Part 1 — Executive Summary

1.1 Document Purpose

This catalog defines the complete **commercial architecture** for DynamicMS — Packs, Integrations, and Add-Ons — with pricing, deployment modes, and customer fit. It is designed to maximize revenue per customer, minimize sales friction, and ensure that every segment (from SMEs to multinationals) has an accessible entry point.

1.2 Commercial Model Overview

Component	Count	Purpose
Packs	12	Bundled capability offerings (base + industry + capability)
Integrations	12	External application connectors that extend platform value
Add-Ons	12	Modular feature extensions sold a-la-carte
Deployment Modes	7	From SaaS to Air-Gapped On-Prem
Compliance & Security Standards	5	Optional control scaffolds (GDPR, ISO/IEC 27001, SOC 2, ISO 9001, HIPAA) — not certifications

1.3 Pricing Philosophy

- **Minimum SaaS Price:** $40/month (DMS-SME — entry point for micro-SMEs)
- **Value-Based Pricing:** Price reflects the compliance, safety, and financial risk mitigated
- **Modular:** Customers buy 1 base pack + 1–2 industry packs + 0–3 capability packs + optional add-ons
- **Scales with Isolation:** More secure deployment modes (Private Cloud, On-Prem, Air-Gapped) carry higher prices
- **Annual Discount:** 15% off for annual commitment; 25% off for 3-year commitment

1.4 Deployment Modes Overview

Mode	Code	Description	Typical Customer
SaaS (Multi-Tenant Shared)	**DEP-1**	Shared infrastructure, logical isolation	SMEs, mid-market
Public Cloud — Multi-Tenant Subscription	**DEP-2**	Dedicated instance on shared cloud, multi-tenant logic	Mid-market, multi-site
Public Cloud — Single-Tenant Subscription	**DEP-3**	Dedicated infrastructure, single customer	Enterprise, regulated
Customer Private Cloud	**DEP-4**	Customer's AWS/Azure/GCP tenancy	Large enterprise, regulated
Customer On-Prem (Data Center)	**DEP-5**	Customer's own data center	Regulated industries
Hybrid (Cloud + On-Prem)	**DEP-6**	Mix of cloud SaaS + on-prem edge	Distributed operations
Customer On-Prem — Air-Gapped	**DEP-7**	Fully isolated, no internet	Defense, government, critical infrastructure

1.5 Revision History

Version	Date	Changes
1.0	September 2026	Commercial architecture: 12 packs, 12 integrations, 12 add-ons, 7 deployment modes, pricing and bundles.
1.1	October 2026	Aligned with DynamicMS release 2026.10. Packs, prices, integrations, add-ons, deployment modes and bundles are unchanged. New Part 8 records how the application applies them: features and quotas per pack, macro processes licensed, the five Compliance & Security Standards, the price calculation, the integration console, licence files and points to confirm.

Part 2 — Packs Catalog (12 Optimized Packs)

2.1 Pack Overview Table

Pack ID	Pack Name	Type	Target Segment	Base SaaS Price (USD/month)
DMS-SME	SME Essentials	Base	SME	$40
DMS-PRO	Professional Multi-Standard IMS	Base	MFG, ELE, AEC, CON, RET, DST, LOG, RFA, TEL, SSE, PED, PUED	$399
DMS-ENT	Enterprise Regulated IMS	Base	AER, HLS, PHM, PHA, ENG, PCH, SHB, SEM, HCA	$1,999
DMS-AUTO	Automotive, Industrial & Manufacturing Pack	Industry	AUT, IND, SEM, FAB, MFG, ELE	$699
DMS-LSCI	Life Sciences & Healthcare Pack	Industry	HLS, PHM, PHA, HCA	$1,299
DMS-FOOD	Food Safety & Consumer Goods Pack	Industry	FNB, CPG, PCI, PPG	$699
DMS-PROC	Process, Energy & Infrastructure Pack	Industry	ENG, PCH, INF	$1,299
DMS-AERO	Aerospace & Defense Pack	Industry	AER	$1,999
DMS-MARI	Maritime & Shipbuilding Pack	Industry	SHB	$999
DMS-CERT	Certification & Audit Accelerator	Capability	All segments	$399
DMS-AI	AI Intelligence & Assurance	Capability	All segments	$799
DMS-ESG	ESG & Sustainability Pack	Capability	All segments	$599

2.2 Base Packs

Pack DMS-SME — SME Essentials

Pack ID	DMS-SME
Pack Name	SME Essentials
Target Segment	V-30 Small & Medium Enterprises (SME)
Value Proposition	**Behavior:** Cost-conscious, time-poor, multi-role owners; want quick wins. **Pain Points:** No dedicated QHSE staff; complex enterprise tools; informal processes. **Hopes:** Achieve ISO 9001/14001/45001 certification quickly at low cost; digitize tribal knowledge; grow without breaking compliance.
Related Modules	SME Onboarding, Simplified Process Modeling, Document Templates, Multi-Role User Management, Essential KPI Dashboard, Owner Dashboard, Simplified Risk Register, Simplified NCP
Related Macro Processes	UMS016, UMS022, UMS031, UMS002, UMS023, UMS006, UMS032, UMS024, UMS001, UMS047, UMS021, UMS011–UMS015, UMS027–UMS029, UMS010, UMS034, UMS036, UMS039, UMS040, GRC001–GRC003, GRC005, GRC008, GRC010, DMS082–DMS087, DMS089, DMS090, DMS092, DMS095, DMS096, DMS097, DMS099
Suggested Price	**$40/month** (SaaS Multi-Tenant, up to 25 users)
Deployment Modes	DEP-1, DEP-2, DEP-3
User Range	1–25
Storage	25 GB

