14001, ISO 45001. Start 2025-10-15, end 2027-01-13.

Configuration: Solution Pack DMS-ENT, capability packs DMS-AI, DMS-CERT, DMS-ESG, add-ons ADD-01, ADD-04, ADD-06, ADD-07.

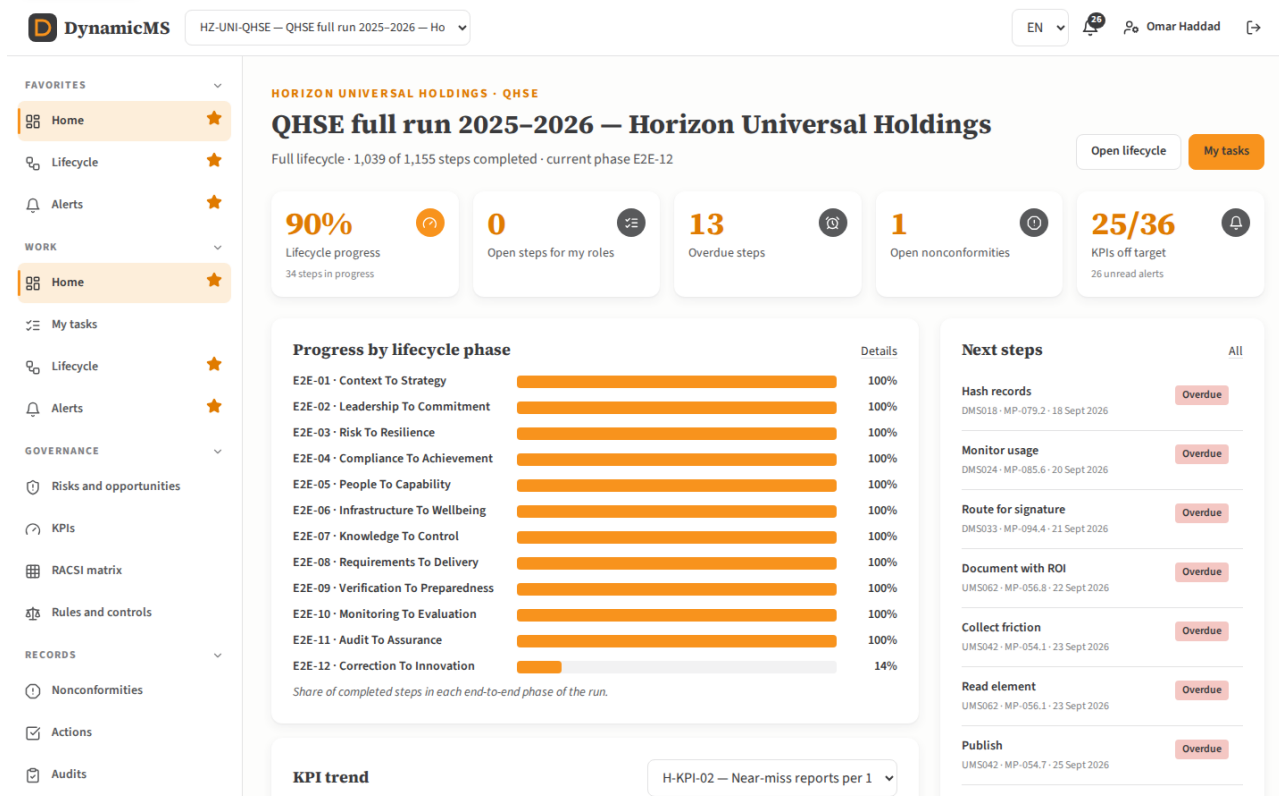

Figure — Home dashboard of HZ-UNI-QHSE: progress by phase, KPI trend and next steps.

Before you start

Accounts of the organization

All accounts use the password Demo@2026. Sign in with the account whose role owns the step you want to complete; the IMS Manager and process owners can complete any step.

Role	Name	E-mail to type
Tenant Administrator	Hind Berrada	admin@horizon-universal.example
AI Governance Officer	Samira Benali	aigov@horizon-universal.example
Internal Audit Manager	Amina Ouazzani	audit@horizon-universal.example
Auditor (read-only)	Youssef El Idrissi	auditor@horizon-universal.example
Top Management	Nabil Zerouali	ceo@horizon-universal.example
Compliance Officer	Hugo Lefevre	compliance@horizon-universal.example
Document Controller	Sofia Bennani	documents@horizon-universal.example

Role	Name	E-mail to type
Employee	Maya Laurent	employee@horizon-universal.example
ESG Manager	Julien Moreau	esg@horizon-universal.example
HR Manager	Rachid Alaoui	hr@horizon-universal.example
HSE Manager	Karim Tazi	hse@horizon-universal.example
IMS Manager	Omar Haddad	ims@horizon-universal.example
IT Manager	Mehdi Fassi	it@horizon-universal.example
Operations Manager	Ines Garcia	operations@horizon-universal.example
Performance Manager	Tariq Saleh	performance@horizon-universal.example
Process Excellence Manager	Adam Rahmani	process@horizon-universal.example
Quality Manager	Leila Mansouri	quality@horizon-universal.example
Risk Manager	Nadia Chraibi	risk@horizon-universal.example
Transformation Manager	Salma Kettani	transformation@horizon-universal.example

Create the project

91. Sign in as the IMS Manager (or the Quality Manager) and open Organization › New project.
92. Select From the catalog.
93. Name: type “QHSE full run 2025–2026 — Horizon Universal Holdings”. Management system: QHSE. Start date: 2025-10-15.
94. Template: choose TPL-UNI-FULL-QHSE — Universal QHSE — full lifecycle (ISO 9001, 14001, 45001).
95. Complexity score: set each criterion level as listed below, then select Create project.

Criterion	Weight	Level to choose
CX-01	20	4
CX-02	10	3
CX-03	20	5
CX-04	15	3
CX-05	15	5
CX-06	10	3
CX-07	10	4

Resulting complexity score: 75 / 100.

Note. The demonstration database already contains this project with its full run. To practise, create a copy with another name, or open the seeded project and follow the steps that are still open.

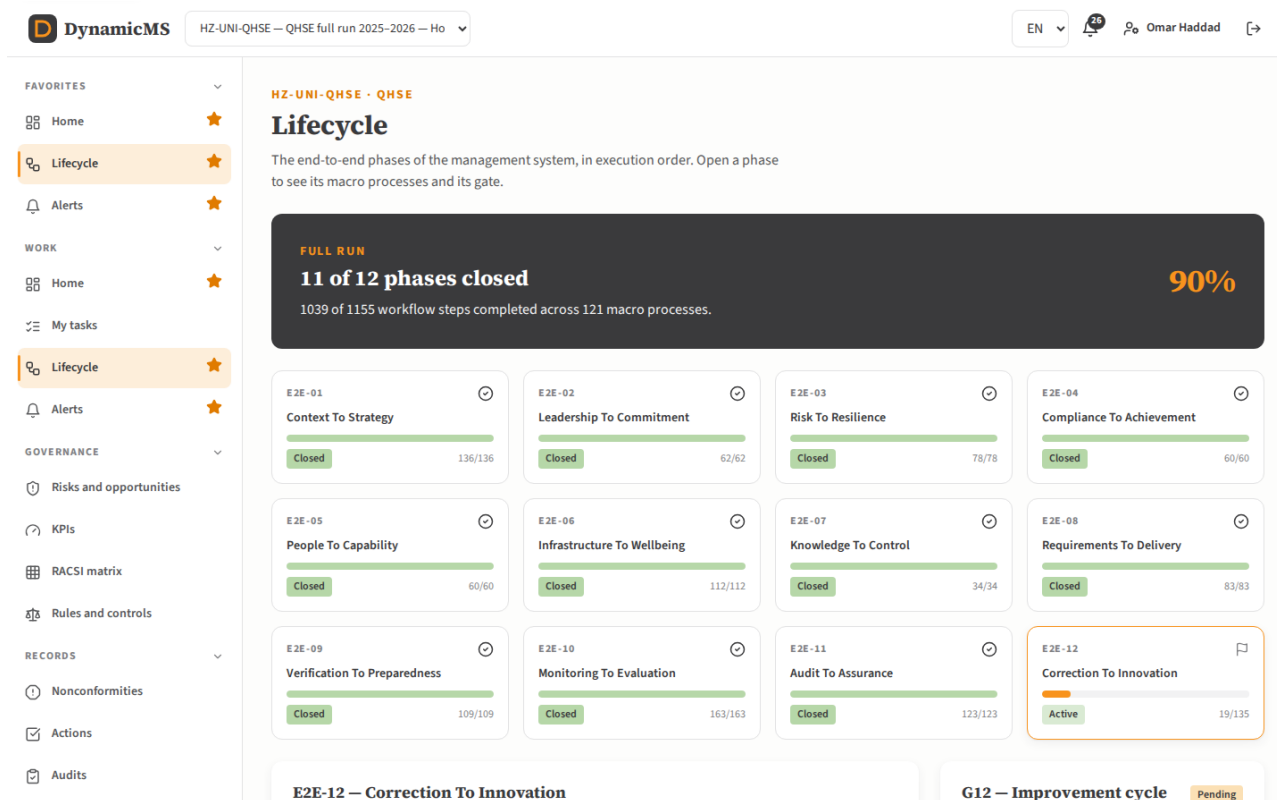

Figure — Lifecycle screen: phase cards with progress and gate status.

Run the lifecycle, phase by phase

The run has 12 phases, 121 macro processes and 1155 steps. For each step the tables give the step identifier, the responsible role, the form and what to type in each field. Values between quotes are typed as shown; choose list values as written.