Pack DMS-PRO — Professional Multi-Standard IMS

Pack ID	DMS-PRO
Pack Name	Professional Multi-Standard IMS
Target Segment	MFG, ELE, AEC, CON, RET, DST, LOG, RFA, TEL, SSE, PED, PUED
Value Proposition	**Behavior:** Process-driven, multi-site, ISO-certified; require scalability and multi-standard support. **Pain Points:** Fragmented QHSE data; disconnected standards; manual audits; high cost of certification maintenance. **Hopes:** Unified IMS across standards; real-time visibility; automated audit readiness; predictable certification cycles.
Related Modules	Context, Policy, Objectives, Process Architecture, Risk, Compliance, Document Control, Records, Performance Management, Governance, Internal Audit, CAPA, Supplier Quality, Metrology
Related Macro Processes	All Tier 1 (40) + Tier 2 subset + Tier 3 (DMS001, DMS002, DMS003, DMS004, DMS008, DMS014, DMS015, DMS017, DMS020) + Tier 4 (all 7) + Tier 5 (DMS029, DMS034, DMS035, DMS038, DMS039, DMS041, DMS043, DMS044)
Suggested Price	**$399/month** (SaaS Multi-Tenant, up to 100 users)
Deployment Modes	All 7
User Range	26–100
Storage	250 GB

Pack DMS-ENT — Enterprise Regulated IMS

Pack ID	DMS-ENT
Pack Name	Enterprise Regulated IMS
Target Segment	AER, HLS, PHM, PHA, ENG, PCH, SHB, SEM, HCA
Value Proposition	**Behavior:** Highly regulated, multi-national, complex supply chains; require deep compliance and governance. **Pain Points:** Multiple certifications; regulatory scrutiny; audit overload; disconnected enterprise systems (ERP, MES, LIMS). **Hopes:** Single source of truth for compliance; predictive risk management; regulatory foresight; full traceability.
Related Modules	All DMS-PRO modules + Advanced Governance + Multi-Tenant + Tenant Sovereignty + Formula Governance + Continuous Controls + Enterprise Simulation
Related Macro Processes	All Tier 1 (40) + All Tier 2 (21) + All Tier 3 (20) + All Tier 4 (7) + All Tier 5 (20) + Tier 6 (DMS048–DMS058, DMS061–DMS064, DMS069–DMS074, DMS077–DMS081)
Suggested Price	**$1,999/month** (SaaS Multi-Tenant, up to 500 users)
Deployment Modes	All 7
User Range	101–500
Storage	2 TB

2.3 Industry Packs

Pack DMS-AUTO — Automotive, Industrial & Manufacturing Pack

Pack ID	DMS-AUTO
Pack Name	Automotive, Industrial & Manufacturing Pack
Target Segment	AUT, IND, SEM, FAB, MFG, ELE
Value Proposition	**Behavior:** Safety-critical, high-volume, IATF/ISO 26262-driven; obsessed with PPM and OTD. **Pain Points:** Functional safety complexity; ASPICE compliance; supplier PPM escalation; conflict minerals. **Hopes:** Zero-defect manufacturing; ASIL/SIL compliance; multi-tier supplier visibility; certification without disruption.
Related Modules	Functional Safety, ASIL/SIL Management, TARA, Welding Quality, Conflict Minerals, Road Safety, Eco-design, APQP/PPAP, SPC
Related Macro Processes	DMS048, DMS049, DMS050, DMS051, DMS062, DMS063, DMS067, DMS070, DMS078 + applicable Tier 3–5
Suggested Price	**$699/month** (SaaS Multi-Tenant add-on)
Deployment Modes	All 7
Add-On To	DMS-PRO, DMS-ENT

Pack DMS-LSCI — Life Sciences & Healthcare Pack

Pack ID	DMS-LSCI
Pack Name	Life Sciences & Healthcare Pack
Target Segment	HLS, PHM, PHA, HCA
Value Proposition	**Behavior:** FDA/MDR/JCI-driven; zero tolerance for patient risk; audit-intensive. **Pain Points:** Data integrity (ALCOA+); CSV compliance; cleanroom excursions; adverse events; OOS investigations. **Hopes:** Always audit-ready; zero 483s; MDR/IVDR compliance; patient safety excellence.
Related Modules	Cleanroom, Medical Lab, Testing Lab, Clinical Data, Data Integrity, CSV, Adverse Events, Batch Release, Serialization
Related Macro Processes	DMS048, DMS061, DMS063, DMS064, DMS075, DMS076, DMS078, DMS079 + applicable Tier 3–5
Suggested Price	**$1,299/month** (SaaS Multi-Tenant add-on)
Deployment Modes	All 7
Add-On To	DMS-PRO, DMS-ENT

Pack DMS-FOOD — Food Safety & Consumer Goods Pack

Pack ID	DMS-FOOD
Pack Name	Food Safety & Consumer Goods Pack
Target Segment	FNB, CPG, PCI, PPG
Value Proposition	**Behavior:** HACCP/FSSC/BRCGS-driven; recall-sensitive; supply chain intensive. **Pain Points:** Allergen cross-contamination; foreign body; supplier verification; cold chain; FSMA/FSVP compliance. **Hopes:** Zero recalls; full traceability; GFSI certification; consumer trust.
Related Modules	HACCP, Allergen Management, Traceability, Recall, Foreign Body, Water Footprint, LCA, Cold Chain
Related Macro Processes	DMS061, DMS063, DMS064, DMS071, DMS075, DMS079, DMS080 + applicable Tier 3–5
Suggested Price	**$699/month** (SaaS Multi-Tenant add-on)
Deployment Modes	All 7
Add-On To	DMS-PRO, DMS-ENT

Pack DMS-PROC — Process, Energy & Infrastructure Pack

Pack ID	DMS-PROC
Pack Name	Process, Energy & Infrastructure Pack
Target Segment	ENG, PCH, INF
Value Proposition	**Behavior:** OSHA PSM/NERC CIP-driven; asset-intensive; safety-critical. **Pain Points:** PSM compliance; mechanical integrity; NERC CIP audits; water efficiency; exposure monitoring. **Hopes:** Zero process safety incidents; regulatory compliance; asset reliability; ESG performance.
Related Modules	PHA, PSSR, MOC, Mechanical Integrity, Exposure Monitoring, Medical Surveillance, API 510/570, NERC CIP, Water Efficiency, Asset Reliability
Related Macro Processes	DMS052, DMS053, DMS054, DMS055, DMS056, DMS057, DMS058, DMS061, DMS071, DMS073, DMS074, DMS080 + applicable Tier 3–5
Suggested Price	**$1,299/month** (SaaS Multi-Tenant add-on)
Deployment Modes	All 7
Add-On To	DMS-PRO, DMS-ENT