E2E-01 — Context To Strategy

Goals: Define context, policy, strategy, objectives, compliance, governance

From trigger to terminal event: Strategic planning cycle, management review output, or significant context change → Approved policy, strategy, objectives, risk register, compliance framework in place

UMS016 (MP-001) — Context Analysis and Stakeholder Mapping

Understand internal/external issues; identify interested parties; define IMS scope. Owner: IMS Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-001.1	Fix periodicity of strategic diagnosis Task: Plan & Prepare	IMS Manager Periodicity	Frequency: Annual Next due date: 2026-10-19 Scope / notes: Scope: products and services at Casablanca
MP-001.2	Identify external issues Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents 3. Incomplete or inconsistent To-Be SIPOC published 4. Revision of ISO 9001 Source / evidence: Workshop records and Internal issues
MP-001.3	Identify internal issues	IMS Manager	Items identified (one per line): 1. late delivery to customer 2. specification not met

Step	Step and task	Role · form	What to type
	Task: Plan & Prepare	Register items	3. Workload on core delivery process Source / evidence: Workshop records and Internal issues
MP-001.4	Identify interested parties Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Customers (key accounts) 2. Employees and their representatives 3. Regulators and certification body 4. Suppliers of key accounts Source / evidence: Workshop records and Internal issues
MP-001.5	Determine needs/expectations Task: Execute	IMS Manager Assessment	Score (1–5): 5 Rationale and facts: 22 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-001.6	Validate and cascade Task: Execute	IMS Manager Decision	Decision: Go Approver (Accountable): IMS Manager Decision comment: Context analysis report confirmed against ISO 9001; no blocking issue.
MP-001.7	Identify interactions Task: Execute	IMS Manager Register items	Items identified (one per line): 1. Context analysis report 2. Stakeholder register 3. Requirements matrix Source / evidence: Workshop records and Internal issues
MP-001.8	Define/review scope Task: Verify, Record & Close	IMS Manager Register items	Items identified (one per line): 1. Context analysis report 2. Stakeholder register 3. Requirements matrix Source / evidence: Workshop records and Internal issues
MP-001.9	Document and communicate Task: Verify, Record & Close	IMS Manager Document	Document reference: HZ-UNI-UMS016-09 Version: 1.1 Content summary: Context analysis report for products and services, aligned with ISO 9001.
MP-001.10	Review periodically Task: Verify, Record & Close	IMS Manager Measurement	Indicator: Certificates maintained Measured value: 96.2 Target: 100% Analysis: Trend improving versus last period; target met.

Standards in scope: ISO 9001, ISO 14001, ISO 45001. Suggestion outcome: Edited Final validated text: Draft reviewed by IMS Manager: Policy document covering ISO 9001, ISO 14001.
MP-002.12	Review and approve policy version Task: Manage Management System Policy Lifecycle	IMS Manager Measurement	Indicator: Risks within appetite Measured value: 82.4 Target: >= 90% Analysis: Trend improving versus last period; target met.
MP-002.13	Publish policy and generate downloadable files Task: Manage Management System Policy Lifecycle	DynamicMS Engine Automated service task	System result confirmed: Policy document generated automatically by the DynamicMS Engine

UMS031 (MP-003) — Quality Objectives and Targets Deployment

Cascade strategic objectives; deploy SMART objectives; assign responsibilities; monitor. Owner: IMS Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-003.1	Cascade Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Objectives 2. KPI definitions 3. Action plans Source / evidence: Workshop records and Strategic objectives
MP-003.2	Define SMART Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Objectives 2. KPI definitions 3. Action plans Source / evidence: Workshop records and Strategic objectives
MP-003.3	Align Task: Plan & Prepare	IMS Manager Execution	Evidence of execution: Objectives completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-003.4	Designate responsible Task: Plan & Prepare	IMS Manager Plan	Planned activities (one per line): 1. Deploy 2. Monitor 3. Ensure visibility Start: 2025-10-28 End: 2025-11-30
MP-003.5	Deploy Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Objectives generated automatically by the DynamicMS Engine
MP-003.6	Monitor Task: Execute	IMS Manager Measurement	Indicator: To-Be SIPOC coverage Measured value: 92.3 Target: >= 95% Analysis: Trend improving versus last period; target met.
MP-003.7	Ensure visibility Task: Execute	IMS Manager Execution	Evidence of execution: Objectives completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-003.8	Adjust Task: Verify, Record & Close	IMS Manager Change	Change made: Objectives updated to reflect Use of an obsolete document version. Reason: Result of the periodic review
MP-003.9	Celebrate Task: Verify, Record & Close	IMS Manager Execution	Evidence of execution: Objectives completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-003.10	Translate policy Task: Verify, Record & Close	IMS Manager Change	Change made: Objectives updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

UMS002 (MP-004) — Process Architecture Mapping

Define architecture; identify core/support; map in BPMN; assign RACI. Owner: Process Excellence Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-004.1	Define scope Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Architecture map 2. BPMN diagrams 3. RACI matrix Source / evidence: Workshop records and Scope
MP-004.2	Identify core/support Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Architecture map 2. BPMN diagrams 3. RACI matrix Source / evidence: Workshop records and Scope
MP-004.3	Map in BPMN Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Architecture map 2. BPMN diagrams 3. RACI matrix Source / evidence: Workshop records and Scope

Step	Step and task	Role · form	What to type
MP-004.4	Assign RACI Task: Execute	Process Excellence Manager Assignment	Role: Process Excellence Manager Person / team: Adam Rahmani Scope of responsibility: Process Architecture Mapping for Casablanca site
MP-004.5	Validate Task: Execute	Process Excellence Manager Decision	Decision: Go Approver (Accountable): Process Excellence Manager Decision comment: Architecture map confirmed against ISO 9001; no blocking issue.
MP-004.6	Verify alignment Task: Execute	Process Excellence Manager Assessment	Score (1–5): 4 Rationale and facts: 22 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-004.7	Publish Task: Verify, Record & Close	Process Excellence Manager Document	Document reference: HZ-UNI-UMS002-07 Version: 1.1 Content summary: Architecture map for products and services, aligned with ISO 9001.
MP-004.8	Review Task: Verify, Record & Close	Process Excellence Manager Measurement	Indicator: Access recertification completion Measured value: 100 Target: 100% Analysis: Trend improving versus last period; target met.
MP-004.9	Create functions and decompose into process elements Task: Model Process Element Hierarchy	Process Excellence Manager Execution	Evidence of execution: Architecture map completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-004.10	Flag lowest-level elements as tasks Task: Model Process Element Hierarchy	DynamicMS Engine Automated service task	System result confirmed: Architecture map generated automatically by the DynamicMS Engine
MP-004.11	Generate process map for a function Task: Model Process Element Hierarchy	DynamicMS Engine Automated service task	System result confirmed: Architecture map generated automatically by the DynamicMS Engine
MP-004.12	Compile Macro Process Sheet Task: Compile Macro Process Sheets	Process Excellence Manager Document	Document reference: HZ-UNI-UMS002-12 Version: 2.0 Content summary: Architecture map for products and services, aligned with ISO 9001.
MP-004.13	Group atomic sheets into composite sheet Task: Compile Macro Process Sheets	Process Excellence Manager Execution	Evidence of execution: Architecture map completed on core delivery process; records filed in DynamicMS. Completion (%): 100

UMS023 (MP-005) — SIPOC and Value Stream Mapping

Define SIPOC; map value stream; identify value-added steps; optimize flow. Owner: Process Excellence Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-005.1	Define scope Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.2	Define SIPOC method Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.3	Define suppliers Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. critical supplies supplier A (critical) 2. critical supplies supplier B 3. Logistics provider

Step	Step and task	Role · form	What to type
			Source / evidence: Workshop records and Process scope
MP-005.4	Define inputs Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.5	Define steps Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.6	Define outputs Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.7	Define customers Task: Execute	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.8	Map value stream Task: Verify, Record & Close	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.9	Validate Task: Verify, Record & Close	Process Excellence Manager Decision	Decision: Go Approver (Accountable): Process Excellence Manager Decision comment: SIPOC diagrams confirmed against ISO 9001; no blocking issue.
MP-005.10	Publish Task: Verify, Record & Close	Process Excellence Manager Document	Document reference: HZ-UNI-UMS023-10 Version: 1.1 Content summary: SIPOC diagrams for products and services, aligned with ISO 9001.
MP-005.11	Capture As-Is SIPOC where required Task: Manage As-Is and To-Be SIPOC	Process Excellence Manager Register items	Items identified (one per line): 1. SIPOC diagrams 2. Value stream maps 3. Flow diagrams Source / evidence: Workshop records and Process scope
MP-005.12	Design To-Be SIPOC Task: Manage As-Is and To-Be SIPOC	Process Excellence Manager AI-assisted draft	Context given to the assistant: Inputs: Process scope; Requirements; Customer needs. Standards in scope: ISO 9001, ISO 14001, ISO 45001. Suggestion outcome: Accepted Final validated text: Draft reviewed by Process Excellence Manager: SIPOC diagrams covering ISO 9001, ISO 14001.
MP-005.13	Compare As-Is and To-Be SIPOC Task: Manage As-Is and To-Be SIPOC	DynamicMS Engine Automated service task	System result confirmed: SIPOC diagrams generated automatically by the DynamicMS Engine
MP-005.14	Approve and deploy To-Be version Task: Manage As-Is and To-Be SIPOC	Process Excellence Manager Decision	Decision: Go Approver (Accountable): Process Excellence Manager Decision comment: SIPOC diagrams confirmed against ISO 9001; no blocking issue.

UMS030 (MP-012) — Operational Risk and Opportunity Management

Identify risks/opportunities; assess and prioritize; define actions; monitor. Owner: Risk Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-012.1	Identify risks Task: Plan & Prepare	Risk Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents 3. Incomplete or inconsistent To-Be SIPOC published 4. manual handling Source / evidence: Workshop records and Context data

Step	Step and task	Role · form	What to type
MP-012.2	Identify opportunities Task: Plan & Prepare	Risk Manager Register items	Items identified (one per line): 1. Digitize products and services records to cut cycle time 2. Extend certification to win products and services tenders 3. Supplier development programme for products and services Source / evidence: Workshop records and Context data
MP-012.3	Assess Task: Plan & Prepare	Risk Manager Assessment	Score (1–5): 3 Rationale and facts: 6 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-012.4	Define control actions Task: Execute	Risk Manager Register items	Items identified (one per line): 1. Risk register 2. Opportunity register 3. Action plans Source / evidence: Workshop records and Context data
MP-012.5	Define exploitation actions Task: Execute	Risk Manager Register items	Items identified (one per line): 1. Risk register 2. Opportunity register 3. Action plans Source / evidence: Workshop records and Context data
MP-012.6	Designate responsible Task: Execute	Risk Manager Plan	Planned activities (one per line): 1. Monitor 2. Report 3. Update based on REX Start: 2025-11-07 End: 2025-11-29
MP-012.7	Monitor Task: Verify, Record & Close	Risk Manager Measurement	Indicator: Procedures with BPMN and exception flow Measured value: 88 Target: >= 90% Analysis: Trend improving versus last period; target met.
MP-012.8	Report Task: Verify, Record & Close	Risk Manager Communication	Audience: Process owners; Top mgmt Channel: Portal Key message: Risk register is published. Please read and acknowledge before 2025-11-21.
MP-012.9	Update based on REX Task: Verify, Record & Close	Risk Manager Change	Change made: Risk register updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

UMS044 (MP-027) — Unified Requirements Harmonization

Collect requirements; detect gaps; harmonize; publish and update. Owner: Compliance Officer. Tier 1.