Pack DMS-AERO — Aerospace & Defense Pack

Pack ID	DMS-AERO
Pack Name	Aerospace & Defense Pack
Target Segment	AER
Value Proposition	**Behavior:** AS9100D/NADCAP-driven; ITAR-sensitive; national security. **Pain Points:** ITAR/EAR compliance; NADCAP audits; counterfeit parts; export control; CMMC. **Hopes:** Zero non-conformances; ITAR compliance; supply chain integrity; certification dominance.
Related Modules	AS9100D, NADCAP, ITAR/EAR, AS9120B, Functional Safety, Blockchain Audit Trail, Crisis Communication
Related Macro Processes	DMS048, DMS018 (Blockchain), DMS047 (Crisis) + applicable Tier 3–5
Suggested Price	**$1,999/month** (SaaS Multi-Tenant add-on)
Deployment Modes	All 7 (Air-Gapped critical)
Add-On To	DMS-ENT

Pack DMS-MARI — Maritime & Shipbuilding Pack

Pack ID	DMS-MARI
Pack Name	Maritime & Shipbuilding Pack
Target Segment	SHB
Value Proposition	**Behavior:** SOLAS/MARPOL/IACS-driven; classification-society dependent. **Pain Points:** IMO compliance; welding quality; marine pollution; classification surveys. **Hopes:** Zero detentions; IACS classification; MARPOL compliance; on-time delivery.
Related Modules	Maritime Safety, Marine Pollution, Welding Quality, Classification Surveys, Port State Control
Related Macro Processes	DMS059, DMS060, DMS062 + applicable Tier 3–5
Suggested Price	**$999/month** (SaaS Multi-Tenant add-on)
Deployment Modes	All 7
Add-On To	DMS-PRO, DMS-ENT

2.4 Capability Packs

Pack DMS-CERT — Certification & Audit Accelerator

Pack ID	DMS-CERT
Pack Name	Certification & Audit Accelerator
Target Segment	All segments seeking certification
Value Proposition	**Behavior:** First-time certification or multi-standard expansion; time-sensitive. **Pain Points:** Costly consultants; long certification cycles; audit surprises; finding gaps late. **Hopes:** Faster certification; lower consulting cost; predictable audits; audit-ready at all times.
Related Modules	Mock Audit, Certification Coordination, Multi-Standard Portfolio, Gap Diagnosis, Readiness Assessment
Related Macro Processes	UMS033, UMS037, UMS038, DMS035, DMS044, DMS090, DMS099
Suggested Price	**$399/month** (SaaS Multi-Tenant add-on)
Deployment Modes	All 7

Pack DMS-AI — AI Intelligence & Assurance

Pack ID	DMS-AI
Pack Name	AI Intelligence & Assurance
Target Segment	All segments wanting predictive capabilities
Value Proposition	**Behavior:** Data-driven, innovation-focused; early adopters of AI. **Pain Points:** Reactive compliance; missed early warnings; manual RCA; slow CAPA. **Hopes:** Predictive risk; automated RCA; AI-assisted CAPA; foresight over hindsight.
Related Modules	AI Predictive Risk, Predictive Compliance, Automated CAPA, NCP Knowledge Base (RAG), AI Agent Orchestration, AI Explainability, Automated Regulatory Scanning
Related Macro Processes	DMS001, DMS002, DMS003, DMS004, DMS005, DMS014, DMS015, DMS017, DMS019, DMS020, DMS021, DMS022, DMS023, DMS026, DMS027, DMS031, DMS038, DMS045
Suggested Price	**$799/month** (SaaS Multi-Tenant add-on)
Deployment Modes	DEP-1 to DEP-6

Pack DMS-ESG — ESG & Sustainability Pack

Pack ID	DMS-ESG
Pack Name	ESG & Sustainability Pack
Target Segment	All segments with ESG reporting obligations
Value Proposition	**Behavior:** Investor-driven, customer-driven ESG; CSRD/TCFD reporting; sustainability goals. **Pain Points:** Scope 3 data; carbon accounting; ESG reporting frameworks; stakeholder pressure. **Hopes:** ESG compliance; net-zero trajectory; investor confidence; brand differentiation.
Related Modules	ESG Management, Carbon Footprint, Scope 3, LCA, Water Footprint, Human Rights, Conflict Minerals, Modern Slavery, Eco-design
Related Macro Processes	DMS006, DMS007, DMS045, DMS066, DMS067, DMS068, DMS078, DMS079, DMS080, DMS081
Suggested Price	**$599/month** (SaaS Multi-Tenant add-on)
Deployment Modes	All 7

Part 3 — Integrations Catalog (12 Integrations)

3.1 Integration Overview Table

ID	Name	Category	Related Packs
INT-01	Odoo ERP Integration	ERP	DMS-SME, DMS-PRO
INT-02	SAP ERP / S/4HANA Integration	ERP	DMS-ENT, DMS-PRO
INT-03	ZenHR HRMS Integration	HR	DMS-PRO, DMS-ENT (MENA)
INT-04	Personio HR Integration	HR	DMS-PRO (Europe)
INT-05	HubSpot CRM Integration	CRM	DMS-PRO, DMS-SME
INT-06	Siemens Opcenter MES Integration	MES	DMS-AUTO, DMS-PRO
INT-07	Thermo Fisher SampleManager LIMS	LIMS	DMS-LSCI, DMS-FOOD
INT-08	ManWinWin CMMS Integration	CMMS	DMS-PROC, DMS-PRO
INT-09	EcoOnline EHS Software Integration	EHS	DMS-ENT, DMS-PRO
INT-10	AVEVA System Platform / SCADA	SCADA	DMS-PROC, DMS-AUTO
INT-11	Cercli Payroll Integration	Payroll	DMS-PRO (MENA)
INT-12	PaySpace Payroll Integration	Payroll	DMS-PRO (Africa)

3.2 Detailed Integration Specifications

INT-01 — Odoo ERP Integration

ID	INT-01
Name	Odoo ERP Integration
Goals	Sync master data (customers/suppliers/products); auto-create NCP from QC; pull Cost of Quality; push supplier audit findings
Example Applications	**Morocco:** Most widely deployed ERP among SMEs. **Europe:** Growing modular alternative. **Africa:** "Fastest-growing ERP." **Middle East:** Recognized player
Value Proposition	**Behavior:** Cost-conscious, agile SMEs. **Pain Points:** Data silos; manual reporting; unclear quality ROI. **Hopes:** Unified business view; automation; demonstrated quality ROI
Related Packs	DMS-SME, DMS-PRO, DMS-AUTO, DMS-FOOD, DMS-CERT

INT-02 — SAP ERP / S/4HANA Integration

ID	INT-02
Name	SAP ERP / S/4HANA Integration
Goals	Bidirectional material master sync; push inspection results to SAP QM; pull production/batch data; align GRC risk
Example Applications	**Morocco:** International groups. **Europe:** ~55% market share. **Africa:** Large enterprises. **Middle East:** GCC enterprises with ZATCA/WPS
Value Proposition	**Behavior:** Complex, regulated, global. **Pain Points:** SAP-QHSE disconnect; data latency; compliance gaps. **Hopes:** Closed-loop quality; boardroom visibility; brand protection
Related Packs	DMS-ENT, DMS-PRO, DMS-AUTO, DMS-LSCI, DMS-PROC

INT-03 — ZenHR HRMS Integration (Middle East)

ID	INT-03
Name	ZenHR HRMS Integration
Goals	Sync employee records for RBAC; trigger onboarding/offboarding; pull absence data; push training/competency records
Example Applications	**Middle East:** Leading cloud HRMS for KSA and MENA; compliant with local labor laws
Value Proposition	**Behavior:** MENA-focused, regulation-aware. **Pain Points:** HR-QHSE disconnect; manual compliance. **Hopes:** Unified workforce view; compliant operations
Related Packs	DMS-PRO, DMS-ENT, DMS-SME, DMS-LSCI, DMS-PROC

INT-04 — Personio HR Integration (Europe)

ID	INT-04
Name	Personio HR Integration
Goals	Sync employee data; automate personnel files for audits; manage health & safety training; track absences
Example Applications	**Europe:** Leading HR platform for SMEs (200–1,000 employees)
Value Proposition	**Behavior:** Efficiency-focused European SMEs. **Pain Points:** Fragmented HR/QHSE systems. **Hopes:** Single source of truth; compliance proof
Related Packs	DMS-PRO, DMS-SME, DMS-CERT, DMS-AI

INT-05 — HubSpot CRM Integration

ID	INT-05
Name	HubSpot CRM Integration
Goals	Auto-create complaints from deals/tickets; link CSAT/NPS; trigger investigations; push resolution back
Example Applications	**Morocco:** Popular with startups/SMEs. **Europe:** Primary CRM. **Africa:** Widely used. **Middle East:** Recognized CRM
Value Proposition	**Behavior:** Customer-centric, marketing-led. **Pain Points:** CX-QHSE silo; recurring complaints. **Hopes:** Truly customer-centric; loyalty
Related Packs	DMS-PRO, DMS-SME, DMS-CERT, DMS-AI, DMS-ESG

INT-06 — Siemens Opcenter MES Integration

ID	INT-06
Name	Siemens Opcenter MES Integration
Goals	Capture production data; trigger NCP from shop floor; push batch/genealogy; digital work instructions
Example Applications	**Europe:** Leading MES. **Africa:** Dominant industrial automation. **Middle East:** Major GCC player
Value Proposition	**Behavior:** Operations excellence, Industry 4.0. **Pain Points:** Time-to-quality gap; large non-conforming batches. **Hopes:** Real-time QC; zero defects
Related Packs	DMS-AUTO, DMS-PRO, DMS-ENT, DMS-FOOD, DMS-LSCI

INT-07 — Thermo Fisher SampleManager LIMS Integration

ID	INT-07
Name	Thermo Fisher SampleManager LIMS Integration
Goals	Auto-create OOS/OOT investigations; sync sample results; manage calibration/competence; ensure data integrity
Example Applications	**Europe:** Major LIMS player. **Africa:** Kenya Ministry of Health. **Middle East:** MAAZ in Saudi Arabia
Value Proposition	**Behavior:** Scientific, regulated. **Pain Points:** LIMS-QMS disconnect; manual entries. **Hopes:** Audit-ready at all times
Related Packs	DMS-LSCI, DMS-FOOD, DMS-PROC, DMS-ENT

INT-08 — ManWinWin CMMS Integration

ID	INT-08
Name	ManWinWin CMMS Integration
Goals	Trigger NCP/work order from equipment failure; sync calibration schedules; pull equipment history; manage spare parts quality
Example Applications	**Morocco/Africa:** Strong in PALOP and Zambia. **Europe:** Established in Southern Europe
Value Proposition	**Behavior:** Asset-intensive, pragmatic. **Pain Points:** Unpredictable downtime; no link to QHSE. **Hopes:** Proactive maintenance; reliability excellence
Related Packs	DMS-PROC, DMS-PRO, DMS-ENT, DMS-AUTO

INT-09 — EcoOnline EHS Software Integration

ID	INT-09
Name	EcoOnline EHS Software Integration
Goals	Consolidate incident reporting; sync chemical inventories/SDS; manage audits; roll up ESG metrics
Example Applications	**Europe:** Leading EHSQ SaaS. **Africa:** Available for South Africa
Value Proposition	**Behavior:** Multinational, integrated GRC. **Pain Points:** Fragmented EHS/QHSE data. **Hopes:** Unified One Company, One System
Related Packs	DMS-ENT, DMS-PRO, DMS-PROC, DMS-AERO