Step	Step and task	Role · form	What to type
MP-027.1	Collect Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Harmonized reference 2. Gap analysis 3. Approval records Source / evidence: Workshop records and Contracts
MP-027.2	Categorize/label Task: Plan & Prepare	Compliance Officer Execution	Evidence of execution: Harmonized reference completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-027.3	Detect gaps Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Harmonized reference 2. Gap analysis 3. Approval records Source / evidence: Workshop records and Contracts
MP-027.4	Conduct workshops Task: Execute	Compliance Officer Execution	Evidence of execution: Harmonized reference completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-027.5	Establish reference Task: Execute	Compliance Officer Execution	Evidence of execution: Harmonized reference completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-027.6	Obtain approval Task: Execute	Compliance Officer Decision	Decision: Hold Approver (Accountable): Compliance Officer Decision comment: Hold until Gap analysis is completed.

Step	Step and task	Role · form	What to type
MP-027.7	Publish Task: Verify, Record & Close	Compliance Officer Document	Document reference: HZ-UNI-UMS044-07 Version: 1.0 Content summary: Harmonized reference for products and services, aligned with ISO 9001.
MP-027.8	Maintain log Task: Verify, Record & Close	Compliance Officer Document	Document reference: HZ-UNI-UMS044-08 Version: 2.0 Content summary: Harmonized reference for products and services, aligned with ISO 9001.
MP-027.9	Update Task: Verify, Record & Close	Compliance Officer Change	Change made: Harmonized reference updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

GRC005 (MP-028) — Regulatory and Compliance Obligations Mapping

Maintain legal register; identify obligations; link to controls; monitor changes. Owner: Compliance Officer. Tier 1.

Step	Step and task	Role · form	What to type
MP-028.1	Maintain legal register Task: Plan & Prepare	Compliance Officer Document	Document reference: HZ-UNI-GRC005-01 Version: 1.1 Content summary: Legal register for products and services, aligned with ISO 9001.
MP-028.2	Identify obligations Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. ISO 9001 2. ISO 14001 3. ISO 45001 Source / evidence: Workshop records and Laws
MP-028.3	Link to policies/controls Task: Plan & Prepare	Compliance Officer Execution	Evidence of execution: Legal register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-028.4	Monitor changes Task: Plan & Prepare	Compliance Officer Measurement	Indicator: Risks within appetite Measured value: 82.4 Target: >= 90% Analysis: Trend improving versus last period; target met.
MP-028.5	Assess impact Task: Execute	Compliance Officer Assessment	Score (1–5): 5 Rationale and facts: 18 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-028.6	Validate Task: Execute	Compliance Officer Decision	Decision: Go Approver (Accountable): Compliance Officer Decision comment: Legal register confirmed against ISO 9001; no blocking issue.
MP-028.7	Adjust policies Task: Execute	Compliance Officer Change	Change made: Legal register updated to reflect specification not met. Reason: Result of the periodic review
MP-028.8	Submit declarations Task: Verify, Record & Close	Compliance Officer Execution	Evidence of execution: Legal register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-028.9	Manage inspections Task: Verify, Record & Close	Compliance Officer Execution	Evidence of execution: Legal register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-028.10	Report compliance Task: Verify, Record & Close	Compliance Officer Communication	Audience: Top mgmt; Regulators Channel: E-mail Key message: Legal register is published. Please read and acknowledge before 2025-12-01.

GRC001 (MP-036) — Policy and Procedure Governance

Define policy lifecycle; identify gaps; validate and approve; publish and renew. Owner: IMS Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-036.1	Define lifecycle Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Policies 2. Procedures 3. Approval records Source / evidence: Workshop records and Policy requirements
MP-036.2	Identify gaps Task: Plan & Prepare	IMS Manager Register items	Items identified (one per line): 1. Policies 2. Procedures 3. Approval records Source / evidence: Workshop records and Policy requirements
MP-036.3	Draft Task: Plan & Prepare	IMS Manager Document	Document reference: HZ-UNI-GRC001-03 Version: 2.0 Content summary: Policies for products and services, aligned with ISO 9001.
MP-036.4	Align Task: Plan & Prepare	IMS Manager Execution	Evidence of execution: Policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-036.5	Submit Task: Execute	IMS Manager Execution	Evidence of execution: Policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-036.6	Validate Task: Execute	IMS Manager Decision	Decision: Go Approver (Accountable): IMS Manager Decision comment: Policies confirmed against ISO 9001; no blocking issue.
MP-036.7	Approve Task: Execute	IMS Manager Decision	Decision: Go Approver (Accountable): IMS Manager Decision comment: Policies confirmed against ISO 9001; no blocking issue.
MP-036.8	Publish Task: Execute	IMS Manager Document	Document reference: HZ-UNI-GRC001-08 Version: 2.0 Content summary: Policies for products and services, aligned with ISO 9001.
MP-036.9	Notify Task: Verify, Record & Close	IMS Manager Communication	Audience: Board; All employees Channel: Portal Key message: Policies is published. Please read and acknowledge before 2025-12-03.
MP-036.10	Schedule renewal Task: Verify, Record & Close	IMS Manager Plan	Planned activities (one per line): 1. Retire Start: 2025-11-19 End: 2026-01-31
MP-036.11	Retire Task: Verify, Record & Close	IMS Manager Closure	Closure evidence: Policies closed; effectiveness verified and evidence archived. Closure date: 2025-11-21

GRC002 (MP-037) — Enterprise Risk Universe and Assessment

Define risk taxonomy; identify scenarios; assess probability/impact; publish heatmap. Owner: Risk Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-037.1	Define taxonomy Task: Plan & Prepare	Risk Manager Register items	Items identified (one per line): 1. Risk taxonomy 2. Risk register 3. Risk scores Source / evidence: Workshop records and Risk taxonomy
MP-037.2	Identify scenarios Task: Plan & Prepare	Risk Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents

Step	Step and task	Role · form	What to type
			3. Incomplete or inconsistent To-Be SIPOC published 4. Revision of ISO 9001 Source / evidence: Workshop records and Risk taxonomy
MP-037.3	Assess probability/impact Task: Plan & Prepare	Risk Manager Assessment	Score (1–5): 3 Rationale and facts: 9 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-037.4	Calculate scores Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Risk taxonomy generated automatically by the DynamicMS Engine
MP-037.5	Designate responsible Task: Execute	Risk Manager Plan	Planned activities (one per line): 1. Link to controls 2. Calculate residual 3. Validate Start: 2025-11-19 End: 2025-12-23
MP-037.6	Link to controls Task: Execute	Risk Manager Execution	Evidence of execution: Risk taxonomy completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-037.7	Calculate residual Task: Verify, Record & Close	DynamicMS Engine Automated service task	System result confirmed: Risk taxonomy generated automatically by the DynamicMS Engine
MP-037.8	Validate Task: Verify, Record & Close	Risk Manager Decision	Decision: Go Approver (Accountable): Risk Manager Decision comment: Risk taxonomy confirmed against ISO 9001; no blocking issue.
MP-037.9	Publish heatmap Task: Verify, Record & Close	Risk Manager Document	Document reference: HZ-UNI-GRC002-09 Version: 1.0 Content summary: Risk taxonomy for products and services, aligned with ISO 9001.

GRC003 (MP-038) — Risk Treatment and Mitigation Planning

Evaluate treatment options; design plans; implement and monitor; document acceptance. Owner: Risk Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-038.1	Evaluate options Task: Plan & Prepare	Risk Manager Assessment	Score (1–5): 4 Rationale and facts: 23 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-038.2	Design plans Task: Plan & Prepare	Risk Manager Plan	Planned activities (one per line): 1. Allocate budget 2. Implement 3. Monitor Start: 2025-11-23 End: 2026-02-06
MP-038.3	Allocate budget Task: Plan & Prepare	Risk Manager Assignment	Role: Risk Manager Person / team: Nadia Chraibi Scope of responsibility: Risk Treatment and Mitigation Planning for Casablanca site
MP-038.4	Implement Task: Execute	Risk Manager Configuration	Setting: Implement Value: Enabled for Casablanca site with Treatment plans Notes: Validated in test before go-live
MP-038.5	Monitor Task: Execute	Risk Manager Measurement	Indicator: Document approval cycle time Measured value: 5.2 Target: <= 5 days Analysis: Trend improving versus last period; target met.
MP-038.6	Reassess Task: Execute	Risk Manager Execution	Evidence of execution: Treatment plans completed on core delivery process; records filed in DynamicMS. Completion (%): 100

Step	Step and task	Role · form	What to type
MP-038.7	Escalate Task: Verify, Record & Close	Risk Manager Escalation	Escalated to: Top Management Reason: Treatment plans exceeds tolerance; decision needed on resources.
MP-038.8	Document acceptance Task: Verify, Record & Close	Risk Manager Document	Document reference: HZ-UNI-GRC003-08 Version: 2.0 Content summary: Treatment plans for products and services, aligned with ISO 9001.

DMS034 (MP-095) — Industry-Specific Compliance Pack Management

Provide pre-built packs; support IATF/ISO 13485/AS9100/FSSC/GMP; rapid deployment. Owner: Compliance Officer. Tier 5.

Step	Step and task	Role · form	What to type
MP-095.1	Define packs Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Compliance packs 2. Pre-configured workflows 3. Standards libraries Source / evidence: Workshop records and Industry standards
MP-095.2	Build workflows Task: Plan & Prepare	Compliance Officer Execution	Evidence of execution: Compliance packs completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-095.3	Provide checklists Task: Plan & Prepare	Compliance Officer Configuration	Setting: Provide checklists Value: Enabled for Casablanca site with Compliance packs Notes: Validated in test before go-live
MP-095.4	Pre-load standards Task: Plan & Prepare	Compliance Officer Execution	Evidence of execution: Compliance packs completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-095.5	Configure KPIs Task: Execute	Compliance Officer Configuration	Setting: Configure KPIs Value: Enabled for Casablanca site with Compliance packs Notes: Validated in test before go-live
MP-095.6	Provide templates Task: Execute	Compliance Officer Configuration	Setting: Provide templates Value: Enabled for Casablanca site with Compliance packs Notes: Validated in test before go-live
MP-095.7	Validate with experts Task: Execute	Compliance Officer Decision	Decision: Go Approver (Accountable): Compliance Officer Decision comment: Compliance packs confirmed against ISO 9001; no blocking issue.
MP-095.8	Deploy Task: Verify, Record & Close	DynamicMS Engine Automated service task	System result confirmed: Compliance packs generated automatically by the DynamicMS Engine
MP-095.9	Update on revisions Task: Verify, Record & Close	Compliance Officer Change	Change made: Compliance packs updated to reflect specification not met. Reason: Result of the periodic review
MP-095.10	Report usage Task: Verify, Record & Close	Compliance Officer Communication	Audience: Tenant organizations; Quality mgrs Channel: E-mail Key message: Compliance packs is published. Please read and acknowledge before 2025-12-12.

DMS044 (MP-105) — Compliance Calendar and Obligation Scheduler

Centralize obligations; schedule tasks/deadlines; send reminders; track status. Owner: Compliance Officer. Tier 5.

Step	Step and task	Role · form	What to type
MP-105.1	Aggregate obligations	DynamicMS Engine	System result confirmed: Compliance calendar generated

Step	Step and task	Role · form	What to type
	Task: Plan & Prepare	Automated service task	automatically by the DynamicMS Engine
MP-105.2	Define recurrence Task: Plan & Prepare	Compliance Officer Register items	Items identified (one per line): 1. Compliance calendar 2. Obligation register 3. Reminder records Source / evidence: Workshop records and Legal requirements
MP-105.3	Assign owners Task: Plan & Prepare	Compliance Officer Assignment	Role: Compliance Officer Person / team: Hugo Lefevre Scope of responsibility: Compliance Calendar and Obligation Scheduler for Casablanca site
MP-105.4	Schedule reminders Task: Plan & Prepare	Compliance Officer Plan	Planned activities (one per line): 1. Integrate task mgmt 2. Track status 3. Provide dashboard Start: 2025-11-27 End: 2026-01-05
MP-105.5	Integrate task mgmt Task: Execute	Compliance Officer Configuration	Setting: Integrate task mgmt Value: Enabled for Casablanca site with Compliance calendar Notes: Validated in test before go-live
MP-105.6	Track status Task: Execute	Compliance Officer Measurement	Indicator: Distribution acknowledgement rate Measured value: 89.5 Target: >= 95% Analysis: Trend improving versus last period; target met.
MP-105.7	Provide dashboard Task: Execute	Compliance Officer Configuration	Setting: Provide dashboard Value: Enabled for Casablanca site with Compliance calendar Notes: Validated in test before go-live
MP-105.8	Alert on deadlines Task: Verify, Record & Close	Compliance Officer Communication	Audience: Compliance; Process owners Channel: Notice board Key message: Compliance calendar is published. Please read and acknowledge before 2025-12-17.
MP-105.9	Report metrics Task: Verify, Record & Close	Compliance Officer Communication	Audience: Compliance; Process owners Channel: Meeting Key message: Compliance calendar is published. Please read and acknowledge before 2025-12-15.
MP-105.10	Update Task: Verify, Record & Close	Compliance Officer Change	Change made: Compliance calendar updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

Gate — G1 — Strategy baseline approved

Exit criteria: Context, policy, objectives and risk register approved by top management.

96. Open Lifecycle and select the phase card; the gate panel is on the right.
97. Tick “Context analysis report approved (mandatory, evidence required)”.
98. Tick “Management system policy signed (mandatory, evidence required)”.
99. Tick “SMART objectives cascaded to functions (mandatory, evidence required)”.
100. Tick “Risk and opportunity register reviewed (mandatory, evidence required)”.
101. Tick “Process map published”.
102. Sign in as Top Management (ceo@...) or the IMS Manager and select Go. For Hold or No-Go, type a comment explaining why.

E2E-02 — Leadership To Commitment

Goals: Establish leadership, competence, communication, audit capability

From trigger to terminal event: E2E-01 completion or leadership change → Competent personnel, communication plan, qualified auditors in place

UMS006 (MP-013) — Competence and Training Orchestration

Define competence frameworks; assess gaps; deliver training; track certifications. Owner: HR Manager. Tier 1.

Step	Step and task	Role · form	What to type
MP-013.1	Define frameworks Task: Plan & Prepare	HR Manager Register items	Items identified (one per line): 1. Competence records 2. Training records 3. Certifications Source / evidence: Workshop records and Competence requirements
MP-013.2	Assess gaps Task: Plan & Prepare	HR Manager Assessment	Score (1–5): 5 Rationale and facts: 14 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-013.3	Design curricula Task: Plan & Prepare	HR Manager Plan	Planned activities (one per line): 1. Plan 2. Deliver 3. Evaluate Start: 2025-11-30 End: 2026-01-11

UMS046 (MP-043) — Personal Data Protection Management

Maintain processing register; manage data subject requests; conduct DPIAs; monitor. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-043.1	Maintain register Task: Plan & Prepare	IT Manager Document	Document reference: HZ-UNI-UMS046-01 Version: 1.1 Content summary: Processing register for products and

Step	Step and task	Role · form	What to type
			services, aligned with ISO 9001.
MP-043.2	Manage requests Task: Plan & Prepare	IT Manager Execution	Evidence of execution: Processing register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-043.3	Conduct DPIAs Task: Plan & Prepare	IT Manager Execution	Evidence of execution: Processing register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-043.4	Maintain consents Task: Execute	IT Manager Execution	Evidence of execution: Processing register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-043.5	Monitor transfers Task: Execute	IT Manager Measurement	Indicator: To-Be SIPOC coverage Measured value: 92.3 Target: >= 95% Analysis: Trend improving versus last period; target met.
MP-043.6	Detect/report breaches Task: Execute	IT Manager Register items	Items identified (one per line): 1. Processing register 2. DPIA reports 3. Consent records Source / evidence: Workshop records and GDPR
MP-043.7	Manage retention Task: Verify, Record & Close	IT Manager Execution	Evidence of execution: Processing register completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-043.8	Train Task: Verify, Record & Close	IT Manager Training	Session / module: Personal Data Protection Management — awareness and practice session Participants: 36 Effectiveness (%): 82
MP-043.9	Report Task: Verify, Record & Close	IT Manager Communication	Audience: Top mgmt; Board Channel: E-mail Key message: Processing register is published. Please read and acknowledge before 2026-03-15.

UMS049 (MP-045) — Access, Security, and Role Governance

Define RBAC; assign roles/SoD; process access requests; monitor. Owner: Tenant Administrator. Tier 2.

Step	Step and task	Role · form	What to type
MP-045.1	Define RBAC Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. RBAC policies 2. Role assignments 3. Access records Source / evidence: Workshop records and RBAC policies
MP-045.2	Assign roles Task: Plan & Prepare	Tenant Administrator Assignment	Role: Tenant Administrator Person / team: Hind Berrada Scope of responsibility: Access, Security, and Role Governance for Casablanca site
MP-045.3	Define SoD Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. RBAC policies 2. Role assignments 3. Access records Source / evidence: Workshop records and RBAC policies
MP-045.4	Process requests Task: Execute	Tenant Administrator Execution	Evidence of execution: RBAC policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-045.5	Conduct recertification Task: Execute	Tenant Administrator Execution	Evidence of execution: RBAC policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-045.6	Monitor privileged Task: Execute	Tenant Administrator Measurement	Indicator: Access recertification completion Measured value: 100 Target: 100% Analysis: Trend improving versus last period; target met.

Step	Step and task	Role · form	What to type
MP-045.7	Remediate SoD Task: Verify, Record & Close	Tenant Administrator Change	Change made: RBAC policies updated to reflect specification not met. Reason: Result of the periodic review
MP-045.8	Maintain trails Task: Verify, Record & Close	Tenant Administrator Document	Document reference: HZ-UNI-UMS049-08 Version: 1.1 Content summary: RBAC policies for products and services, aligned with ISO 9001.

UMS051 (MP-046) — Application and Interface Repository

Identify applications/owners; document lifecycle; map interfaces; maintain schemas. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-046.1	Identify apps/owners Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. App inventory 2. Interface maps 3. API specs Source / evidence: Workshop records and Application inventory
MP-046.2	Document purpose Task: Plan & Prepare	IT Manager Document	Document reference: HZ-UNI-UMS051-02 Version: 1.1 Content summary: App inventory for products and services, aligned with ISO 9001.
MP-046.3	Map interfaces Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. App inventory 2. Interface maps 3. API specs Source / evidence: Workshop records and Application inventory
MP-046.4	Define APIs Task: Execute	IT Manager Register items	Items identified (one per line): 1. App inventory 2. Interface maps 3. API specs Source / evidence: Workshop records and Application inventory
MP-046.5	Maintain schemas Task: Execute	IT Manager Execution	Evidence of execution: App inventory completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-046.6	Assess obsolescence Task: Execute	IT Manager Assessment	Score (1–5): 4 Rationale and facts: 19 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-046.7	Publish Task: Verify, Record & Close	IT Manager Document	Document reference: HZ-UNI-UMS051-07 Version: 2.0 Content summary: App inventory for products and services, aligned with ISO 9001.
MP-046.8	Update Task: Verify, Record & Close	IT Manager Change	Change made: App inventory updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

UMS052 (MP-047) — Technology and Architecture Lifecycle

Define standards; evaluate new technologies; manage upgrades; monitor obsolescence. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-047.1	Define standards Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. ISO 9001 2. ISO 14001

Step	Step and task	Role · form	What to type
			3. ISO 45001 Source / evidence: Workshop records and Technology standards
MP-047.2	Evaluate technologies Task: Plan & Prepare	IT Manager Assessment	Score (1–5): 4 Rationale and facts: 9 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-047.3	Establish roadmaps Task: Plan & Prepare	IT Manager Plan	Planned activities (one per line): 1. Manage upgrades 2. Conduct reviews 3. Monitor obsolescence Start: 2026-03-11 End: 2026-04-06
MP-047.4	Manage upgrades Task: Execute	IT Manager Execution	Evidence of execution: Standards completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-047.5	Conduct reviews Task: Execute	IT Manager Execution	Evidence of execution: Standards completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-047.6	Monitor obsolescence Task: Execute	IT Manager Measurement	Indicator: Continuity test success Measured value: 100 Target: 100% Analysis: Trend improving versus last period; target met.
MP-047.7	Plan decommissioning Task: Verify, Record & Close	IT Manager Plan	Planned activities (one per line): 1. Communicate Start: 2026-03-11 End: 2026-04-06
MP-047.8	Communicate Task: Verify, Record & Close	IT Manager Communication	Audience: DSI; IT teams Channel: Meeting Key message: Standards is published. Please read and acknowledge before 2026-03-27.

UMS059 (MP-048) — Tenant Sovereignty and Security Governance

Define isolation policies; map residency; implement jurisdictional controls; audit. Owner: Tenant Administrator. Tier 2.