INT-10 — AVEVA System Platform / SCADA Integration

ID	INT-10
Name	AVEVA System Platform / SCADA Integration
Goals	Ingest real-time sensor data; auto-trigger NCP on threshold breach; use historical data for AI; unified dashboard
Example Applications	**Europe:** Market leader. **Africa:** Expanding in mining/energy. **Middle East:** Major modernization projects
Value Proposition	**Behavior:** Asset-intensive, digital transformation. **Pain Points:** OT/IT gap; missed warnings. **Hopes:** Unlock operational data; proactive prevention
Related Packs	DMS-PROC, DMS-AUTO, DMS-ENT, DMS-AI

INT-11 — Cercli Payroll Integration (Middle East)

ID	INT-11
Name	Cercli Payroll Integration
Goals	Sync employee/payroll data; calculate wages for medical leave; provide payroll data for fatigue analysis; labor law compliance
Example Applications	**Middle East:** Modern employee data platform for MENA; automates payroll, compliance, reimbursement
Value Proposition	**Behavior:** GCC-focused, WPS-compliant. **Pain Points:** Complex labor laws across GCC. **Hopes:** Compliant payroll linked to operations
Related Packs	DMS-PRO, DMS-ENT, DMS-SME

INT-12 — PaySpace Payroll Integration (Africa)

ID	INT-12
Name	PaySpace Payroll Integration
Goals	Sync employee data across 40+ African countries; automate statutory contributions; manage cross-border payroll; DEI metrics
Example Applications	**Africa:** True cloud HR/payroll across 40+ countries; used by Absa Group
Value Proposition	**Behavior:** Multi-country African operators. **Pain Points:** Legislative compliance across regimes. **Hopes:** Unified African workforce view
Related Packs	DMS-PRO, DMS-ENT, DMS-SME, DMS-ESG

4.2 Detailed Add-On Specifications

ADD-01 — Mobile Field Operations

ID	ADD-01
Name	Mobile Field Operations
Goals	Native iOS/Android apps; offline data capture; photo/video/voice evidence; GPS tagging; barcode scanning
Value Proposition	**Behavior:** Field-heavy operations (construction, utilities, field service). **Pain Points:** Paper forms; delayed data entry; poor field UX. **Hopes:** Real-time field data; evidence capture; remote oversight
Related Packs	All (especially DMS-PRO, DMS-ENT, DMS-SME, DMS-PROC)

ADD-02 — Voice-to-Text Reporting

ID	ADD-02
Name	Voice-to-Text Reporting
Goals	Hands-free incident/audit reporting; speech-to-text in EN/FR/AR; structured data extraction; auto-classification
Value Proposition	**Behavior:** Multilingual workforces (MENA, Africa); hands-busy roles. **Pain Points:** Typing delays; language barriers; incomplete reports. **Hopes:** Fast, accurate, multilingual reporting
Related Packs	DMS-PRO, DMS-ENT, DMS-AI, DMS-LSCI, DMS-PROC

ADD-03 — Augmented Reality Audits

ID	ADD-03
Name	Augmented Reality Audits
Goals	AR overlays for audit guidance; step-by-step visual instructions; remote expert assistance; AR evidence capture
Value Proposition	**Behavior:** Complex equipment; remote expertise needed. **Pain Points:** Auditor expertise gaps; travel costs; inconsistent audits. **Hopes:** Expert-guided audits; consistent quality; reduced travel
Related Packs	DMS-AUTO, DMS-PROC, DMS-ENT, DMS-AERO, DMS-PCH

ADD-04 — Digital Signatures (eIDAS)

ID	ADD-04
Name	Digital Signatures (eIDAS)
Goals	Legally binding signatures; eIDAS/ESIGN compliance; automated workflows; signature audit trail
Value Proposition	**Behavior:** Regulated industries; paper-heavy processes. **Pain Points:** Wet signatures; slow approvals; compliance risk. **Hopes:** Paperless; fast approvals; legal certainty
Related Packs	All

ADD-05 — Blockchain Audit Trail

ID	ADD-05
Name	Blockchain Audit Trail
Goals	Immutable audit trail; tamper-proof records; integrity verification; regulator access
Value Proposition	**Behavior:** Highly regulated; high-stakes compliance. **Pain Points:** Data tampering risk; audit verification cost. **Hopes:** Immutable trust; regulator confidence
Related Packs	DMS-AERO, DMS-LSCI, DMS-ENT, DMS-PROC

ADD-06 — Supplier Collaboration Portal

ID	ADD-06
Name	Supplier Collaboration Portal
Goals	Supplier self-service; quality submissions; automated onboarding; performance dashboards; CAPA collaboration
Value Proposition	**Behavior:** Complex supply chains; multi-tier visibility. **Pain Points:** Supplier data chase; manual SCARs. **Hopes:** Real-time supplier visibility; faster response
Related Packs	DMS-PRO, DMS-ENT, DMS-AUTO, DMS-FOOD

ADD-07 — Customer Feedback Portal

ID	ADD-07
Name	Customer Feedback Portal
Goals	Customer self-service; complaint capture; auto-routing; lifecycle tracking; NCP/CAPA link
Value Proposition	**Behavior:** B2C or B2B customer-facing. **Pain Points:** Complaints in email; slow resolution. **Hopes:** Fast resolution; customer trust
Related Packs	DMS-PRO, DMS-SME, DMS-RC, DMS-CERT

ADD-08 — Low-Code Process Builder

ID	ADD-08
Name	Low-Code Process Builder
Goals	Drag-and-drop workflow design; citizen developer enablement; sandbox testing; version governance
Value Proposition	**Behavior:** Process-innovation-hungry; IT-constrained. **Pain Points:** IT backlog; slow change. **Hopes:** Rapid digitization; business autonomy
Related Packs	DMS-PRO, DMS-ENT, DMS-CERT