Step	Step and task	Role · form	What to type
MP-048.1	Define policies Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Isolation policies 2. Residency maps 3. Compliance certificates Source / evidence: Workshop records and Isolation policies
MP-048.2	Map residency Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Isolation policies 2. Residency maps 3. Compliance certificates Source / evidence: Workshop records and Isolation policies
MP-048.3	Implement controls Task: Plan & Prepare	Tenant Administrator Configuration	Setting: Implement controls Value: Enabled for Casablanca site with Isolation policies Notes: Validated in test before go-live
MP-048.4	Monitor segregation Task: Execute	Tenant Administrator Measurement	Indicator: Certificates maintained Measured value: 96.2 Target: 100% Analysis: Trend improving versus last period; target met.
MP-048.5	Manage gov access Task: Execute	Tenant Administrator Execution	Evidence of execution: Isolation policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-048.6	Conduct audits Task: Execute	Tenant Administrator Execution	Evidence of execution: Isolation policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100

Step	Step and task	Role · form	What to type
MP-048.7	Maintain certificates Task: Verify, Record & Close	Tenant Administrator Execution	Evidence of execution: Isolation policies completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-048.8	Update Task: Verify, Record & Close	Tenant Administrator Change	Change made: Isolation policies updated to reflect specification not met. Reason: Result of the periodic review

UMS056 (MP-059) — Configuration and Parameter Governance

Catalog parameters; define environment values; implement change control; monitor drift. Owner: Tenant Administrator. Tier 2.

Step	Step and task	Role · form	What to type
MP-059.1	Catalog parameters Task: Plan & Prepare	Tenant Administrator Execution	Evidence of execution: Parameter catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-059.2	Define values Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Parameter catalog 2. Config records 3. Change records Source / evidence: Workshop records and Configurable parameters
MP-059.3	Change control Task: Plan & Prepare	Tenant Administrator Execution	Evidence of execution: Parameter catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-059.4	Test Task: Execute	Tenant Administrator Assessment	Score (1–5): 5 Rationale and facts: 7 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-059.5	Deploy with rollback Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Parameter catalog generated automatically by the DynamicMS Engine
MP-059.6	Maintain logs Task: Execute	Tenant Administrator Document	Document reference: HZ-UNI-UMS056-06 Version: 1.0 Content summary: Parameter catalog for products and services, aligned with ISO 9001.
MP-059.7	Monitor drift Task: Verify, Record & Close	Tenant Administrator Measurement	Indicator: Procedures with BPMN and exception flow Measured value: 88 Target: >= 90% Analysis: Trend improving versus last period; target met.
MP-059.8	Document dependencies Task: Verify, Record & Close	Tenant Administrator Document	Document reference: HZ-UNI-UMS056-08 Version: 1.1 Content summary: Parameter catalog for products and services, aligned with ISO 9001.
MP-059.9	Name hierarchy levels Task: Configure Process Framework	Tenant Administrator Execution	Evidence of execution: Parameter catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-059.10	Configure drop-down value lists Task: Configure Process Framework	Tenant Administrator Configuration	Setting: Configure drop-down value lists Value: Enabled for Casablanca site with Parameter catalog Notes: Validated in test before go-live
MP-059.11	Configure custom sheet sections Task: Configure Process Framework	Tenant Administrator Configuration	Setting: Configure custom sheet sections Value: Enabled for Casablanca site with Parameter catalog Notes: Validated in test before go-live
MP-059.12	Maintain branded templates per document type Task: Configure Document Templates & Versioning	Tenant Administrator Execution	Evidence of execution: Parameter catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-059.13	Configure versioning and retention scheme	Tenant Administrator	Setting: Configure versioning and retention scheme

Step	Step and task	Role · form	What to type
	Task: Configure Document Templates & Versioning	Configuration	Value: Enabled for Casablanca site with Parameter catalog Notes: Validated in test before go-live

DMS058 (MP-119) — Asset Reliability and Maintenance Management

Manage reliability per ISO 55001; optimize maintenance; maximize availability. Owner: Operations Manager. Tier 6.

Step	Step and task	Role · form	What to type
MP-119.1	Register assets Task: Plan & Prepare	Operations Manager Document	Document reference: HZ-UNI-DMS058-01 Version: 1.1 Content summary: Asset register for products and services, aligned with ISO 9001.

Gate — G6 — Infrastructure secured

Exit criteria: Access rights recertified; data protection register complete; assets under maintenance plan.

123. Open Lifecycle and select the phase card; the gate panel is on the right.
124. Tick “Access rights recertified (mandatory, evidence required)”.
125. Tick “Processing register complete (mandatory, evidence required)”.
126. Tick “Asset register reconciled”.
127. Sign in as Top Management (ceo@...) or the IMS Manager and select Go. For Hold or No-Go, type a comment explaining why.

E2E-07 — Knowledge To Control

Goals: Govern data, formulas, calculations, knowledge

From trigger to terminal event: Data governance requirement, formula change, or knowledge gap
→ Governed data, formulas, calculations, knowledge graph

UMS048 (MP-044) — Data Governance and Master Data Quality

Define domains/owners; establish rules; profile and clean; monitor. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-044.1	Define domains Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. Data domains 2. Quality rules 3. Cleansing records Source / evidence: Workshop records and Data domains
MP-044.2	Establish rules Task: Plan & Prepare	IT Manager Execution	Evidence of execution: Data domains completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-044.3	Implement profiling Task: Plan & Prepare	IT Manager Configuration	Setting: Implement profiling Value: Enabled for Casablanca site with Data domains Notes: Validated in test before go-live
MP-044.4	Manage lineage Task: Execute	IT Manager Execution	Evidence of execution: Data domains completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-044.5	Operate MDM Task: Execute	IT Manager Configuration	Setting: Operate MDM Value: Enabled for Casablanca site with Data domains Notes: Validated in test before go-live
MP-044.6	Monitor dashboards Task: Execute	IT Manager Measurement	Indicator: Document approval cycle time Measured value: 5.2 Target: <= 5 days Analysis: Trend improving versus last period; target met.
MP-044.7	Resolve incidents Task: Verify, Record & Close	IT Manager Execution	Evidence of execution: Data domains completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-044.8	Report scores Task: Verify, Record & Close	IT Manager Communication	Audience: Top mgmt; Data consumers Channel: Meeting Key message: Data domains is published. Please read and acknowledge before 2026-04-19.
MP-044.9	Maintain customizable value lists Task: Govern Custom Value Lists	IT Manager Execution	Evidence of execution: Data domains completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-044.10	Retire unused custom values Task: Govern Custom Value Lists	IT Manager Closure	Closure evidence: Data domains closed; effectiveness verified and evidence archived. Closure date: 2026-04-10

UMS054 (MP-057) — Formula Repository and Variable Governance

Catalog formulas; define syntax; validate; version and publish. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-057.1	Catalog formulas Task: Plan & Prepare	IT Manager Execution	Evidence of execution: Formula repository completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-057.2	Define syntax Task: Plan & Prepare	IT Manager Register items	Items identified (one per line): 1. Formula repository 2. Syntax definitions 3. Validation records Source / evidence: Workshop records and Business formulas
MP-057.3	Validate Task: Plan & Prepare	IT Manager Decision	Decision: Go Approver (Accountable): IT Manager Decision comment: Formula repository confirmed against ISO 9001; no blocking issue.
MP-057.4	Version Task: Execute	IT Manager Execution	Evidence of execution: Formula repository completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-057.5	Publish Task: Execute	IT Manager Document	Document reference: HZ-UNI-UMS054-05 Version: 1.1 Content summary: Formula repository for products and services, aligned with ISO 9001.
MP-057.6	Change control Task: Execute	IT Manager Execution	Evidence of execution: Formula repository completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-057.7	Link to data Task: Verify, Record & Close	IT Manager Execution	Evidence of execution: Formula repository completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-057.8	Provide search Task: Verify, Record & Close	IT Manager Configuration	Setting: Provide search Value: Enabled for Casablanca site with Formula repository Notes: Validated in test before go-live

UMS055 (MP-058) — Formula Execution and Traceability Orchestration

Deploy formulas; ingest data; execute calculations; log and trace. Owner: IT Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-058.1	Deploy Task: Plan & Prepare	DynamicMS Engine Automated service task	System result confirmed: Calculation results generated automatically by the DynamicMS Engine
MP-058.2	Ingest Task: Plan & Prepare	DynamicMS Engine Automated service task	System result confirmed: Calculation results generated automatically by the DynamicMS Engine
MP-058.3	Execute Task: Plan & Prepare	IT Manager Execution	Evidence of execution: Calculation results completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-058.4	Log parameters Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Calculation results generated automatically by the DynamicMS Engine
MP-058.5	Capture steps Task: Execute	IT Manager Register items	Items identified (one per line): 1. Calculation results 2. Traceability logs 3. Parameter records Source / evidence: Workshop records and Formulas
MP-058.6	Store with traceability Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Calculation results generated automatically by the DynamicMS Engine
MP-058.7	Ensure traceability Task: Verify, Record & Close	IT Manager Execution	Evidence of execution: Calculation results completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-058.8	Detect anomalies Task: Verify, Record & Close	IT Manager Register items	Items identified (one per line): 1. Calculation results 2. Traceability logs 3. Parameter records Source / evidence: Workshop records and Formulas

DMS013 (MP-074) — Knowledge Graph and Semantic Search

Build knowledge graph; enable semantic search; connect information; power AI. Owner: Document Controller. Tier 3.

Step	Step and task	Role · form	What to type
MP-074.1	Define schema Task: Plan & Prepare	Document Controller Register items	Items identified (one per line): 1. Knowledge graph 2. Search index 3. Query results Source / evidence: Workshop records and IMS data
MP-074.2	Extract entities/relationships Task: Plan & Prepare	Document Controller Register items	Items identified (one per line): 1. Knowledge graph 2. Search index 3. Query results Source / evidence: Workshop records and IMS data

MP-041.8	Audit Task: Verify, Record & Close	Transformation Manager Measurement	Indicator: Competence gap closure rate Measured value: 82.3 Target: >= 80% Analysis: Trend improving versus last period; target met.
MP-041.9	Correct Task: Verify, Record & Close	Transformation Manager Change	Change made: AI policy updated to reflect Use of an obsolete document version. Reason: Result of the periodic review
MP-041.10	Update Task: Verify, Record & Close	Transformation Manager Change	Change made: AI policy updated to reflect Use of an obsolete document version. Reason: Result of the periodic review
MP-041.11	Activate AI use cases by scope Task: Administer AI Use Cases	Transformation Manager Configuration	Setting: Activate AI use cases by scope Value: Enabled for Casablanca site with AI policy Notes: Validated in test before go-live
MP-041.12	Approve custom AI use cases Task: Administer AI Use Cases	Transformation Manager Decision	Decision: Go Approver (Accountable): Transformation Manager Decision comment: AI policy confirmed against ISO 9001; no blocking issue.

UMS041 (MP-053) — Optimization and Automation Project Management

Set periodicity; identify opportunities; manage projects; validate benefits. Owner: Transformation Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-053.1	Set periodicity Task: Plan & Prepare	Transformation Manager Periodicity	Frequency: Monthly Next due date: 2026-10-24 Scope / notes: Scope: products and services at Casablanca
MP-053.2	Identify opportunities Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Digitize products and services records to cut cycle time 2. Extend certification to win products and services tenders 3. Supplier development programme for products and services Source / evidence: Workshop records and Opportunities
MP-053.3	Define scope Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Optimization projects 2. Automation records 3. Benefit validation Source / evidence: Workshop records and Opportunities
MP-053.4	Manage BPR Task: Execute	Transformation Manager Execution	Evidence of execution: Optimization projects completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-053.5	Manage automation Task: Execute	Transformation Manager Execution	Evidence of execution: Optimization projects completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-053.6	Track milestones Task: Execute	Transformation Manager Measurement	Indicator: Distribution acknowledgement rate Measured value: 89.5 Target: >= 95% Analysis: Trend improving versus last period; target met.

Step	Step and task	Role · form	What to type
MP-053.7	Validate benefits Task: Verify, Record & Close	Transformation Manager Decision	Decision: Go Approver (Accountable): Transformation Manager Decision comment: Optimization projects confirmed against ISO 9001; no blocking issue.
MP-053.8	Standardize Task: Verify, Record & Close	Transformation Manager Change	Change made: Optimization projects updated to reflect Use of an obsolete document version. Reason: Result of the periodic review
MP-053.9	Transfer Task: Verify, Record & Close	Transformation Manager Execution	Evidence of execution: Optimization projects in progress on core delivery process; remaining items tracked. Completion (%): 53

UMS042 (MP-054) — Macro Process Discovery and Prioritization

Collect friction points; score processes; define prioritization; publish. Owner: Process Excellence Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-054.1	Collect friction Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. late delivery to customer 2. specification not met 3. Workload on core delivery process Source / evidence: Workshop records and Friction points
MP-054.2	Score processes Task: Plan & Prepare	Process Excellence Manager Assessment	Score (1–5): 5 Rationale and facts: 22 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-054.3	Define criteria Task: Plan & Prepare	Process Excellence Manager Register items	Items identified (one per line): 1. Prioritization portfolio 2. Scoring records 3. Validation records Source / evidence: Workshop records and Friction points
MP-054.4	Rank Task: Execute	Process Excellence Manager Assessment	Score (1–5): 4 Rationale and facts: 6 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-054.5	Validate Task: Execute	Process Excellence Manager Decision	Decision: Hold Approver (Accountable): Process Excellence Manager Decision comment: Hold until Scoring records is completed.
MP-054.6	Build portfolio Task: Execute	Process Excellence Manager Plan	Planned activities (one per line): 1. Publish 2. Revise quarterly Start: 2026-10-10 End: 2026-11-30
MP-054.7	Publish Task: Verify, Record & Close	Process Excellence Manager Document	Document reference: HZ-UNI-UMS042-07 Version: 0.9 Content summary: Prioritization portfolio for products and services, aligned with ISO 9001.
MP-054.8	Revise quarterly Task: Verify, Record & Close	Process Excellence Manager Change	Change made: Prioritization portfolio updated to reflect specification not met. Reason: Result of the periodic review

UMS057 (MP-055) — Enterprise Simulation and Digital Twin

Build digital twin; calibrate; define scenarios; run simulations; validate. Owner: Transformation Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-055.1	Build model Task: Plan & Prepare	Transformation Manager AI-assisted draft	Context given to the assistant: Inputs: Process data; Historical data; Scenario definitions. Standards in scope: ISO 9001, ISO

Step	Step and task	Role · form	What to type
			14001, ISO 45001. Suggestion outcome: Edited Final validated text: Draft reviewed by Transformation Manager: Digital twin model covering ISO 9001, ISO 14001.
MP-055.2	Calibrate Task: Plan & Prepare	Transformation Manager Execution	Evidence of execution: Digital twin model in progress on core delivery process; remaining items tracked. Completion (%): 59
MP-055.3	Define scenarios Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Use of an obsolete document version 2. Unauthorized approval of governed documents 3. Incomplete or inconsistent To-Be SIPOC published 4. Revision of ISO 9001 Source / evidence: Workshop records and Process data
MP-055.4	Run simulations Task: Execute	Transformation Manager Execution	Evidence of execution: Digital twin model in progress on core delivery process; remaining items tracked. Completion (%): 71
MP-055.5	Compare Task: Execute	Transformation Manager Assessment	Score (1–5): 4 Rationale and facts: 21 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-055.6	Validate Task: Execute	Transformation Manager Decision	Decision: Hold Approver (Accountable): Transformation Manager Decision comment: Hold until Simulation results is completed.
MP-055.7	Present Task: Verify, Record & Close	Transformation Manager Communication	Audience: Top mgmt; Board Channel: E-mail Key message: Digital twin model is published. Please read and acknowledge before 2026-10-13.
MP-055.8	Update Task: Verify, Record & Close	Transformation Manager Change	Change made: Digital twin model updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

UMS062 (MP-056) — Process Element Automation Scoring

Read element; score human/workflow/RPA/AI axes; cite facts; document with ROI. Owner: Transformation Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-056.1	Read element Task: Plan & Prepare	Transformation Manager Execution	Evidence of execution: Automation scores in progress on core delivery process; remaining items tracked. Completion (%): 54
MP-056.2	Score Human Task: Plan & Prepare	Transformation Manager Assessment	Score (1–5): 2 Rationale and facts: 17 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-056.3	Score Workflow Task: Plan & Prepare	Transformation Manager Assessment	Score (1–5): 5 Rationale and facts: 19 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-056.4	Score RPA Task: Execute	Transformation Manager Assessment	Score (1–5): 2 Rationale and facts: 16 evidence items reviewed. Main driver: Unauthorized approval of governed documents. Linked standard: ISO 9001.
MP-056.5	Score AI Task: Execute	Transformation Manager AI-assisted draft	Context given to the assistant: Inputs: Process element; Automation criteria; ROI criteria. Standards in scope: ISO 9001, ISO 14001, ISO 45001. Suggestion outcome: Edited Final validated text: Draft reviewed by Transformation Manager: Automation scores covering ISO 9001, ISO 14001.
MP-056.6	Cite facts	Transformation Manager	Evidence of execution: Automation scores in progress on core

Step	Step and task	Role · form	What to type
	Task: Execute	Execution	delivery process; remaining items tracked. Completion (%): 73
MP-056.7	Identify predominant Task: Verify, Record & Close	Transformation Manager Register items	Items identified (one per line): 1. Automation scores 2. Predominant axis 3. Documentation Source / evidence: Workshop records and Process element
MP-056.8	Document with ROI Task: Verify, Record & Close	Transformation Manager Document	Document reference: HZ-UNI-UMS062-08 Version: 0.9 Content summary: Automation scores for products and services, aligned with ISO 9001.

UMS063 (MP-060) — ROI Lifecycle Management

Define ROI formula; define thresholds; validate with CFO; register and communicate. Owner: Transformation Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-060.1	Define formula Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. ROI formula 2. Threshold definitions 3. Validation records Source / evidence: Workshop records and ROI requirements
MP-060.2	Define thresholds Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. ROI formula 2. Threshold definitions 3. Validation records Source / evidence: Workshop records and ROI requirements
MP-060.3	Define scope Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. ROI formula 2. Threshold definitions 3. Validation records Source / evidence: Workshop records and ROI requirements
MP-060.4	Validate with CFO Task: Execute	Transformation Manager Decision	Decision: Hold Approver (Accountable): Transformation Manager Decision comment: Hold until Threshold definitions is completed.
MP-060.5	Register in UMS054 Task: Execute	Transformation Manager Document	Document reference: HZ-UNI-UMS063-05 Version: 0.9 Content summary: ROI formula for products and services, aligned with ISO 9001.
MP-060.6	Communicate Task: Execute	Transformation Manager Communication	Audience: Top mgmt; All consumers Channel: E-mail Key message: ROI formula is published. Please read and acknowledge before 2026-10-13.
MP-060.7	Schedule review Task: Verify, Record & Close	Transformation Manager Plan	Planned activities (one per line): 1. Update 2. Archive obsolete Start: 2026-10-03 End: 2026-11-06
MP-060.8	Update Task: Verify, Record & Close	Transformation Manager Change	Change made: ROI formula updated to reflect specification not met. Reason: Result of the periodic review
MP-060.9	Archive obsolete Task: Verify, Record & Close	Transformation Manager Closure	Closure evidence: ROI formula closed; effectiveness verified and evidence archived. Closure date: 2026-10-01

UMS064 (MP-061) — VOI Lifecycle Management

Define VOI composition; weightings/profiles; validate; register and communicate. Owner: Transformation Manager. Tier 2.

Step	Step and task	Role · form	What to type
MP-061.1	Define composition Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. VOI composition 2. Weighting definitions 3. Benefit profiles Source / evidence: Workshop records and VOI requirements
MP-061.2	Define weightings Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. VOI composition 2. Weighting definitions 3. Benefit profiles Source / evidence: Workshop records and VOI requirements
MP-061.3	Define profiles Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. VOI composition 2. Weighting definitions 3. Benefit profiles Source / evidence: Workshop records and VOI requirements
MP-061.4	Validate with Committee Task: Execute	Transformation Manager Decision	Decision: Hold Approver (Accountable): Transformation Manager Decision comment: Hold until Weighting definitions is completed.
MP-061.5	Register in UMS054 Task: Execute	Transformation Manager Document	Document reference: HZ-UNI-UMS064-05 Version: 1.0 Content summary: VOI composition for products and services, aligned with ISO 9001.
MP-061.6	Communicate Task: Execute	Transformation Manager Communication	Audience: Top mgmt; All consumers Channel: E-mail Key message: VOI composition is published. Please read and acknowledge before 2026-10-20.
MP-061.7	Schedule review Task: Verify, Record & Close	Transformation Manager Plan	Planned activities (one per line): 1. Update 2. Archive Start: 2026-10-07 End: 2026-11-29
MP-061.8	Update Task: Verify, Record & Close	Transformation Manager Change	Change made: VOI composition updated to reflect specification not met. Reason: Result of the periodic review
MP-061.9	Archive Task: Verify, Record & Close	Transformation Manager Closure	Closure evidence: VOI composition closed; effectiveness verified and evidence archived. Closure date: 2026-10-09

DMS012 (MP-073) — Innovation Pipeline Management

Capture ideas; evaluate/prioritize; manage projects; measure ROI. Owner: Transformation Manager. Tier 3.