ADD-09 — Marketplace Access

ID	ADD-09
Name	Marketplace Access
Goals	Access to templates, connectors, industry packs; third-party contributions; ratings/reviews
Value Proposition	**Behavior:** Ecosystem-oriented; accelerator-seeking. **Pain Points:** Slow deployment; custom build cost. **Hopes:** Fast deployment; best practices reuse
Related Packs	All

ADD-10 — Digital Twin Simulation

ID	ADD-10
Name	Digital Twin Simulation
Goals	Digital twin of processes; scenario simulation; outcome prediction; optimization recommendations
Value Proposition	**Behavior:** Innovation-focused; data-rich. **Pain Points:** Costly experiments; uncertain outcomes. **Hopes:** Virtual experimentation; confident decisions
Related Packs	DMS-AUTO, DMS-PROC, DMS-ENT, DMS-AI

ADD-11 — Voice of Customer Analytics

ID	ADD-11
Name	Voice of Customer Analytics
Goals	Aggregate VoC from all sources; NLP theme identification; prioritization; impact measurement
Value Proposition	**Behavior:** Customer-centric; data-driven. **Pain Points:** VoC noise; unclear priorities. **Hopes:** Systematic VoC; improvement prioritization
Related Packs	DMS-PRO, DMS-ENT, DMS-ESG, DMS-RC

ADD-12 — IoT Sensor Integration

ID	ADD-12
Name	IoT Sensor Integration
Goals	Real-time sensor ingestion; threshold/anomaly detection; auto-triggered workflows; predictive quality models
Value Proposition	**Behavior:** Industry 4.0; real-time visibility. **Pain Points:** Delayed detection; manual monitoring. **Hopes:** Real-time quality; predictive safety
Related Packs	DMS-AUTO, DMS-PROC, DMS-FOOD, DMS-ENT

Part 5 — Deployment Modes & Pricing Matrix

5.1 The Seven Deployment Modes

Mode	Code	Description	Isolation	Data Residency	Typical Customer
SaaS Multi-Tenant Shared	DEP-1	Shared infrastructure, logical isolation	Logical	Vendor-controlled	SMEs, mid-market
Public Cloud Multi-Tenant Sub.	DEP-2	Dedicated instance, multi-tenant logic	Logical + instance	Vendor-controlled	Mid-market, multi-site
Public Cloud Single-Tenant Sub.	DEP-3	Dedicated infrastructure, single customer	Physical + logical	Vendor-controlled region	Enterprise, regulated
Customer Private Cloud	DEP-4	Customer's AWS/Azure/GCP tenancy	Physical + customer-controlled	Customer-controlled	Large enterprise
Customer On-Prem (Data Center)	DEP-5	Customer's own data center	Full isolation	Fully customer-controlled	Regulated industries
Hybrid (Cloud + On-Prem)	DEP-6	Mix of cloud SaaS + on-prem edge	Mixed	Mixed	Distributed operations
On-Prem — Air-Gapped	DEP-7	Fully isolated, no internet	Physical + network	Fully customer-controlled	Defense, government, critical infrastructure

5.2 Pricing Multipliers per Mode

Mode	Code	Multiplier	Rationale
SaaS Multi-Tenant Shared	DEP-1	**1.0x**	Lowest cost of delivery
Public Cloud Multi-Tenant Sub.	DEP-2	**1.3x**	Dedicated instance overhead
Public Cloud Single-Tenant Sub.	DEP-3	**1.5x**	Full dedicated infrastructure
Customer Private Cloud	DEP-4	**2.0x**	Customer tenancy, high support
Customer On-Prem (Data Center)	DEP-5	**2.5x**	Hardware, deployment, support
Hybrid (Cloud + On-Prem)	DEP-6	**2.2x**	Mixed infrastructure
On-Prem — Air-Gapped	DEP-7	**4.0x**	Full isolation, on-site support, upgrades

5.3 Full Pricing Matrix per Pack per Mode (USD/month)

6.3 Enterprise Agreement Structures

Tier	Users	Commitment	Discount	SLA
Standard	Up to 100	Annual	15%	99.5% uptime
Professional	101–500	Annual	20%	99.9% uptime
Enterprise	501–2,000	3-year	25%	99.95% uptime
Global	2,000+	3-year	30% + dedicated CSM	99.99% uptime

Part 7 — Customer Profile & Value Fit

7.1 Customer Behavior, Pain Points & Hopes per Segment Cluster

SME Cluster (V-30)

Behavior	Owner-operated; cost-conscious; multi-role employees; informal processes; growth-driven
Pain Points	No QHSE staff; complex enterprise tools; manual compliance; fear of audits
Hopes	Fast certification; low cost; digital tribal knowledge; scale without breaking
Pack Fit	DMS-SME at $40/mo with optional DMS-CERT and DMS-AI

Professional Cluster (MFG, ELE, AEC, CON, RET, DST, LOG, RFA, TEL, SSE, PED, PUED)

Behavior	Process-driven; ISO-certified; multi-site; efficiency-focused
Pain Points	Fragmented QHSE; disconnected standards; manual audits; high certification cost
Hopes	Unified IMS; real-time visibility; automated audit readiness
Pack Fit	DMS-PRO at $399/mo + 1 Industry Pack + 1–2 Capability Packs

Enterprise Regulated Cluster (AER, HLS, PHM, PHA, ENG, PCH, SHB, SEM, HCA)

Behavior	Highly regulated; multi-national; complex supply chains; audit-intensive
Pain Points	Multiple certifications; regulatory scrutiny; enterprise system silos
Hopes	Single source of truth; predictive risk; regulatory foresight; full traceability
Pack Fit	DMS-ENT at $1,999/mo + 1–2 Industry Packs + 2–3 Capability Packs

Automotive Cluster (AUT, IND, SEM, FAB, MFG)

Behavior	Safety-critical; high-volume; IATF/ISO 26262-driven; PPM/OTD-obsessed
Pain Points	Functional safety; ASPICE; supplier PPM; conflict minerals
Hopes	Zero defects; ASIL/SIL compliance; multi-tier visibility
Pack Fit	DMS-PRO + DMS-AUTO + DMS-AI + ADD-03, ADD-06, ADD-12