Step	Step and task	Role · form	What to type
MP-073.1	Capture ideas Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Digitize products and services records to cut cycle time 2. Extend certification to win products and services tenders 3. Supplier development programme for products and services Source / evidence: Workshop records and Innovation ideas
MP-073.2	Evaluate feasibility/impact Task: Plan & Prepare	Transformation Manager Assessment	Score (1–5): 4 Rationale and facts: 10 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-073.3	Prioritize Task: Plan & Prepare	Transformation Manager Assessment	Score (1–5): 3 Rationale and facts: 10 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-073.4	Manage projects Task: Execute	Transformation Manager Execution	Evidence of execution: Innovation pipeline completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-073.5	Track milestones Task: Execute	Transformation Manager Measurement	Indicator: Macro process sheet completeness Measured value: 95.1 Target: >= 98% Analysis: Trend improving versus last period; target met.

Step	Step and task	Role · form	What to type
MP-073.6	Validate outcomes Task: Execute	Transformation Manager Decision	Decision: Go Approver (Accountable): Transformation Manager Decision comment: Innovation pipeline confirmed against ISO 9001; no blocking issue.
MP-073.7	Measure ROI Task: Verify, Record & Close	Transformation Manager Measurement	Indicator: Continuity test success Measured value: 100 Target: 100% Analysis: Trend declining versus last period; action plan opened.
MP-073.8	Standardize successful Task: Verify, Record & Close	Transformation Manager Change	Change made: Innovation pipeline updated to reflect Use of an obsolete document version. Reason: Result of the periodic review

DMS018 (MP-079) — Blockchain Audit Trail

Create immutable trail; ensure integrity; enable tamper-proof records; simplify verification. Owner: Internal Audit Manager. Tier 3.

Step	Step and task	Role · form	What to type
MP-079.1	Define requirements Task: Plan & Prepare	Internal Audit Manager Register items	Items identified (one per line): 1. ISO 9001 2. ISO 14001 3. ISO 45001 Source / evidence: Workshop records and Audit data
MP-079.2	Hash records Task: Plan & Prepare	Internal Audit Manager Execution	Evidence of execution: Immutable trail completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-079.3	Write to blockchain Task: Plan & Prepare	Internal Audit Manager Document	Document reference: HZ-UNI-DMS018-03 Version: 1.1 Content summary: Immutable trail for products and services, aligned with ISO 9001.
MP-079.4	Verify integrity Task: Execute	Internal Audit Manager Assessment	Score (1–5): 5 Rationale and facts: 19 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-079.5	Enable access Task: Execute	Internal Audit Manager Configuration	Setting: Enable access Value: Enabled for Casablanca site with Immutable trail Notes: Validated in test before go-live
MP-079.6	Provide tools Task: Execute	Internal Audit Manager Configuration	Setting: Provide tools Value: Enabled for Casablanca site with Immutable trail Notes: Validated in test before go-live
MP-079.7	Monitor health Task: Verify, Record & Close	Internal Audit Manager Measurement	Indicator: Obligations mapped to process elements Measured value: 95.5 Target: 100% Analysis: Trend improving versus last period; target met.
MP-079.8	Report Task: Verify, Record & Close	Internal Audit Manager Communication	Audience: Auditors; Regulators Channel: Notice board Key message: Immutable trail is published. Please read and acknowledge before 2026-11-08.

DMS024 (MP-085) — Composable Module Governance

Manage reusable modules; ensure shareability across apps. Owner: Tenant Administrator. Tier 4.

Step	Step and task	Role · form	What to type
MP-085.1	Define catalog Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Module catalog 2. API specs

Step	Step and task	Role · form	What to type
			3. Version matrix Source / evidence: Workshop records and Module catalog
MP-085.2	Establish interfaces Task: Plan & Prepare	Tenant Administrator Execution	Evidence of execution: Module catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-085.3	Versioning Task: Plan & Prepare	Tenant Administrator Execution	Evidence of execution: Module catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-085.4	Enable sharing Task: Execute	Tenant Administrator Configuration	Setting: Enable sharing Value: Enabled for Casablanca site with Module catalog Notes: Validated in test before go-live
MP-085.5	Govern RBAC/tenant Task: Execute	Tenant Administrator Execution	Evidence of execution: Module catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-085.6	Monitor usage Task: Execute	Tenant Administrator Measurement	Indicator: Procedures with BPMN and exception flow Measured value: 88 Target: >= 90% Analysis: Trend declining versus last period; action plan opened.
MP-085.7	Manage lifecycle Task: Verify, Record & Close	Tenant Administrator Execution	Evidence of execution: Module catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-085.8	Report reuse/ROI Task: Verify, Record & Close	Tenant Administrator Communication	Audience: All DynamicMS applications; Product teams Channel: E-mail Key message: Module catalog is published. Please read and acknowledge before 2026-11-16.

DMS025 (MP-086) — Multi-Tenant Isolation and Governance

Ensure complete data isolation; enforce tenant-level config/branding/RBAC. Owner: Tenant Administrator. Tier 4.

Step	Step and task	Role · form	What to type
MP-086.1	Define isolation Task: Plan & Prepare	Tenant Administrator Register items	Items identified (one per line): 1. Isolation records 2. Config records 3. Access logs Source / evidence: Workshop records and Tenant config
MP-086.2	Implement context propagation Task: Plan & Prepare	Tenant Administrator Configuration	Setting: Implement context propagation Value: Enabled for Casablanca site with Isolation records Notes: Validated in test before go-live
MP-086.3	Enforce tenant_id Task: Plan & Prepare	Tenant Administrator Configuration	Setting: Enforce tenant_id Value: Enabled for Casablanca site with Isolation records Notes: Validated in test before go-live
MP-086.4	Configure tenant-level Task: Execute	Tenant Administrator Configuration	Setting: Configure tenant-level Value: Enabled for Casablanca site with Isolation records Notes: Validated in test before go-live
MP-086.5	Manage onboarding/offboarding Task: Execute	Tenant Administrator Execution	Evidence of execution: Isolation records completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-086.6	Monitor cross-tenant Task: Execute	Tenant Administrator Measurement	Indicator: Document approval cycle time Measured value: 5.2 Target: <= 5 days Analysis: Trend improving versus last period; target met.
MP-086.7	Conduct audits Task: Verify, Record & Close	Tenant Administrator Execution	Evidence of execution: Isolation records completed on core delivery process; records filed in DynamicMS. Completion (%): 100

Step	Step and task	Role · form	What to type
MP-086.8	Report compliance Task: Verify, Record & Close	Tenant Administrator Communication	Audience: Tenant admins; All tenant users Channel: E-mail Key message: Isolation records is published. Please read and acknowledge before 2026-11-24.

DMS028 (MP-089) — Real-Time Collaborative Editing and Co-Authoring

Enable simultaneous editing; presence awareness; conflict resolution; version history. Owner: Document Controller. Tier 5.

Step	Step and task	Role · form	What to type
MP-089.1	Enable multi-user sessions Task: Plan & Prepare	Document Controller Configuration	Setting: Enable multi-user sessions Value: Enabled for Casablanca site with Co-edited documents Notes: Validated in test before go-live
MP-089.2	Display presence Task: Plan & Prepare	Document Controller Execution	Evidence of execution: Co-edited documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-089.3	Apply CRDT Task: Plan & Prepare	Document Controller Configuration	Setting: Apply CRDT Value: Enabled for Casablanca site with Co-edited documents Notes: Validated in test before go-live
MP-089.4	Track contributions Task: Plan & Prepare	Document Controller Measurement	Indicator: Risks within appetite Measured value: 82.4 Target: >= 90% Analysis: Trend improving versus last period; target met.
MP-089.5	Inline comments Task: Execute	Document Controller Execution	Evidence of execution: Co-edited documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-089.6	Threaded discussions Task: Execute	Document Controller Execution	Evidence of execution: Co-edited documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-089.7	Version history Task: Execute	Document Controller Execution	Evidence of execution: Co-edited documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-089.8	Notify Task: Verify, Record & Close	Document Controller Communication	Audience: Document authors; Process owners Channel: Intranet Key message: Co-edited documents is published. Please read and acknowledge before 2026-12-01.
MP-089.9	Lock for approval Task: Verify, Record & Close	Document Controller Decision	Decision: Go Approver (Accountable): Document Controller Decision comment: Co-edited documents confirmed against ISO 9001; no blocking issue.
MP-089.10	Report analytics Task: Verify, Record & Close	Document Controller Communication	Audience: Document authors; Process owners Channel: Notice board Key message: Co-edited documents is published. Please read and acknowledge before 2026-12-03.

DMS033 (MP-094) — Digital Signature and E-Signature Workflow

Enable legally binding signatures; comply with eIDAS/ESIGN; automate workflows. Owner: Document Controller. Tier 5.

Step	Step and task	Role · form	What to type
MP-094.1	Define requirements Task: Plan & Prepare	Document Controller Register items	Items identified (one per line): 1. ISO 9001 2. ISO 14001 3. ISO 45001

Step	Step and task	Role · form	What to type
			Source / evidence: Workshop records and Documents
MP-094.2	Integrate providers Task: Plan & Prepare	Document Controller Configuration	Setting: Integrate providers Value: Enabled for Casablanca site with Signed documents Notes: Validated in test before go-live
MP-094.3	Verify identity Task: Plan & Prepare	Document Controller Assessment	Score (1–5): 3 Rationale and facts: 15 evidence items reviewed. Main driver: Use of an obsolete document version. Linked standard: ISO 9001.
MP-094.4	Route for signature Task: Plan & Prepare	Document Controller Execution	Evidence of execution: Signed documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-094.5	Capture with timestamps Task: Execute	Document Controller Register items	Items identified (one per line): 1. Signed documents 2. Signature certificates 3. Audit trail Source / evidence: Workshop records and Documents
MP-094.6	Store certificates Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Signed documents generated automatically by the DynamicMS Engine
MP-094.7	Provide audit trail Task: Execute	Document Controller Configuration	Setting: Provide audit trail Value: Enabled for Casablanca site with Signed documents Notes: Validated in test before go-live
MP-094.8	Bulk signatures Task: Verify, Record & Close	Document Controller Execution	Evidence of execution: Signed documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-094.9	Multi-party Task: Verify, Record & Close	Document Controller Execution	Evidence of execution: Signed documents completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-094.10	Report analytics Task: Verify, Record & Close	Document Controller Communication	Audience: Document authors; Approvers Channel: Meeting Key message: Signed documents is published. Please read and acknowledge before 2026-12-13.

DMS039 (MP-100) — Low-Code Process Builder and Workflow Designer

Enable citizen developers; drag-and-drop; reduce IT dependency; accelerate digitization. Owner: Transformation Manager. Tier 5.