Life Sciences Cluster (HLS, PHM, PHA, HCA)

Behavior	FDA/MDR/JCI-driven; zero tolerance for patient risk; audit-intensive
Pain Points	Data integrity; CSV; cleanroom; adverse events; OOS
Hopes	Always audit-ready; zero 483s; MDR compliance; patient safety
Pack Fit	DMS-ENT + DMS-LSCI + DMS-AI + DMS-ESG + ADD-04, ADD-05

Food & CPG Cluster (FNB, CPG, PCI, PPG)

Behavior	HACCP/FSSC-driven; recall-sensitive; supply chain intensive
Pain Points	Allergen; foreign body; supplier verification; FSMA/FSVP
Hopes	Zero recalls; full traceability; GFSI certification
Pack Fit	DMS-PRO + DMS-FOOD + DMS-ESG + ADD-01, ADD-06

Process & Energy Cluster (ENG, PCH, INF)

Behavior	OSHA PSM/NERC CIP-driven; asset-intensive; safety-critical
Pain Points	PSM; mechanical integrity; NERC CIP; water efficiency
Hopes	Zero process safety incidents; asset reliability; ESG
Pack Fit	DMS-ENT + DMS-PROC + DMS-AI + DMS-ESG + ADD-01, ADD-10, ADD-12

Aerospace Cluster (AER)

Behavior	AS9100D/NADCAP-driven; ITAR-sensitive; national security
Pain Points	ITAR/EAR; NADCAP audits; counterfeit parts; CMMC
Hopes	Zero non-conformances; ITAR compliance; certification dominance
Pack Fit	DMS-ENT + DMS-AERO + DMS-AI + ADD-05, ADD-09

Maritime Cluster (SHB)

Behavior	SOLAS/MARPOL/IACS-driven; classification-society dependent
Pain Points	IMO compliance; welding quality; marine pollution
Hopes	Zero detentions; IACS classification; on-time delivery
Pack Fit	DMS-ENT + DMS-MARI + DMS-ESG + ADD-01

7.2 Pack Fit Summary

Pack	Best-Fit Customer Profile	Typical Deal Size (DEP-1)
DMS-SME	Owner-operated SMEs seeking first certification	$40–$200/mo
DMS-PRO	Multi-site, ISO-certified mid-market	$800–$2,500/mo
DMS-ENT	Regulated, multi-national enterprises	$3,500–$15,000/mo
DMS-AUTO	Automotive, industrial, manufacturing	+$699/mo
DMS-LSCI	Pharma, medical device, healthcare	+$1,299/mo
DMS-FOOD	Food, beverage, CPG	+$699/mo
DMS-PROC	Energy, petrochemical, infrastructure	+$1,299/mo
DMS-AERO	Aerospace, defense	+$1,999/mo

Pack	Best-Fit Customer Profile	Typical Deal Size (DEP-1)
DMS-MARI	Shipbuilding, maritime	+$999/mo
DMS-CERT	Any segment seeking certification	+$399/mo
DMS-AI	Data-driven, innovation-focused	+$799/mo
DMS-ESG	Investor/customer-driven ESG	+$599/mo

Part 8 — Entitlements as Implemented in DynamicMS 2026.10

This part records how release 2026.10 of DynamicMS applies the commercial architecture of Parts 1 to 7. The packs, prices, integrations, add-ons, deployment modes and bundles are implemented as published; the application adds the rules below.

8.1 Principles

- **Licence content.** An organization holds one base pack, any industry and capability packs, add-ons and Compliance & Security Standards, and one deployment mode.
- **Features add up.** The base pack gives a set of features; capability packs and add-ons add theirs. Industry and capability packs also license their macro processes (8.3).
- **Quotas.** Ceilings (users, projects, organization-chart nodes, custom AI use cases, rows per table) come from the base pack.
- **Enforcement.** Entitlement is checked on the server, independently of user roles. A screen that is not licensed is hidden from the menu, and the server refuses the action with the message “This feature is not included in the organization’s configuration.”

8.2 Base Packs: Features and Quotas

Pack	Features	AI tier	Users	Projects	OBS nodes	Custom AI use cases	Rows per table
DMS-SME	Core IMS workspace; Governance (rules, controls, risks, RACSI); Assistive AI; AI Assistant; Internal benchmarking; WBS and Gantt planning	Assistive	25	10	80	2	2,000
DMS-PRO	Core IMS workspace; Governance (rules, controls, risks, RACSI); Full BPMN editing; Assistive AI; AI Assistant; Internal benchmarking; Group benchmarking; WBS and Gantt planning; External integrations; Vertical management; Multi-site operations	Assistive	100	60	600	10	10,000
DMS-ENT	Core IMS workspace; Governance (rules, controls, risks, RACSI); Full BPMN editing; Assistive AI; Augmented AI; AI Assistant; Internal benchmarking; Group benchmarking; WBS and Gantt planning; External integrations; Vertical management; Multi-site operations	Assistive + Augmented	500	500	5,000	50	50,000

8.3 Industry Packs, Capability Packs and Add-Ons

Item	What it licenses	Feature added	Status in 2026.10
DMS-AUTO	9 macro processes (Tier 6 and related)	—	Licensed
DMS-LSCI	8 macro processes (Tier 6 and related)	—	Licensed
DMS-FOOD	7 macro processes (Tier 6 and related)	—	Licensed
DMS-PROC	12 macro processes (Tier 6 and related)	—	Licensed
DMS-AERO	3 macro processes (Tier 6 and related)	—	Licensed
DMS-MARI	3 macro processes (Tier 6 and related)	—	Licensed
DMS-CERT	7 macro processes	Certification & audit accelerator	Licensed; feature flag recorded
DMS-AI	18 macro processes	Augmented AI; AI Assistant	Licensed; 20,000 AI requests per month
DMS-ESG	10 macro processes	ESG & sustainability	Licensed; feature flag recorded
ADD-01	Mobile Field Operations	Mobile field operations	Entitlement recorded; no dedicated screen in 2026.10
ADD-02	Voice-to-Text Reporting	Voice-to-text reporting	Entitlement recorded; no dedicated screen in 2026.10
ADD-03	Augmented Reality Audits	Augmented reality audits	Entitlement recorded; no dedicated screen in 2026.10
ADD-04	Digital Signatures (eIDAS)	Digital signatures	Entitlement recorded; no dedicated screen in 2026.10
ADD-05	Blockchain Audit Trail	Blockchain audit trail	Entitlement recorded; no dedicated screen in 2026.10
ADD-06	Supplier Collaboration Portal	Supplier collaboration portal	Entitlement recorded; no dedicated screen in 2026.10
ADD-07	Customer Feedback Portal	Customer feedback portal	Entitlement recorded; no dedicated screen in 2026.10
ADD-08	Low-Code Process Builder	Low-code process builder	Entitlement recorded; no dedicated screen in 2026.10
ADD-09	Marketplace Access	Marketplace access	Entitlement recorded; no dedicated screen in 2026.10
ADD-10	Digital Twin Simulation	Digital twin simulation	Entitlement recorded; no dedicated screen in 2026.10
ADD-11	Voice of Customer Analytics	Voice of customer analytics	Entitlement recorded; no dedicated screen in 2026.10
ADD-12	IoT Sensor Integration	IoT sensor integration	Entitlement recorded; no dedicated screen in 2026.10

An SME organization that belongs to a vertical also receives the Tier 6 macro processes activated for that vertical (SME + vertical bundle).

8.4 Macro Processes Licensed by Pack

Pack	Type	Macro processes	Limits
DMS-SME	Base	50	Up to 25 users; 25 GB; 500 generated files/month; hierarchy up to Level 4
DMS-PRO	Base	64	Up to 100 users; 250 GB; 5,000 generated files/month; hierarchy up to Level 6
DMS-ENT	Base	135	Up to 500 users; 2 TB; 50,000 generated files/month; hierarchy up to Level 9
DMS-AUTO	Industry	9	Inherits base pack limits
DMS-LSCI	Industry	8	Inherits base pack limits
DMS-FOOD	Industry	7	Inherits base pack limits
DMS-PROC	Industry	12	Inherits base pack limits
DMS-AERO	Industry	3	Inherits base pack limits
DMS-MARI	Industry	3	Inherits base pack limits
DMS-CERT	Capability	7	Inherits base pack limits
DMS-AI	Capability	18	20,000 AI requests/month; inherits base pack limits
DMS-ESG	Capability	10	Inherits base pack limits

8.5 Compliance & Security Standards

Five standards can be activated independently of the packs. Each seeds a starting set of controls in the organization’s register and is priced per month, whatever the deployment mode.

ID	Standard	Price (USD/month)	Controls seeded
GDPR	GDPR	$149	Records of processing activities maintained Data subject requests answered within 30 days Personal data breach notified within 72 hours
ISO27001	ISO/IEC 27001	$199	Information security policy approved Access rights reviewed quarterly Backups tested at least once per release
SOC2	SOC 2	$199	Change management approvals recorded Logical access monitored
ISO9001	ISO 9001 scaffold	$99	Quality objectives reviewed at management review
HIPAA	HIPAA	$149	PHI access logged

Activating a Compliance & Security Standard seeds a starting scaffold of controls. It is not a certification, an external audit or a legal attestation of compliance.

8.6 Price Calculation in the Application

- **Lines.** Each pack and add-on is priced at its deployment-mode price (5.3); each Compliance & Security Standard at its flat price.

- **Bundle discount.** Applied automatically from the number of packs: 5% (1 industry), 10% (1 industry + 1 capability), 15% (1 industry + 2 capabilities), 20% (2 industry + 2 capabilities).
- **Commitment.** Annual commitment: 15% after the bundle discount. The 3-year rate (25%) and the Enterprise Agreement tiers of 6.3 are applied by contract; the application does not compute them.
- **Currency.** Subscription prices are in USD. The currencies enabled for an organization (for example MAD by default in Morocco) apply to the amounts recorded in the management system, such as nonconformity costs, not to subscription prices.

8.7 Integrations in the Application

- **Console.** Administration › Integrations lists the 12 connectors for each organization. For each: enable, endpoint, field mapping and credential. The credential is stored as a vault reference and never shown again.
- **Health check.** Test marks the connector OK or Failed and keeps its last five log entries. Release 2026.10 checks that a connector is configured (enabled, endpoint and credential); data exchange with the external system is not part of this release.
- **Entitlement.** The console requires the External integrations feature, included in DMS-PRO and DMS-ENT. Integrations listed for DMS-SME in Part 3 (INT-01, INT-03, INT-04, INT-05, INT-11, INT-12) therefore need DMS-PRO or DMS-ENT in the application.

8.8 Deployment Modes and Licence Files

- **SaaS and public cloud (DEP-1 to DEP-3).** Entitlements come from the platform configuration of each organization.
- **Private cloud, on-premises and air-gapped (DEP-4 to DEP-7).** The server reads a licence file signed with Ed25519 (customer, seats, expiry, packs). It checks the signature, the expiry date and that active users do not exceed the licensed seats. An administrator installs the file in Administration; no internet connection is needed.

8.9 Points to Confirm

Reference	Finding	Proposed action
4.2 ADD-03	Related packs list “DMS-PCH”, which is not a pack (PCH is a segment covered by DMS-PROC).	Replace with DMS-PROC or remove.
4.2 ADD-07, ADD-11	Related packs list “DMS-RC”, which is not a pack.	Confirm the intended pack or remove.
3.1–3.3	Integrations are listed for DMS-SME, but the application includes External integrations from DMS-PRO only.	Either add the feature to DMS-SME or remove DMS-SME from these integrations.
6.2, 6.3	Enterprise Agreement and 3-year discounts are not computed by the application.	Keep as contractual terms, or add them to the price calculation.

DynamicMS Commercial Architecture — Version 1.1

12 Packs. 12 Integrations. 12 Add-Ons. 7 Deployment Modes. 30 Segments. The #1 IMS Platform.