Step	Step and task	Role · form	What to type
MP-100.1	Provide designer Task: Plan & Prepare	Transformation Manager Configuration	Setting: Provide designer Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.2	Enable form building Task: Plan & Prepare	Transformation Manager Configuration	Setting: Enable form building Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.3	Configure rules Task: Plan & Prepare	Transformation Manager Configuration	Setting: Configure rules Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.4	Connect data/APIs Task: Plan & Prepare	Transformation Manager Configuration	Setting: Connect data/APIs Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.5	Test in sandbox Task: Execute	Transformation Manager Assessment	Score (1–5): 3 Rationale and facts: 15 evidence items reviewed. Main driver: late delivery to customer. Linked standard: ISO 9001.
MP-100.6	Deploy Task: Execute	DynamicMS Engine Automated service task	System result confirmed: Custom workflows generated automatically by the DynamicMS Engine
MP-100.7	Monitor performance	Transformation Manager	Indicator: Continuity test success

Step	Step and task	Role · form	What to type
	Task: Execute	Measurement	Measured value: 100 Target: 100% Analysis: Trend improving versus last period; target met.
MP-100.8	Governance/versioning Task: Verify, Record & Close	Transformation Manager Execution	Evidence of execution: Custom workflows completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-100.9	Enable training Task: Verify, Record & Close	Transformation Manager Configuration	Setting: Enable training Value: Enabled for Casablanca site with Custom workflows Notes: Validated in test before go-live
MP-100.10	Report adoption Task: Verify, Record & Close	Transformation Manager Communication	Audience: Business users; Process owners Channel: Meeting Key message: Custom workflows is published. Please read and acknowledge before 2026-12-23.

DMS040 (MP-101) — Marketplace for Templates, Connectors, and Industry Packs

Provide marketplace; enable contributions; accelerate deployment; new revenue. Owner: Transformation Manager. Tier 5.

Step	Step and task	Role · form	What to type
MP-101.1	Define architecture Task: Plan & Prepare	Transformation Manager Register items	Items identified (one per line): 1. Marketplace catalog 2. Certified templates 3. Connectors Source / evidence: Workshop records and Templates
MP-101.2	Enable onboarding Task: Plan & Prepare	Transformation Manager Configuration	Setting: Enable onboarding Value: Enabled for Casablanca site with Marketplace catalog Notes: Validated in test before go-live
MP-101.3	Provide guidelines Task: Plan & Prepare	Transformation Manager Configuration	Setting: Provide guidelines Value: Enabled for Casablanca site with Marketplace catalog Notes: Validated in test before go-live
MP-101.4	Review/certify Task: Plan & Prepare	Transformation Manager Measurement	Indicator: Document approval cycle time Measured value: 5.2 Target: <= 5 days Analysis: Trend improving versus last period; target met.
MP-101.5	Publish Task: Execute	Transformation Manager Document	Document reference: HZ-UNI-DMS040-05 Version: 1.0 Content summary: Marketplace catalog for products and services, aligned with ISO 9001.
MP-101.6	Enable browsing/purchase Task: Execute	Transformation Manager Configuration	Setting: Enable browsing/purchase Value: Enabled for Casablanca site with Marketplace catalog Notes: Validated in test before go-live
MP-101.7	Ratings/reviews Task: Execute	Transformation Manager Execution	Evidence of execution: Marketplace catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-101.8	Track analytics Task: Verify, Record & Close	Transformation Manager Measurement	Indicator: Macro process sheet completeness Measured value: 95.1 Target: >= 98% Analysis: Trend declining versus last period; action plan opened.
MP-101.9	Revenue sharing Task: Verify, Record & Close	Transformation Manager Execution	Evidence of execution: Marketplace catalog completed on core delivery process; records filed in DynamicMS. Completion (%): 100
MP-101.10	Update continuously Task: Verify, Record & Close	Transformation Manager Change	Change made: Marketplace catalog updated to reflect specification not met. Reason: Result of the periodic review

Gate — G12 — Improvement cycle closed

Exit criteria: Improvement pipeline prioritized by ROI; lessons learned capitalized in the knowledge base.

151. Open Lifecycle and select the phase card; the gate panel is on the right.
152. Tick “Improvement ideas prioritized by ROI (mandatory, evidence required)”.
153. Tick “Lessons learned indexed in knowledge base (mandatory, evidence required)”.
154. Sign in as Top Management (ceo@...) or the IMS Manager and select Go. For Hold or No-Go, type a comment explaining why.

Records created along the run

Besides the workflow steps, the run creates records in the Records and Governance menus. The examples below are the ones seeded in the demonstration; type the same values to reproduce them.

Report a problem (nonconformity)

155. Open Records › Nonconformities and select Report a problem.
156. Title: type “late delivery to customer”.
157. Description: type “Detected on 2025-10-31 at core delivery process. Immediate containment applied and affected items segregated.”.
158. Source: choose Process. Criticality: choose Minor.
159. Select Submit. A Critical problem raises an alert to the Quality Manager and top management.
160. Open the nonconformity and select Move to Analysis, then type the root cause (“Unclear responsibility at shift handover”).
161. Select Add action: type the title, choose an owner and a different evaluator, and a due date.
162. When all actions are closed, move to Verification then Closed; type the lessons learned (what went well, what did not, recommendation).

Record a risk

163. Open Governance › Risks and opportunities and select Add.
164. Title: “Business interruption”; kind Risk; likelihood 5; impact 4.
165. Treatment: “Reduce”, then select Save. The heatmap updates immediately.

Code	Kind	Title	L × I
RSK-19	Risk	Business interruption	$5 \times 4 = 20$
H-02	Hazard	slips and falls	$4 \times 5 = 20$
UNI-R04	Risk	Broken process hierarchy (orphan or misplaced elements)	$4 \times 4 = 16$
Q-R02	Risk	specification not met	$4 \times 4 = 16$
RSK-01	Risk	Use of an obsolete document version	$5 \times 3 = 15$

Record a KPI measurement

166. Open Governance › KPIs and select KPI-01 — Policy review on time rate.
167. In Record a measurement, type the period (for example 2026-09) and the value (for example 95.8); target 100%.

168. Select Record. A value off target raises a KPI alert to the Performance Manager and the IMS Manager.

Audit programme

Code	Audit	Standard	Planned	Status
AUD-HZ-UNI-QHSE-01	Internal audit — People To Capability	ISO 9001	2026-02-12	Completed
AUD-HZ-UNI-QHSE-02	Internal audit — Requirements To Delivery	ISO 9001	2026-04-13	Completed
AUD-HZ-UNI-QHSE-03	Internal audit — Risk To Resilience	ISO 14001	2026-05-03	Completed
AUD-HZ-UNI-QHSE-04	Supplier audit — Requirements To Delivery	ISO 9001	2026-05-13	Completed
AUD-HZ-UNI-QHSE-05	Mock certification audit — Compliance To Achievement	ISO 9001, ISO 14001, ISO 45001	2026-06-22	Completed
AUD-HZ-UNI-QHSE-06	Internal audit — Verification To Preparedness	ISO 45001	2026-08-11	Completed
AUD-HZ-UNI-QHSE-07	Certification audit (stage 2) — Compliance To Achievement	ISO 9001, ISO 14001, ISO 45001	2026-08-31	Completed
AUD-HZ-UNI-QHSE-08	Surveillance audit — Monitoring To Evaluation	ISO 9001, ISO 14001, ISO 45001	2026-11-27	Planned

To add a finding: open the audit, select Add finding, choose the type (Major, Minor, Observation, OFI), type the clause and the finding; for Major and Minor choose the action owner and a different evaluator.

Documented information

Code	Title	Type	Version	Status
HZ-UNI-QHSE-ASP	Environmental aspects and impacts register	Register	1.1	Published
HZ-UNI-QHSE-CP	Control plan — products and services	Plan	2.0	In review
HZ-UNI-QHSE-ERP	Emergency preparedness and response plan	Plan	1.0	Published
HZ-UNI-QHSE-HIRA	Hazard identification and risk assessment (HIRA)	Register	1.1	Published
HZ-UNI-QHSE-LEG	Legal and other requirements register	Register	1.0	Published
HZ-UNI-QHSE-MAN	Management System Manual	Manual	1.1	Published
HZ-UNI-QHSE-MAP	Process map	Map	1.0	Published
HZ-UNI-QHSE-POL	Integrated QHSE Policy	Policy	1.1	Published

To revise a document: open it, select New version, choose Minor or Major, type the summary of change and the content, then Submit for review. Another user approves and publishes it; the author cannot approve their own version.

Export the management review report

169. Open Insight > Reports.
170. Choose the format (PDF, Excel, Word or CSV) and the language.
171. Select Download on Management review input. The report compiles objectives, KPIs, audit results, nonconformities and phase status.

The screenshot shows the 'Nonconformities' section of the DynamicMS application. The left sidebar contains a navigation menu with categories: FAVORITES, WORK, GOVERNANCE, and RECORDS. The 'Nonconformities' item is highlighted under the RECORDS category. The main content area is titled 'Nonconformities' and includes a description: 'Problems move through five stages: open, analysis, action, verification and closure with lessons learned.' There is a '+ Report a problem' button. Below the description, there are tabs for 'Open - 1', 'Closed - 9', and 'All'. A table displays the nonconformity records:

Code	Title	Source	Criticality	Stage	Detected	Owner	Actions
NC-HZ-UNI-QHSE-010	Oil spill in chemical storage area	Incident	Minor	Action	1 Sept 2026	Karim Tazi	2

Figure — Nonconformity register of the project.

The screenshot shows the 'Reports' section of the DynamicMS application. The left sidebar is identical to the previous screenshot. The main content area is titled 'Reports' and includes a description: 'Every report is computed from the live records of the project and exported in the language you choose.' There is an 'Export options' panel on the left with the following settings:

- Format:** PDF (selected), Excel, Word, CSV
- Language:** English (selected), Français, العربية

On the right, there are several report cards, each with a 'Download PDF' button:

- Project status report
- KPI report
- Risk register
- Master document list
- Execution log
- Management review input
- Nonconformity register
- Audit programme
- RACSI matrix

At the bottom, there is a section titled 'Report catalog of the process design'.

Figure — Reports: choose the format and language, then download.

Appendix — Frequent questions

Question	Answer
I cannot complete a step.	The step is assigned to another role, or its phase gate is passed. Sign in with the role shown on the step, or ask the IMS Manager.
The Go button is disabled.	Some steps of the phase are still open. The gate panel shows how many.
Can the same person own and evaluate an action?	No. The application refuses it on screen and on the server.
Where are my changes recorded?	Every change is written to the audit trail (Administration › Audit trail) and versioned records keep their history.
Does the AI Assistant send my data outside?	No. Answers are built from DynamicMS content and your records; no external AI service is called.
